**Proxy Statement for the
2018 Annual Meeting of Stockholders
and 2017 Annual Report**

[THIS PAGE INTENTIONALLY LEFT BLANK]

Dear Partner,

I've learned a lot over the years about retailing. One thing in particular is notable and important: not many of the businesses that were around when I began my career are still around today. Why? Because those businesses didn't stay close enough to their customer ... and they failed to change. They got comfortable and rejected change.

Fashion is the business of change ... customers tastes are always changing ... and successful fashion leaders and brands need to be so close to their customers that they are able to anticipate change. They continue to give customers what they want! Victoria's Secret, PINK and Bath & Body Works were in some stage of change last year ... necessary and significant changes in merchandise assortments, driven by changes in fashion and customer preferences. Victoria's Secret is changing from an assortment focused on strength in basic bras to one that offers younger women more choices in fashion and function. Bath & Body Works is changing from a body care assortment focused primarily on fragrance to one that emphasizes a broader total body care point of view inclusive of healthy and natural ingredients and a strong home fragrance presence. From my perspective, Bath & Body Works managed their change more successfully, led by a seasoned, experienced and aligned leadership team. Victoria's Secret was changing at the same time that we were making significant changes in leadership, merchandising and design integration ... changes that were necessary, overdue and produced disappointing performance.

I was disappointed in our 2017 performance ... our adjusted operating income declined 15% for the year. Results were mixed – growth at Bath & Body Works was more than offset by declines at Victoria's Secret and our international segment.

- At Bath & Body Works, sales increased 8%, driven by a positive 2% store comp and a 24% increase in sales in the direct channel. Operating income increased 5%. We worked a large part of the year to refine our merchandise mix. Through new products and relaunches, we improved our assortment, created a large amount of newness and learned even more about our customer and what she wants most. We ended the year with 425 newly remodeled stores which include White Barn. The investment in these stores is proving very positive, yielding more sales dollars per door.
- In the Victoria's Secret business, while we continue to see growth in our direct channel (an 18% increase in go-forward merchandise categories), store sales continue to be challenging despite increased marketing and promotion (store-only comps for go-forward merchandise categories declined 6% in 2017). Victoria's Secret is working to correct its merchandise mix. Adjusted operating income for the Victoria's Secret segment declined 23% in 2017. By business unit:
 - Our PINK business achieved a mid-single digit sales increase for the year, as good growth in the bra and panty business was offset by a decline in the loungewear business. We are leveraging our speed capabilities to address fashion issues in PINK's loungewear business and improve results while we continue to grow the bra and panty categories.
 - In the Victoria's Secret Lingerie business, total sales in go-forward categories declined in the mid-single digit range in 2017. We began to see improved results throughout the year as customers responded well to new bra launches, which are critical to the business.
 - The Victoria's Secret Beauty business had a good year. Sales increased in the low-single digit range, and the merchandise margin rate increased, as the customer responded to a more edited assortment and new and better merchandise. We are gaining momentum.
- In our international business we opened more than 40 net new stores outside of North America to end the year with 873 stores in 75 countries. Operating income in our international segment declined by \$35 million to \$5 million largely related to our China investments. Our franchise partners' stores are doing well, with solid operating income growth for the year. We continue to invest in China as we see it as our most important market outside the U.S. We opened seven new China Victoria's Secret full-assortment stores in 2017, began commerce on the TMall website and ended the year with 29 Victoria's Secret Beauty and Accessories stores. Our company-owned business in the U.K. was challenged in 2017 – comparable sales and operating income both declined, and we are focused on improving performance in the U.K.

As I look forward to 2018, I am optimistic. I believe we've made progress and are making significant changes in all brands. While there is still much more to do, we are focused on performance as we build a new foundation for growth. The retail environment is good ... the economy is strong, and consumers are positive. Our brands are strong ... we hold leadership positions in categories with high emotional content. And we have a very good balance of stores and proven significant online sales, fulfillment and marketing ability.

I'm more proud of the quality and talent of our leadership teams than I've ever been ... pride that is grounded in not only our people, but our culture and our values. We know we have to do good to do well ... and we live our values:

1. **The customer rules!**

Everything we do must begin and end with an insatiable drive to anticipate and fulfill our customers' desires.

2. **Passion leads to success.**

We pursue excellence because we are passionate about being successful ... and that makes our talent formidable and our results extraordinary.

3. **Inclusion makes us stronger.**

We value diversity, because embracing others' thoughts, experiences, hopes and dreams makes our own more complete and connects us to our customers.

4. **It matters how we play the game.**

Doing what is right means following our values – and the rules – “even when no one is watching.” Winning is empty if we don't play fairly, collaboratively and by our values and contribute to the greater good of our communities ... purpose.

Our thinking shapes our values, and our values guide our performance. We work to improve people's lives ... our customers, our suppliers, our real estate development partners, our investors, our communities and all our associates ... and this impacts all that we do.

I said last year, and it bears repeating: the idea of solid, industry-leading performance is simple ... but the devil is in the details. To be the best ... we must be FOCUSED ... OBSESSIVELY – on our core, our priorities and executing excellently. We must be FAST AND AGILE – curious, change-eager, quick-thinking. And we must be FRUGAL AND EFFICIENT – distorting resources to what gives us the highest return on investment (both time and money).

We have significant growth goals ... and we are determined to deliver that growth. With our brands, our talent and our capabilities, we are well-positioned to achieve it.

Sincerely,

Leslie H. Wexner
Chairman and CEO

Notice of Annual Meeting of Stockholders and Proxy Statement

May 17, 2018

Important Notice Regarding the Availability of Proxy Materials for the Stockholder Meeting to Be Held on May 17, 2018: The proxy statement and annual report to stockholders are available at www.proxyvote.com.

