The board is proposing a final dividend of 2.25p per share (2013: 0.75p). The final dividend is subject to shareholder approval at the AGM and will be paid on 25 September 2014 to those shareholders on the register at close of business on 29 August 2014. With the interim of 0.75p per share (2013: 0.75p) already paid, the total ordinary dividend for the year will amount to 3.0p per share (2013: 1.5p).

The board considers the results for the year to be highly satisfactory.

The Commercial Property Market

The commercial property market has continued its improvement during the second half of our year.

The investment market in London and the south east continues to be very strong. Investors looking for higher returns are extending their purchasing into most major cities with multi-let industrial buildings and high street shops being most in favour.

Provincial offices, in all but a very few centres, continue to be difficult to sell or let.

Tenant demand outside London and the south east remains patchy but the industrial market continues to be active. Selective high streets are now attracting tenants as are offices in some of the regional centres.

Central London continues to be a strong market for lettings and investment demand.

Business Overview

Investment transactions have been excellent in the second half. We enjoyed a number of notable successes including the largest sale in the history of the firm of an office block on the Old Street roundabout for £110m.

Our "SHIPS" funds have enjoyed a successful year and the return on our cash invested together with fees and carried interests have made a significant contribution to performance. Both the Basinghall Street and St Swithins Lane buildings were sold during the year providing returns to investors of 11% per annum and 20% per annum respectively.

A further acquisition for "SHIPS" was made in December with the purchase of a multi-let office building in Leadenhall Street adjacent to the "Cheesegrater" for circa £9m. The common parts and three floors of this building are currently being refurbished. We continue to look for similar situations.

The investment side of our business has started the new year with some good sale and purchase instructions but it will be a challenge to match this year's performance.

Fund Management continues to perform well and its regular quarterly fee income is a valuable contribution to performance.

CHAIRMAN'S STATEMENT

The same can be said for Asset Management which had an excellent year with new business added.

Rating had a very difficult year and continues to be affected by the unacceptably slow progress the Valuation Office is making in settling outstanding appeals. It is hoped that the huge backlog will start to be agreed and our fee income in this area will grow again.

In my Interim Statement I reported an increase in valuations work and this trend has continued into the second half.

Outlook

We have had an excellent year and it will be a hard task to match the performance in the coming year. We have some good business in the pipeline but the higher margin transaction business requires not only hard work but also often relies on factors outside our control falling into place.

We are hopeful of picking up further Asset Management work this year and our SHIPS investors have indicated an appetite for further investments if we can find the stock.

As always I must pay tribute to our talented and hardworking team and to all our loyal clients without whom we would have no business.

DAVID FLETCHER

CHAIRMAN

8 August 2014

The Directors present the group strategic report for Fletcher King Plc and its subsidiary companies for the year end 30 April 2014.

Principal Activities

The Group provides a comprehensive range of property services and expert advice throughout the United Kingdom, including property fund management, property asset management, rating, valuations and investment broking.

Business Review

The Group continued its strategy of providing a range of property services to existing and new clients and key performance indicators for the Group for the year to 30 April were as follows:

	2014	2013
Revenue	£3,653,000	£3,031,000
Profit before taxation	£711,000	£292,000
Profit for the year	£542,000	£227,000
Earnings per share	5.89p	2.46p

The Group has benefitted during the year from a more buoyant market for property transactions and this has helped to offset the slow progress on ratings assessments caused by a backlog at the Valuation Office.

Cash generated from operations in the year amounted to £944,000 (2013: cash absorbed amounted to £129,000) and after investing activities and dividend payments the cash balance increased by £743,000 to £3,314,000. The group will continue to look for opportunities to participate in the in-house Syndicated Property Investments ('SHIPS'). The healthy cash balance provides financial flexibility and significant comfort for the future.

The Chairman's Statement contains a review of the Group's performance, financial results, future development and prospects and is incorporated into this Strategic Report by reference.

Principal Risks and Uncertainties

The Directors have identified below a number of risks which they believe may affect the Group's ability to deliver its strategic goals. This list does not purport to be an exhaustive summary of the risks affecting the Group, is given in no particular order of priority and contains risks considered to be outside the control of the Directors.

(i) Economic Risk

The main economic risks that would affect the Group's performance are a major slowdown in the UK economy and a slump in UK commercial property values. The Group has, where possible, implemented actions to mitigate some of the effects of these risks. This includes providing a comprehensive range of services, some being less influenced by economic factors than others.