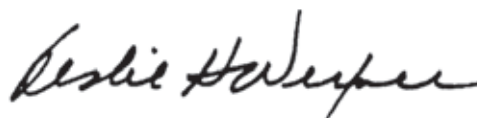

April 5, 2018

DEAR STOCKHOLDER:

You are cordially invited to attend our 2018 annual meeting of stockholders to be held at **8:30 a.m., Eastern Time**, on May 17, 2018, at our offices located at Three Limited Parkway, Columbus, Ohio 43230. Our Investor Relations telephone number is (614) 415-7585 should you require assistance in finding the location of the meeting. The formal Notice of Annual Meeting of Stockholders and proxy statement are attached. If you plan to attend, please bring the Admittance Slip located at the back of this booklet and a picture I.D., and review the attendance information provided. I hope that you will be able to attend and participate in the meeting, at which time I will have the opportunity to review the business and operations of our company.

The matters to be acted upon by our stockholders are discussed in the Notice of Annual Meeting of Stockholders. It is important that your shares be represented and voted at the meeting. Accordingly, after reading the attached proxy statement, would you kindly sign, date and return the enclosed proxy card or vote by telephone or via the Internet as described on the enclosed proxy card. Your vote is important regardless of the number of shares you own.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Leslie H. Wexner". The signature is fluid and cursive, written in a professional style.

INFORMATION ABOUT THE ANNUAL MEETING AND VOTING

The Board of Directors (the “Board”) is soliciting your proxy to vote at our 2018 annual meeting of stockholders (or at any adjournment of the meeting). This proxy statement summarizes the information you need to know to vote at the meeting. In this proxy statement, “we,” “our,” “L Brands” and the “Company” refer to L Brands, Inc.

We began mailing this proxy statement and the enclosed proxy card, or the Notice of Internet Availability of Proxy Materials (the “Notice”), on or about April 6, 2018 to all stockholders entitled to vote. The Company’s 2017 Annual Report on Form 10-K, which includes our financial statements, is being sent with this proxy statement and is available in paper copy by request or in electronic form.

Date, Time and Place of Meeting

Date: May 17, 2018
Time: 8:30 a.m., Eastern Time
Place: Three Limited Parkway, Columbus, Ohio 43230

Attending the Meeting

Stockholders who plan to attend the meeting in person must bring photo identification and the Admittance Slip located at the back of this booklet. Because of necessary security precautions, bags, purses and briefcases may be subject to inspection. To speed the admissions process, stockholders are encouraged to bring only essential items. Cameras, camcorders or videotaping equipment are not allowed.

Shares Entitled to Vote

Stockholders entitled to vote are those who owned Company common stock (which we refer to throughout this proxy statement as “Common Stock”) at the close of business on the record date, March 23, 2018. As of the record date, there were 278,802,643 shares of Common Stock outstanding. Each share of Common Stock that you own entitles you to one vote.

Voting Your Shares

Whether or not you plan to attend the annual meeting, we urge you to vote. Stockholders of record can give proxies by calling a toll-free telephone number, by using the Internet or by mailing their signed proxy cards. The telephone and Internet voting procedures are designed to authenticate stockholders’ identities, to allow stockholders to give their voting instructions and to confirm that stockholders’ instructions have been recorded properly. If you are voting by mail, please complete, sign and date the enclosed proxy card and return it promptly in the envelope provided. If you are voting by telephone or via the Internet, please use the telephone or Internet voting procedures set forth on the enclosed proxy card. Returning the proxy card or voting via telephone or the Internet will not affect your right to attend the meeting and vote.

The enclosed proxy card indicates the number of shares that you own.

Voting instructions are included on your proxy card. If you properly fill in your proxy card and send it to us or vote via telephone or the Internet in time to vote, one of the individuals named on your proxy card (your “proxy”) will vote your shares as you have directed. If you sign the proxy card or vote via telephone or the Internet but do not make specific choices, your proxy will follow the Board’s recommendations and vote your shares in the following manner:

- “FOR” the election of the Board’s four nominees for director (as described on pages 4 and 5);

- “FOR” the ratification of the appointment of our independent registered public accountants (as described on page 13);
- “FOR” the proposal to amend the Certificate of Incorporation to remove supermajority voting requirements (as described on pages 14 and 15), in recognition of the vote at the Company’s 2017 annual meeting of stockholders on a stockholder proposal addressing the same topic; and
- “FOR” on the advisory vote to approve named executive officer compensation (as described on pages 16 and 17).

If any other matter is properly presented at the meeting, your proxy will vote in accordance with his or her best judgment. At the time this proxy statement went to press, we knew of no other matters to be acted on at the meeting. See “—Vote Necessary to Approve Proposals” for a discussion of the votes required to approve these items.

Certain stockholders received a Notice containing instructions on how to access this proxy statement and our 2017 Annual Report on Form 10-K via the Internet. Those stockholders should refer to the Notice for instructions on how to vote.

Revoking Your Proxy

You may revoke your proxy by:

- submitting a later dated proxy (including a proxy via telephone or the Internet);
- notifying our Secretary at our principal executive offices at Three Limited Parkway, Columbus, Ohio 43230, in writing before the meeting that you have revoked your proxy; or
- voting in person at the meeting.

Voting in Person

If you plan to vote in person, a ballot will be available when you arrive. However, if your shares are held in the name of your broker, bank or other nominee, you must bring an account statement or letter from the nominee indicating that you were the beneficial owner of the shares at the close of business on March 23, 2018, the record date for voting, as well as a proxy, executed in your favor, from the nominee.

Appointing Your Own Proxy

If you want to give your proxy to someone other than the individuals named as proxies on the proxy card, you may cross out the names of those individuals and insert the name of the individual you are authorizing to vote. Either you or that authorized individual must present the proxy card at the meeting.

Quorum Requirement

A quorum of stockholders is necessary to hold a valid meeting. The presence in person or by proxy at the meeting of holders of shares representing at least one-third of the votes of the Common Stock entitled to vote constitutes a quorum. Abstentions and “broker non-votes” are counted as present for establishing a quorum. A broker non-vote occurs on an item when a broker is not permitted to vote on that item absent instruction from the beneficial owner of the shares and no instruction is given.

Vote Necessary to Approve Proposals

- Pursuant to the Company’s Bylaws, each director will be elected by a majority of the votes cast with respect to such director. A majority of the votes cast means that the number of votes “for” a director’s

election must exceed 50% of the votes cast with respect to that director's election. Any "against" votes will count as a vote cast, but "abstentions" will not count as a vote cast with respect to that director's election. Under Delaware law, if the director is not elected at the annual meeting, the director will continue to serve on the Board as a "holdover director." As required by the Company's Bylaws, each director has submitted an irrevocable letter of resignation as director that becomes effective if he or she does not receive a majority of votes cast in an election and the Board accepts the resignation. If a director is not elected, the Nominating & Governance Committee will consider the director's resignation and recommend to the Board whether to accept or reject the resignation.

- The ratification of Ernst & Young LLP as our independent registered public accountants requires the affirmative vote of a majority of the votes present in person or by proxy and voting thereon.
- The proposal to amend the Certificate of Incorporation to remove supermajority voting requirements requires the affirmative vote of at least 75% of the outstanding shares of the Company entitled to vote at the annual meeting.
- The advisory vote to approve named executive officer compensation requires the affirmative vote of a majority of the votes present in person or by proxy and voting thereon. While this vote is required by law, it will neither be binding on the Company or the Board, nor will it create or imply any change in the fiduciary or other duties of, or impose any additional fiduciary or other duties on, the Company or the Board. However, the Compensation Committee will take into account the outcome of the vote when considering future executive compensation decisions.

Impact of Abstentions and Broker Non-Votes

You may "abstain" from voting for any nominee in the election of directors and on the other proposals. Abstentions with respect to the election of directors and on the other proposals, except for the proposal to amend the Certificate of Incorporation to remove supermajority voting requirements, will be excluded entirely from the vote and will have no effect. Abstentions with respect to the proposal to amend the Certificate of Incorporation will have the same effect as a vote "against" the proposal.

In addition, under New York Stock Exchange ("NYSE") rules, if your broker holds your shares in its name, your broker is permitted to vote your shares on the proposal to ratify Ernst & Young LLP as our independent registered public accountants, even if it did not receive voting instructions from you. Your broker may not vote your shares on any of the other matters without specific instruction. A "broker non-vote" occurs when a broker submits a proxy but refrains from voting. Shares represented by broker non-votes are counted as present or represented for purposes of determining the presence of a quorum but are not counted as otherwise present or represented.

Obtaining Additional Copies of the Proxy Materials

We have adopted a procedure called "householding." Under this procedure, stockholders who share the same last name and reside at the same mailing address will receive one Notice or one set of proxy materials (if they have elected to receive hard copies of the proxy materials), unless one of the stockholders at that address has notified us that they wish to receive individual copies. Stockholders who participate in householding continue to receive separate control numbers for voting. Householding does not in any way affect dividend check mailings.

If you hold Common Stock and currently are subject to householding, but prefer to receive separate copies of proxy materials and other stockholder communications from the Company, or if you are sharing an address with another stockholder and would like to consent to householding, you may revoke or grant your consent to householding as appropriate at any time by calling toll-free at 1-866-540-7095 or notifying our Secretary at our principal executive offices at Three Limited Parkway, Columbus, Ohio 43230.

A number of brokerages and other institutional holders of record have implemented householding. If you hold your shares beneficially in street name, please contact your broker or other intermediary holder of record to request information about householding.

PROPOSAL 1: ELECTION OF DIRECTORS

The Board has nominated four directors for election at the annual meeting. If you elect the four nominees, they will hold office for a three-year term expiring at the 2021 annual meeting or until their successors have been elected. All nominees are currently serving on our Board.

We believe that our Board as a whole possesses the appropriate diversity of experience, qualifications and skills to oversee and address the key issues facing our Company. In addition, we believe that each of our directors possesses key attributes that we seek in a director, including strong and effective decision-making, communication and leadership skills.

Set forth below is additional information about the experience and qualifications of each of the nominees for director, as well as each of the current members of the Board, that led the Board to conclude, at the time each individual was nominated to serve on the Board, that he or she would provide valuable insight and guidance as a member of the Board.

Your proxy will vote for each of the nominees unless you specify otherwise. If any nominee is unable to serve, your proxy may vote for another nominee proposed by the Board. We do not know of any nominee of the Board who would be unable to serve as a director if elected.

The Board recommends a vote FOR the election of all of the following nominees of the Board:

Mr. Schottenstein's nomination was supported by his management and business experience and involvement in various public policy issues.

Raymond Zimmerman

Director since 1984

Age 85

Mr. Zimmerman is the Chief Executive Officer of Service Merchandise LLC, a retail company. Mr. Zimmerman was Chairman of the Board and Chief Executive Officer of 99¢ Stuff, LLC from 1999 to 2003 and the Chairman of the Board and Chief Executive Officer of 99¢ Stuff, Inc. from 2003 to 2008. Mr. Zimmerman's nomination was supported by his financial expertise and broad business experience, particularly in the retail sector.

Former Director

Jeffery H. Miro, a member of the Board since 2006, retired effective August 22, 2017.

Director Independence

The Board has determined that each of the individuals nominated to serve on the Board, together with each of the members of the Board who will continue to serve after the 2018 annual meeting of stockholders (except for Patricia S. Bellinger, Dennis S. Hersch, Abigail S. Wexner and Leslie H. Wexner) and Jeffery H. Miro, has no material relationship with the Company other than in his or her capacity as a director of the Company and that each is "independent" in accordance with applicable NYSE standards. If all director nominees are elected to serve as our directors, independent directors will constitute two-thirds of our Board.