(ii) Management of Growth

The ability of the Group to implement its strategy requires effective planning and management control systems. The speed at which the business develops may place significant strain on the Group's management, operational, financial and personnel resources. Failure to expand and improve operational, financial and management information and quality control systems in line with the Group's own growth could have detrimental impact on the trading performance of the Group. In mitigation the Group has an experienced management team and a clear strategy for the integration and management of the expected business growth.

(iii) Attraction and Retention of Key Employees

The Group will depend on the continued service and performance of the Executive Directors and key employees and whilst it has entered into contractual arrangements with these individuals with the aim of securing the services of each of them, retention of these services cannot be guaranteed. The loss of the services of Executive Directors or other key employees could damage the Group's business. Equally the ability to attract new employees and senior executives with the appropriate expertise and skills cannot be guaranteed. The Group may experience difficulties in hiring appropriate employees and failure to do so may have a detrimental effect upon the trading performance of the Group.

(iv) Financial Risk Management

Details of the Group's approach to financial risk management are disclosed in detail in note 23 to the financial statements.

(v) Forward-Looking Statements

This annual report contains forward-looking statements on Fletcher King Plc's future financial performance, results from operations, and goals and strategy. By definition, forward-looking statements carry risk and uncertainty because they refer to events in the future and depend on circumstances that cannot be foreseen in advance. Numerous factors can contribute to material deviation from results and developments indicated in forward-looking statements. Such factors can include general economic circumstances, scarcity on the labour market and the ensuing demand for personnel, changes in labour legislation, personnel costs, future interest rates, changes in tax rates, and future corporate mergers, acquisitions and divestments. Undue reliance should not be placed on these forward-looking statements. They are made at the time of publication of the annual financial statements of the company and in no way provide guarantees for future performance. All operating and business environments are subject to risk and uncertainty. For this reason, no assurances can be offered that the forward-looking statements published here will prove correct at a future date, and the company assumes no duty to update any such forward-looking statements.

The effective taxation charge was 22.8% (2013: 23.2%).

Future Developments

The Group has some good business in the pipeline although the higher margin transaction business requires not only hard work but also often relies on factors outside the Group's control falling into place. The Group is hopeful of picking up further Asset Management work this year and SHIPS investors have indicated an appetite for further investments subject to availability of suitable stock.

Capital and equity interests

Basic and diluted earnings per share from continuing operations amounted to 5.89p (2013: 2.46p).

During the year no shares were issued to directors or employees pursuant to the exercise of share options. The total number of ordinary shares in issue at 30 April 2014 was 9.2 million (2013: 9.2 million).

Cash flow and liquidity

Net cash inflow from operating activities amounted to £944,000 (2013: outflow of £129,000) which, after allowing for cash flows including dividends and capital expenditure, resulted in a net increase in cash balances of £743,000 (2013: decrease of £241,000).

At 30 April 2014, the Group's cash at bank and on short term deposit amounted to £3.3 million (2013: £2.6 million). This was deposited with leading banks.

Risk identification and Management

The identification, control and monitoring of risks facing the business remain a management priority.

Financial risk management

The Group manages its treasury operations in accordance with policies and procedures approved by the Board. Information about the Group's policies on financial instruments is set out in note 3 of the accounts. The Group has no borrowings. As the Group operates almost exclusively in the United Kingdom, there are no significant direct foreign exchange risks. The Group has in place a risk management programme that seeks to limit the adverse effects on the financial performance of the Group and these are outlined in note 23 to the accounts.

Directors Indemnity Insurance

As permitted by Section 233 of the Companies Act 2006, the Company has purchased insurance cover on behalf of the Directors indemnifying them against certain liabilities which may be incurred by them in relation to the Company.

Corporate social responsibility

The Board recognises the importance of social and environmental matters in the conduct of the Group's business and remains committed to social and environmental awareness throughout its operations, notwithstanding the relatively low environmental impact of the Group's activities.

Energy efficiency, recycling and the use of "fair trade" products are encouraged.

The Board recognises that enthusiastic, well-trained and high-quality staff are essential to the achievement of the Group's commercial objectives. Participation in the success of the Group is encouraged via comprehensive incentive schemes.

The Group provides employment on an equal basis irrespective of race, sex, disability, sexual orientation and religious beliefs. Employee communication and feedback is encouraged across the Group.