In making these determinations, the Board took into account all factors and circumstances that it considered relevant, including, where applicable, the existence of any employment relationship between the director (or nominee) or a member of the director's (or nominee's) immediate family and the Company; whether within the past three years the director (or nominee) has served as an executive officer of the Company; whether the director (or nominee) or a member of the director's (or nominee's) immediate family has received, during any twelve-month period within the last three years, direct compensation from the Company in excess of \$120,000; whether the director (or nominee) or a member of the director's (or nominee's) immediate family has been, within the last three years, a partner or an employee of the Company's internal or external auditors; and whether the director (or nominee) or a member of the director's (or nominee's) immediate family is employed by an entity that is engaged in business dealings with the Company. The Board has not adopted categorical standards with respect to director independence. The Board believes that it is more appropriate to make independence determinations on a case-by-case basis in light of all relevant factors.

Board Leadership Structure

Mr. Leslie H. Wexner serves as Chairman of the Board and Chief Executive Officer ("CEO") of the Company. Mr. Wexner is the founder of the Company and has served as its Chairman and/or Chief Executive Officer for over fifty years. Mr. Wexner (through his personal and beneficial holdings) is also the Company's largest stockholder. The Board believes that Mr. Wexner's experience and expertise in the Company's business and operations is unrivaled and that he is uniquely qualified to lead the Company. Accordingly, the Company believes that Mr. Wexner's service as both Chairman of the Board and Chief Executive Officer is a significant benefit to the Company and provides more effective leadership than could be achieved in another leadership structure.

Allan R. Tessler currently serves as the lead independent director. In July 2012, the Board determined that the lead independent director should be appointed solely by the independent directors, as they deem appropriate, and Mr. Tessler was subsequently reappointed as the lead independent director by them. As lead independent director, Mr. Tessler has the authority to call meetings of the independent directors, at which he serves as the chairman. Mr. Tessler also approves information sent to the Board, including the agenda for Board meetings, and is responsible for approving meeting schedules in order to assure that there is sufficient time for discussion of all agenda items.

The Company believes that the lead independent director structure, including Mr. Tessler's service as lead independent director, offers independent oversight of the Company's management to complement the leadership that Mr. Wexner provides to the Board as its Chairman.

Risk Oversight; Certain Compensation Matters

The Board, directly and through the Audit Committee and other committees of the Board, takes an active role in the oversight of the Company's policies with respect to the assessment and management of enterprise risk. Among other things, the Board has policies in place for identifying the senior executive responsible for key risks as well as the Board committees with oversight responsibility for particular key risks. In a number of cases, oversight is conducted by the full Board.

Among other things, the Company, including the Compensation Committee of the Board, has evaluated the Company's compensation structure from the perspective of enterprise risk. The Company, including the Compensation Committee, believes that the Company's compensation structures are appropriate and do not incentivize inappropriate taking of business risks.

Review of Strategic Plans and Capital Structure

The Board regularly reviews the Company's strategic plans and capital structure with a view toward long-term value creation, including environmental, social and governance considerations. The Board also conducts a strategic planning retreat at least annually with senior management.

Succession Planning

The Board and its Nominating & Governance Committee have developed policies and principles governing succession planning with respect to the CEO and senior management.

Information Concerning Board Meeting Attendance

Our Board held 5 meetings in fiscal year 2017. During fiscal year 2017, all of the directors attended 75% or more of the total number of meetings of the Board and of the committees of the Board on which they served (which were held during the period in which they served).

Committees of the Board

Audit Committee

The Audit Committee of the Board is instrumental in the Board's fulfillment of its oversight responsibilities relating to (i) the integrity of the Company's financial statements, (ii) the Company's compliance with legal and regulatory requirements, (iii) the qualifications, independence and performance of the Company's independent auditors and (iv) the performance of the Company's internal audit function. The current members of the Audit Committee are Ms. James (Chair), Dr. Kollat and Messrs. Tessler and Zimmerman. The Board has determined that each of the Audit Committee members meets the independence, expertise and experience standards

established by the NYSE and the Securities and Exchange Commission (the “Commission”) for service on the Audit Committee of the Board and for designation as an “audit committee financial expert” within the meaning of the regulations promulgated by the Commission.

The Report of the Audit Committee can be found on page 58 of this proxy statement. The Audit Committee held 13 meetings in fiscal year 2017.

Compensation Committee

The Compensation Committee of the Board (i) oversees the Company’s compensation and benefits philosophy and policies generally, (ii) evaluates the CEO’s performance and oversees and sets compensation for the CEO, (iii) oversees the evaluation process and compensation structure for other members of the Company’s senior management and (iv) fulfills the other responsibilities set forth in its charter. The current members of the Compensation Committee are Dr. Kollat (Chair), Dr. Gee and Mr. Morris. The Board has determined that each of the current Compensation Committee members is “independent” in accordance with applicable NYSE standards.

The Report of the Compensation Committee can be found on pages 51 to 52 of this proxy statement. The Compensation Committee held 9 meetings in fiscal year 2017.

Nominating & Governance Committee

The Nominating & Governance Committee actively engages in the ongoing review of the composition of the Board and opportunities for Board refreshment. Based on its review, the Nominating & Governance Committee identifies and recommends to the Board candidates who are qualified to serve on the Board and its committees. The Nominating & Governance Committee also considers and reviews the qualifications of any individual nominated for election to the Board by stockholders. It is responsible for proposing a slate of candidates for election as directors at each annual meeting of stockholders. In the past six years, five new directors have been appointed to the Board who bring a diversity of skills, attributes and perspectives to the Board. In addition to periodic Board refreshment, we believe that a variety of director tenures is beneficial to ensure Board quality and continuity of experience, as reflected in the current composition of our Board.

The Nominating & Governance Committee develops and recommends to the Board criteria and procedures for the selection and evaluation of new individuals to serve as directors and committee members. In assessing director nominees, the Nominating & Governance Committee takes into account the qualifications of existing directors for continuing service or re-nomination, which may be affected by, among other things, the quality of their contributions, their attendance records, changes in their primary employment or other business affiliations, the number of boards of publicly held companies on which they serve or other competing demands on their time and attention. While the Board has not established any specific minimum qualifications for director nominees, as indicated in the Company’s corporate governance principles, the directors and any potential nominees should possess the integrity, judgment, skills, experience and other characteristics that are deemed necessary or desirable for the effective performance of the Board’s oversight function. Certain of the skills, qualifications and particular areas of expertise considered with respect to the members of the Board at the time each Director was nominated are summarized in the director biographies found on pages 4 through 7 of this proxy statement. Although the Nominating & Governance Committee does not use formal quantitative or similar criteria with regard to diversity in its selection process, the Company’s corporate governance principles provide that the Board will be composed of members of diverse backgrounds and, accordingly, the Committee considers the diversity of experience, background and expertise of the current directors and areas where new directors might add additional perspectives, as factors in the selection of Board nominees.

The Nominating & Governance Committee does not have a formal policy on the consideration of director candidates recommended by stockholders. The Board believes that it is more appropriate to provide the Nominating & Governance Committee flexibility in evaluating stockholder recommendations. In the event that a

director nominee is recommended by a stockholder, the Nominating & Governance Committee will give due consideration to the director nominee and will use the same criteria used for evaluating Board director nominees, in addition to considering the information relating to the director nominee provided by the stockholder.

To date, the Company has not engaged third parties to identify or evaluate or assist in identifying potential director nominees, although the Company reserves the right in the future to retain a third-party search firm, if appropriate.

The Nominating & Governance Committee also develops and recommends to the Board, and regularly reviews, a set of corporate governance principles for the Company to ensure they reflect evolving best practices, monitors compliance with those principles and stays abreast of developments in the area of corporate governance. For example, a proxy access bylaw was adopted in November 2016, permitting up to 20 stockholders owning 3% or more of the outstanding shares of Common Stock continuously for at least three years to nominate the greater of two directors or up to 20% of the Board and include those nominees in our proxy materials. The Nominating & Governance Committee also reviews and periodically makes recommendations to the Board regarding the structure, practices, policies and activities of the Board and its committees. Each Board committee's charter is reviewed at least annually. To ensure that the Board, Board committees and individual directors remain effective, the Nominating & Governance Committee oversees a robust annual evaluation of the Board, each Board committee and each individual director and recommends ways to improve performance. At least annually, each of the Audit Committee, the Compensation Committee and the Nominating & Governance Committee evaluates its own performance and reports to the Board on such evaluation. The full Board also engages in self-evaluation at least annually. The current members of the Nominating & Governance Committee are Mr. Tessler (Chair), Ms. James and Dr. Kollat. The Board has determined that each of the current Nominating & Governance Committee members is "independent" in accordance with applicable NYSE standards.

The Nominating & Governance Committee held 4 meetings in fiscal year 2017.

Executive Committee

The Executive Committee of the Board may exercise, to the fullest extent permitted by law, all of the powers and authority granted to the Board. Among other things, the Executive Committee may declare dividends, authorize the issuance of stock and authorize the seal of the Company to be affixed to papers that require it. The current members of the Executive Committee are Messrs. Wexner (Chair) and Tessler.

Finance Committee

The Finance Committee of the Board periodically reviews the Company's financial position and financial arrangements with banks and other financial institutions. The Finance Committee also makes recommendations on financial matters that it believes are necessary, advisable or appropriate. The current members of the Finance Committee are Mr. Tessler (Chair), Mr. Hersch, Dr. Kollat, Mrs. Wexner and Mr. Zimmerman.

Inclusion Committee

The Inclusion Committee of the Board is instrumental in the Board's fulfillment of its oversight responsibilities relating to, among other things, (i) the Company's commitment to diversity and inclusion and (ii) the performance of the Company's Office of Inclusion. The current members of the Inclusion Committee are Mrs. Wexner (Chair), Dr. Gee and Ms. James.

Meetings of the Company's Non-Management Directors

The non-management directors of the Board meet in executive session in connection with each regularly scheduled Board meeting. Mr. Tessler serves as the chair of those meetings, which neither Mr. Wexner nor Mrs. Wexner attends.

Communications with Stockholders

The Board believes that it is important to understand stockholder perspectives on the Company and foster long-term relationships with stockholders and, to that end, we have a policy of robust engagement with stockholders, with continuing outreach to and dialogue with all of our major investors on a range of issues, including corporate governance matters and environmental and social goals and initiatives. Such engagements with investors have been highly constructive. For example, based on stockholder feedback, we made a number of changes to our compensation program in the past few years, as discussed in more detail under “Compensation-Related Matters—Compensation Discussion and Analysis.” The Board also provides a process for interested parties to send communications to the full Board, the non-management members of the Board, the lead independent director and the members of the Audit Committee. Any director may be contacted by writing to him or her c/o L Brands, Inc., Three Limited Parkway, Columbus, Ohio 43230 or emailing at boardofdirectors@lb.com. Any stockholder wishing to contact Audit Committee members may send an email to auditcommittee@lb.com. Communications that are not related to a director's duties and responsibilities as a Board member, a non-management director or an Audit Committee member may be excluded by the Office of the General Counsel, including, without limitation, solicitations and advertisements; junk mail; product-related communications; job referral materials such as resumes; surveys; and any other material that is determined to be illegal or otherwise inappropriate. The directors to whom such information is addressed are informed that the information has been removed and that it will be made available to such directors upon request.