Authority to Allot Unissued Shares

In accordance with normal practice the Directors propose to take the usual authorities under Sections 551 and 570 of the Companies Act 2006. Therefore it is proposed to extend the Section 551 authority given at the last Annual General Meeting on 19 September 2013 for a further year in respect of ordinary 10p shares up to a maximum of 1,790,221 shares (£179,022). Apart from possible issues under Employee Share Option Schemes there is at present no intention of issuing any further ordinary shares. In any event, no issue will be made which would effectively alter the control of the Company without the prior approval of the Company in general meeting.

Purchase of Shares

The Directors, in line with boards of directors of other listed companies, consider that it would be appropriate for the Company to have the authority to purchase its own shares as one of a range of investment options available to them, more especially if the purchase of its own shares produced an improvement in earnings per share. Shareholders should be assured that the Board will commence share purchases only after careful consideration and after taking account of the overall financial position of the Group. An ordinary resolution will be proposed to authorise the Company to make market purchases of up to a maximum of 460,000 of its own shares, representing less than 5% of the existing issued ordinary shares. The maximum price to be paid on any exercise of the authority will be restricted to 5% above the average of the middle market quotation as derived from The London Stock Exchange Daily Official List for the ordinary shares for the ten dealing days immediately prior to purchase. The minimum price that may be paid for the ordinary shares is the nominal value of 10p per share. The authority for the purchase sought at the Annual General Meeting will expire at the conclusion of the following Annual General Meeting which is expected to take place in September 2015. The intention of the Board is to seek to renew the authority at future Annual General Meetings.

Statement of Directors' Responsibilities

The directors are responsible for preparing the Strategic Report, the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union and, as regards the parent company financial statements, as applied in accordance with the provisions of the Companies Act 2006. Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the group and of the profit or loss of the group for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and accounting estimates that are reasonable and prudent;
- state that the financial statements comply with IFRSs as adopted by the European Union;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the group will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Group's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors are also responsible for ensuring that they meet their responsibilities under the AIM rules.

The directors are responsible for the maintenance and integrity of the corporate and financial information included on the company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Disclosure of information to the auditors

In the case of each person who was a Director at the time this report was approved, so far as that Director was aware there was no relevant available information of which the Group and Company's auditors were unaware; and that Director had taken all steps that the Director ought to have taken as a Director to make himself aware of any relevant audit information and to establish that the Group and Company's auditors were aware of that information.

Auditors

A resolution to reappoint the auditors, Nexia Smith & Williamson, will be proposed at the forthcoming Annual General Meeting.

This report was approved by the Board on 8 August 2014.

1. General information

Fletcher King Plc ('the Company') and its subsidiaries (together 'the Group') carry on the business of property fund management, property asset management, rating, valuations and investment broking throughout the United Kingdom. The Company is a public limited company incorporated and domiciled in England and Wales and listed on the Alternative Investment Market ("AIM") of The London Stock Exchange. The registered office address is 61 Conduit Street, London W1S 2GB. These consolidated financial statements were approved for issue by the Board of Directors on 8 August 2014. They are presented in Sterling which is the Group's functional currency. The Group has no overseas operations.

2. Basis of preparation and presentation of financial statements

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the European Union and under the historical cost convention.

New standards and interpretations

At the date of authorisation of these financial statements, the following new standards and interpretations were in issue and relevant to the Group:

- IFRS 13 Fair Value Measurement

At the date of authorisation of these financial statements, the following new standards and interpretations are relevant to the Group and have been issued but have not been applied in these financial statements:-

- IFRS 9 Financial Instruments
- IFRS 10 Consolidated Financial Statements
- IFRS 12 Disclosure of Interests in Other Entities
- IAS 27 Separate Financial Statements

The directors do not anticipate that the adoption of these standards and interpretations will have a material impact on the Group's financial statements. Certain of these standards and interpretations will require additional disclosures over and above those currently included in these financial statements in the period of application.

The preparation of financial statements in accordance with IFRS requires the use of certain critical accounting estimates and also requires management to exercise judgement in applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are highly significant to the financial statements, are set out in note 3 below.

3. Principal accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies, which are also applicable to the financial statements of the Company, have been consistently applied to all the years presented.

Basis of consolidation

The financial statements consolidate the accounts of the Company and all subsidiary undertakings drawn up to the same year end.

Subsidiaries

Subsidiaries are entities over which the Group has the power to govern the financial and operating policies generally accompanying a shareholding of more than 50% of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity. Subsidiary entities are consolidated from the date on which control is transferred to the Group and are deconsolidated from the date on which control ceases.

In respect of subsidiaries, inter-company transactions, balances and unrealised gains on intra-group transactions are eliminated on consolidation.