Attendance at Annual Meetings

The Company does not have a formal policy regarding attendance by members of the Board at the Company's annual meeting of stockholders. However, it encourages directors to attend and historically nearly all have done so. All of the then-current Board members attended the 2017 annual meeting, except for Messrs. Miro and Zimmerman. Each director is expected to dedicate sufficient time, energy and attention to ensure the diligent performance of his or her duties, including by attending meetings of the Board and the committees of which he or she is a member.

Code of Conduct, Related Person Transaction Policy and Associated Matters

The Company has a code of conduct that is applicable to all employees of the Company, including the CEO and Chief Financial Officer, and to members of the Board. Any amendments to the code or any waivers from any provisions of the code granted to executive officers or directors will be promptly disclosed to stockholders through posting on the Company's website at www.lb.com.

Under the Company's Related Person Transaction Policy (the “Policy”), subject to certain exceptions, directors and executive officers of the Company are required to notify the Company of the existence or potential existence of any financial or commercial transaction, agreement or relationship involving the Company in which a director or executive officer or his or her immediate family members has a direct or indirect material interest. Each such transaction must be approved by the Board or a committee consisting solely of independent directors after consideration of all material facts and circumstances.

The Company is engaged in several projects designed to increase our speed and agility in producing products that satisfy our customers. In the case of our beauty, personal care and home fragrance businesses, the development of supplier facilities in close proximity to our headquarters and distribution facilities in central Ohio

has been an integral part of capturing the many business benefits of speed and agility. The New Albany Company, a business beneficially owned by Mr. and Mrs. Wexner, is in the business of developing real estate, including industrial parks, and has sold land (and may in the future sell land) to certain vendors or third party developers in connection with the continuing development of an industrial park focused on the foregoing business categories in New Albany, Ohio. The Audit Committee monitors such vendor and third party transactions on an ongoing basis to assure that they are in the best interests of the Company and its stockholders generally.

Copies of the Company's Code of Conduct, Corporate Governance Principles, Policy and Committee Charters

The Company's code of conduct, corporate governance principles and Policy, as well as the charters of the Audit Committee, Compensation Committee and Nominating & Governance Committee of the Board, are available on the Company's website at www.lb.com. Stockholders may also request a copy of any such document from: L Brands, Inc., Attention: Investor Relations, Three Limited Parkway, Columbus, Ohio 43230.

**PROPOSAL 2: RATIFICATION OF THE APPOINTMENT
OF INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS**

The Audit Committee has appointed Ernst & Young LLP to serve as the Company's independent registered public accountants for the fiscal year ending February 2, 2019. Ernst & Young LLP has been retained as the Company's independent registered public accountants continuously since 2003.

The Audit Committee is responsible for the appointment, compensation, retention and oversight of the Company's independent registered public accountants. The Audit Committee is responsible for approving the fees associated with the Company's retention of Ernst & Young LLP. In accordance with Commission rules, Ernst & Young LLP's lead engagement partner rotates every five years. The Audit Committee is directly involved in the selection of Ernst & Young LLP's lead engagement partner. In addition, the Audit Committee evaluates Ernst & Young LLP's qualifications, performance and independence and presents its conclusions on these matters to the Board on at least an annual basis, and annually considers whether to continue its engagement of Ernst & Young LLP.

The members of the Audit Committee and the Board believe that the continued retention of Ernst & Young LLP to serve as the Company's independent registered public accountants is in the best interests of the Company and its stockholders. We are asking you to ratify Ernst & Young LLP's appointment, although your ratification is not required. A representative of Ernst & Young LLP will be present at the meeting, will have the opportunity to make a statement and will be available to respond to appropriate questions.

Additional information concerning the Company's engagement of Ernst & Young LLP is included on page 59.

The Board recommends a vote FOR the ratification of the appointment of Ernst & Young LLP as the Company's independent registered public accountants.

PROPOSAL 3: PROPOSAL TO AMEND THE CERTIFICATE OF INCORPORATION TO REMOVE SUPERMAJORITY VOTING REQUIREMENTS

Background; Governance Considerations

This proposal is being submitted to stockholders following a vote at the Company's 2017 annual meeting on a nonbinding stockholder proposal addressing the same topic. While the stockholder proposal last year did not receive sufficient votes to implement the change, it did receive a majority vote. Accordingly, consistent with its strong commitment to the careful consideration of stockholder views and recognizing that there are different perspectives on the issue of supermajority voting requirements, the Board is submitting the proposal described below to a stockholder vote. The Board cannot unilaterally adopt the proposal because a stockholder vote is necessary under Delaware law.

The Board has considered the advantages and disadvantages of the Company's voting requirements on numerous occasions. In this regard, the Board has consistently determined that the retention of a supermajority vote standard for certain extraordinary matters is the best way to ensure that the interests of all stockholders are fully protected. The Board has consistently concluded that extraordinary transactions and fundamental changes to corporate governance should have the support of a broad consensus of the Company's stockholders rather than just a simple majority, and that supermajority vote requirements protect stockholders against the potentially self-interested actions of short-term investors and facilitate corporate governance stability. The Board has also concluded that the Company's existing supermajority voting provisions encourage persons or firms making unsolicited takeover proposals to negotiate directly with the Board, which provides the Board with increased leverage to negotiate the best possible return for stockholders, and which prevents the use of potentially coercive or abusive takeover tactics.

On the other hand, the Board is aware that certain stockholders and institutions disagree. These entities generally argue that a majority stockholder vote should be sufficient for any corporate action requiring stockholder approval, regardless of the considerations outlined above. This proposal reflects the Board's determination to respond to, and address, that difference in perspective.

Proposed Amendment

If approved, the proposal would amend the Company's Restated Certificate of Incorporation (the "Charter") to provide for the elimination of each voting requirement that calls for a greater than simple majority vote (the "Amendment").

Under the Company's existing governance documents, a simple majority vote requirement already applies to most matters submitted for stockholder approval. The Charter provides that a supermajority vote of the stockholders is required to approve actions related to a small number of fundamental matters of corporate structure and governance. These matters are as follows: (i) approval of certain business combinations with an individual, entity or group that collectively owns 20% or more of the Company's voting securities (an "interested stockholder"); (ii) approval of certain fundamental transactions with any corporation that, together with its affiliates, owns 5% or more of the Company's voting securities, including mergers or a sale of substantially all of the Company's assets; (iii) dissolution of the Company; (iv) removal of a director for cause; (v) an alteration, amendment or repeal of the Company's Bylaws or any amendment to the Charter that contravenes any existing Bylaw of the Company; and (vi) an amendment of certain provisions in the Charter.

If the proposed Amendment is adopted, each of the foregoing supermajority voting requirements would be removed from the Charter. Instead, any matter voted on at any meeting of the stockholders would be decided by either the majority in voting interest of the stockholders voting on such matter or, in the case of certain business combinations with an interested stockholder, a majority of the outstanding shares of the Company excluding (except under certain circumstances) those held by the interested stockholder, unless otherwise provided by law.

The default voting requirement in the Company's Bylaws, contained in Section 1.10(c) therein, states, "At any meeting of the stockholders all matters, except as otherwise provided in the certificate of incorporation, in these bylaws, or by law, shall be decided by the vote of a majority in voting interest of the stockholders present in person or by proxy and voting thereon, a quorum being present." The Company's Bylaws do not have any provisions containing supermajority voting requirements.

The text of the proposed Amendment, which would remove Articles EIGHTH and THIRTEENTH and Section 2 of Article FIFTH and Section 1 of Article ELEVENTH of the Charter in their entirety, and modify Articles TENTH and TWELFTH and Section 2 of Article ELEVENTH of the Charter, is attached as Appendix A to this proxy statement.

Required Vote

For the Amendment to become effective, this proposal must receive the affirmative vote of at least 75% of the outstanding shares of the Company entitled to vote at the annual meeting. If the Amendment does not receive this level of stockholder approval, the Amendment will not be implemented and the Company's current voting requirements will remain in place.

Board Recommendation

The Board continues to believe that the retention of the Company's existing supermajority voting requirements for certain extraordinary matters provides stockholders with very meaningful protections against actions that may not be in their best interests. On the other hand, the Board recognizes that certain stockholders and institutions disagree and also believes that responsiveness to this perspective is an important matter of corporate governance. Accordingly, after careful consideration of the issue, the Board has determined, in recognition of last year's vote, to recommend a vote to approve the Amendment.

While the Board believes there is a strong argument to the contrary, the Board has elected to recommend that stockholders vote FOR the proposed Amendment in recognition of the stockholder vote at the Company's 2017 annual meeting.

PROPOSAL 4: ADVISORY VOTE TO APPROVE NAMED EXECUTIVE OFFICER COMPENSATION

The Dodd-Frank Wall Street Reform and Consumer Protection Act requires us to provide an advisory stockholder vote to approve the compensation of the Company's named executive officers ("NEOs"), as such compensation is disclosed pursuant to the disclosure rules of the Commission. After the Company's 2017 annual meeting, the Board determined to hold this advisory "say-on-pay" vote every year. Accordingly, the Company is providing its stockholders with the opportunity to cast an advisory vote on the fiscal 2017 compensation of our NEOs as disclosed in this proxy statement, including the Compensation Discussion and Analysis (the "CD&A"), the compensation tables and other narrative executive compensation disclosures.

Stockholders are being asked to vote on the following resolution:

"RESOLVED, that the stockholders approve the compensation of the Company's executive officers named in the 2017 Summary Compensation Table, as disclosed pursuant to Item 402 of Regulation S-K (which disclosure includes the Compensation Discussion and Analysis, the compensation tables and other narrative executive compensation disclosures)."

Following several years of successive record setting performances, in fiscal 2015 the Company achieved all-time record results. Investors rewarded the Company with a historically high price-earnings multiple and the stock reached an all-time high of \$101.11 per share. Our CEO's compensation in 2015 reflected this accomplishment.

In fiscal 2016, the Company implemented a series of initiatives designed to better position several of our businesses for the future. The short-term effects of some of these initiatives have not yet produced the results that are expected. In response, the Compensation Committee reduced our CEO's target compensation for fiscal 2017 by 34% or \$6 million. In addition, due to performance in fiscal 2017, the Compensation Committee took further action to decrease CEO pay from the reduced target:

2017 Compensation Actions

- Did not grant a Fall 2017 long-term performance-based equity incentive award. This reduced CEO compensation by 31% (\$3.5 million) below target.
- Exercised negative discretion to eliminate the Fall season short-term incentive payout, resulting in a total 2017 payout that was 75% (\$3.3 million) below target.
- As a result of these actions, CEO compensation was 60% (\$6.8 million) below the reduced target for fiscal 2017.

The Compensation Committee further adjusted Mr. Wexner's target compensation for fiscal 2018 to reduce the amount of guaranteed compensation, put greater emphasis on performance-based compensation and decrease overall target compensation:

2018 Compensation Actions

- Adjusted base salary from \$2 million to \$1 million, a reduction of 50% or \$1 million.
- Reduced the short-term performance-based incentive compensation target from \$4.4 million to \$1.5 million, a reduction of 66% or \$2.9 million.
- Adjusted the pay mix, increasing the weighting of long-term performance-based incentive compensation from 44% to 72% of total direct compensation.
- Decreased total direct compensation at target from \$11.4 million to \$9.0 million, a reduction of 21% or \$2.4 million.