The accounting policies of subsidiaries are changed where necessary to ensure consistency with the policies adopted by the Group.

Property, plant and equipment and depreciation

Property, plant and equipment are stated at historical cost, net of depreciation, at rates calculated to write off the cost, less residual value, of each asset over its expected useful life. Depreciation rates on a straight line basis are as follows:-

Motor vehicles	25%
Office furniture and fittings	25%
Computer equipment	33%
Short leasehold premium and improvements	10%

Cost includes expenditure that is directly attributable to the acquisition of the asset. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

Residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Gains and losses on disposal are determined by comparing proceeds with carrying amount. These are included in the income statement.

Segmental reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker as required by IFRS 8 "Operating Segments". The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Executive Committee.

Financial instruments

Financial assets and liabilities are recognised on the Group's balance sheet when the Group becomes a party to the contractual provisions of the instrument. Measurement depends on their classification and is discussed below:

(i) Investments

Investments held by the Company in subsidiary entities, not held for sale, are shown at cost less any provision for impairment.

The Directors determine the classification of investments held by the Group at initial recognition and re-evaluate this designation at each reporting date. At the balance sheet date all these investments were classified as available-for-sale. Available-for-sale investments are initially recognised at the fair value of the consideration given, including associated acquisition costs, which may equate to cost. On subsequent measurement, available-for-sale investments are measured at either fair value or at cost where fair value is not readily ascertainable. Changes in fair value are recognised in equity, together with the related deferred tax asset or liability. When such investments are disposed of, the accumulated gains or losses, previously recognised in equity, are transferred to the income statement.

Available-for-sale financial assets are included in non-current assets unless management intends to dispose of the investment within twelve months of the balance sheet date.

(ii) Trade and other receivables

Trade and other receivables are initially measured at fair value, and are subsequently measured at amortised cost using the effective interest method. A provision is established when there is objective evidence that the Group will not be able to collect all amounts due. The amount of any provision is recognised in the income statement.

All financial assets are reviewed annually for impairment, with any losses reflected in the income statement. Investment income is recognised in the income statement.

(iii) Cash and cash equivalents

Cash and cash equivalents include cash in hand, call deposits held with banks, and other short-term highly liquid investments with original maturities of three months or less.

(iv) Financial liabilities and equity

Financial liabilities and equity instruments issued by the group are classified in accordance with the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument. An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. The accounting policies adopted for specific financial liabilities and equity instruments are set out below.

(a) Trade and other payables

Trade and other payables are initially measured at fair value, and are subsequently measured at amortised cost using the effective interest rate method.

(b) Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction from the proceeds, net of tax.

Taxation

Current income tax is provided on taxable profits at the current rate. Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. Deferred income tax is determined using rates enacted at the balance sheet date which are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled. Deferred income tax assets are only recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Income tax and deferred tax are reflected in the income statement, unless they relate to items recognised in equity, in which case they are recognised in equity.

Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that the Group will be required to settle the obligation, and the amount can be reliably estimated. Provisions are measured at the Directors' best estimate of the expenditure required to settle the obligation at the balance sheet date.

Revenue recognition

Revenue comprises commissions and fees receivable excluding value added tax and is measured at fair value. Fees on property transactions and other contingent fee arrangements are recognised as earned on the unconditional completion of a contract or when a fee is contractually due. Fees for other professional services are recognised on completion of the assignment.

Interest and investment income is recognised on a time-proportion basis using the effective interest method.

Operating profit

Operating profit is stated before income from investments, finance income, costs and losses on impairment of available-for-sale investments and taxation.

Employee benefits

No pension schemes are operated by the Group. Contributions to employees' money-purchase pension schemes are made on an arising basis where these form part of contractual remuneration obligations. The Group recognises a liability and an expense for cash-settled bonuses when contractually obliged or when there is a past practice creating a constructive obligation.

Operating Leases

Leases where the lessor retains substantially all the risks and rewards of ownership are classified as operating leases. Payments made under operating leases are charged to the income statement on a straight-line basis over the period of the lease.

Dividend Distributions

Dividends to the Company's shareholders are recognised as a liability when paid (if interim dividends) or approved by shareholders (if final dividends).

Critical accounting estimates and assumptions

The preparation of the consolidated financial statements in conformity with International Financial Reporting Standards requires management to make estimates and assumptions concerning the future. While the resulting accounting estimates will, by definition, seldom equal the related actual results, in the opinion of the Directors the estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are detailed below.

(a) Impairment of available-for-sale investments

The fair value of available-for-sale investments is determined by reference to the underlying value of the assets of those investments at each balance sheet date. The Directors have made provisions for impairment where there is objective evidence that fair value is less than cost.

(b) Provisions for impairment of trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost less provision for impairment. The Directors have made provisions for impairment where there is objective evidence that the Group will not be able to collect all amounts due.

There have not been any provisions for impairment of available for sale investments or trade receivables in the year.

4. Segment Information – Group

IFRS 8 requires operating segments to be identified on the basis of internal reports about components of the Group that are regularly reviewed by the chief operating decision maker to allocate resources to the segments and to assess their performance. In accordance with IFRS 8 the chief operating decision maker has been identified as the Executive Committee. They review the Group's internal reporting in order to assess performance and allocate resources. The Executive Committee considers that the business comprises a single activity being General Services. Therefore, the Group is organised into one operating segment and there is one reporting segment. The segment information is the same as that set out in the consolidated statement of comprehensive income, consolidated statement of financial position, consolidated statement of changes in equity and consolidated statement of cash flows.

A provision for impairment of trade receivables is established when there is no objective evidence that the Group will be able to collect all amounts due according to the original terms. The group considers factors such as default or delinquency in payment, significant financial difficulties of the debtor and the probability that the debtor will enter bankruptcy in deciding whether the trade receivable is impaired.

As at 30 April 2014, trade receivables of £nil were impaired (2013: £nil).

As at 30 April 2014, trade receivables of £473,000 (2013: £444,000) were past due, but not impaired. The ageing analysis of these trade receivables is as follows:

The main purpose of these financial instruments is to provide finance for the Group's and the Company's operations.

The Group's and the Company's operations expose them to a variety of financial risks including credit risk, interest rate risk, and liquidity risk. Commensurate with the size of the Group, the directors set the policies regarding financial risk management, and these are implemented accordingly by Group companies.

Credit risk

The Group's credit risk is attributable both to trade receivables and to cash balances held. The Company's credit risk is attributable primarily to cash balances held. The Group has implemented policies to ensure that credit checks are made on potential clients before work is carried out on their behalf. The amount of exposure to any individual counterparty is subject to limits set by the directors. Cash balances held are deposited with leading banks.

The carrying amount of financial assets represents the maximum credit exposure. The maximum credit exposure to credit risk at the reporting date was:

	Group 2014 £000	Group 2013 £000	Company 2014 £000	Company 2013 £000
Trade receivables	972	1,113	-	-
Cash and other equivalents	3,314	2,571	1,070	1,123
Other receivables	22	110	-	-
	4,308	3,794	1,070	1,123

Interest rate risk

The Group and the Company have interest bearing assets, but no interest bearing liabilities. Interest bearing assets comprise only cash and cash equivalents which earn interest at a variable rate. The interest earned on the Group's and the Company's cash and cash equivalents, denominated in sterling, derived principally from Money Market deposits of differing fixed time periods, and from call deposits held with banks which provide short-term liquidity to meet liabilities when they fall due.

The Group and the Company are exposed to interest rate risk as a result of these positive cash balances. For the year ended 30 April 2014, if LIBOR had increased by 0.5% with all other variables held constant, post tax profit and equity for the Group would have been £15,000 (2013: £19,000) higher, and for the Company £6,000 (2013: £13,000) higher. Conversely, if LIBOR had decreased by 0.5% with all other variables held constant, post tax profit and equity for the Group would have been £15,000 (2013: £19,000) lower, and for the Company £6,000 (2013: £13,000) lower.

The Group's cash and cash equivalents earned interest during the year at an average of 0.5% (2013: 0.5%), and the Company's cash and cash equivalents earned interest during the year at an average of 0.5% (2013: 0.5%).

Liquidity risk

The Group and the Company actively maintain cash and cash equivalents to ensure that there are sufficient funds available for a period of at least six months to meet liabilities when they fall due.

The following table shows the contractual maturities of the Group's and the Company's financial liabilities, all of which are measured at amortised cost:

	Group 2014 £000	Group 2013 £000	Company 2014 £000	Company 2013 £000
Financial liabilities falling due:				
Within 1 month	598	674	29	28
From 2 to 3 months	668	421	-	-
	1,266	1,095	29	28

24. Capital risk management

The Group and the Company seek, when managing capital, to safeguard the Group's and the Company's ability to continue as going concerns, in order to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital.

The Group and the Company define capital as being share capital plus reserves. The Board of Directors monitors the level of capital employed in order to achieve these objectives.