Although the advisory stockholder vote on executive compensation is non-binding, the Compensation Committee has considered and will continue to consider the outcome of the vote and feedback received from stockholders when making compensation decisions for NEOs. We have a robust policy of engagement with stockholders, including continuing outreach to and dialogue with all of our major institutional stockholders. Based on feedback from such engagement, we eliminated the provision for performance-based Restricted Stock Units (“RSUs”) in which awards not earned in one period may be earned in subsequent periods if the cumulative performance metric is achieved. We continued the following compensation practices in accordance with our corporate governance principles and/or in response to stockholder and advisory group feedback, including:

- No tax gross-ups for NEOs upon a change in control.
- “No hedging” policy governing stock trading.
- Policy that discourages pledging of Company stock and requires advance approval of our General Counsel.
- No future issuances of “single trigger” equity awards.
- Clawback policy.
- Stock ownership guidelines set at five times base salary for our CEO and three times base salary for other NEOs. Members of our Board must maintain ownership of at least the number of shares of Common Stock received as Board compensation over the previous four years.

These changes, along with our historical record, were important factors in achieving 99% stockholder support for our 2017 advisory vote on executive compensation. Given this strong level of support, the Compensation Committee has concluded that a large majority of our stockholders support our existing compensation program.

Please refer to the CD&A for a detailed discussion of the Company’s executive compensation principles and practices and the fiscal 2017 compensation of our NEOs.

Board Recommendation

Following several years of successive record setting performances, in fiscal 2015 the Company achieved all-time record results. Our CEO’s compensation in 2015 reflected this accomplishment. In fiscal 2016, the Company implemented a series of initiatives designed to better position several of our businesses for the future. In addition, due to performance in fiscal 2017, the Compensation Committee took further action to decrease CEO pay from the reduced target. With these actions to reduce CEO pay, Mr. Wexner’s total compensation for fiscal 2017 was \$5.7 million, which is well below the median of our peers. In summary, there is alignment between our performance, our stockholders’ interests and our CEO’s pay.

The Board recommends a vote FOR this proposal.

Compensation Discussion and Analysis

Executive Summary

Following several years of successive record setting performances, in fiscal 2015 the Company achieved all-time record results. Investors rewarded the Company with a historically high price-earnings multiple and the stock reached an all-time high of \$101.11 per share. Our CEO's compensation in 2015 reflected this accomplishment.

In fiscal 2016, the Company implemented a series of initiatives designed to better position several of our businesses for the future. The short-term effects of some of these initiatives have not yet produced the results that are expected. In response, the Compensation Committee reduced our CEO's target compensation for fiscal 2017 by 34% or \$6 million. In addition, due to performance in fiscal 2017, the Compensation Committee took further action to decrease CEO pay from the reduced target:

2017 Compensation Actions

- Did not grant a Fall 2017 long-term performance-based equity incentive award. This reduced CEO compensation by 31% (\$3.5 million) below target.
- Exercised negative discretion to eliminate the Fall season short-term incentive payout, resulting in a total 2017 payout that was 75% (\$3.3 million) below target.
- **As a result of these actions, CEO compensation was 60% (\$6.8 million) below the reduced target for fiscal 2017.**

When comparing CEO compensation for fiscal 2017 to fiscal 2016, total compensation decreased by 61% (\$9.1 million) while total shareholder return decreased by 15%.

The Compensation Committee further adjusted Mr. Wexner's target compensation for fiscal 2018 to reduce the amount of guaranteed compensation, put greater emphasis on performance-based compensation and decrease overall target compensation:

2018 Compensation Actions

- Adjusted base salary from \$2 million to \$1 million, a reduction of 50% or \$1 million.
- Reduced the short-term performance-based incentive compensation target from \$4.4 million to \$1.5 million, a reduction of 66% or \$2.9 million.

- Decreased total direct compensation at target from \$11.4 million to \$9.0 million, a reduction of 21% or \$2.4 million.

Fiscal 2017 Overview

Financial performance in 2017 was below our expectations: adjusted operating income⁽¹⁾ declined 15%. Results were mixed—growth at Bath & Body Works was more than offset by declines at Victoria's Secret and our international segment.

- At Bath & Body Works, sales increased 8%, driven by a positive 2% comparable store sales increase and a 24% increase in sales in the direct channel. Operating income increased 5%. We worked a large part of the year to refine our merchandise mix. Through new products and relaunches we improved our assortment, created a large amount of newness and learned even more about our customer and what she wants most. We ended the year with 425 new concept stores which include the White Barn design. While the investment in these stores results in near-term financial pressure, they continue to drive significant sales increases and, importantly, present a new, compelling store design to our customers.

- In the Victoria's Secret business, while we continue to see strong growth in our direct channel (18% in go-forward merchandise categories for 2017), store traffic levels continue to be challenging despite increased marketing and promotion (store-only comparable sales for go-forward merchandise categories declined 6% in 2017), as we continue to build back our customer base. Adjusted operating income⁽¹⁾ for the Victoria's Secret segment declined 23% in 2017. By business unit:
 - Our PINK business achieved a mid-single digit sales increase for the year, as strong growth in the bra and panty business was somewhat offset by a decline in the loungewear business. We are leveraging our speed capabilities in the PINK business to address fashion issues in the loungewear business and improve results.
 - In the Victoria's Secret Lingerie business, total sales in go-forward categories declined in the mid-single digit range in 2017. Results improved throughout the year as customers responded well to new product launches.
 - The Victoria's Secret Beauty business improved in 2017. Sales increased in the low-single digit range and the merchandise margin rate increased, as the customer responded to a more focused assortment, and new products and fashion.
- Outside of North America, we opened more than 40 net new stores to end the year with 873 stores in 75 countries. Operating income in our international segment declined by \$35 million to \$5 million. Our partner-based businesses are doing well, with solid operating income growth for the year. The operating loss related to our company-owned business in China increased as we continue to invest for significant growth. We opened seven new China Victoria's Secret full-assortment stores in 2017, began e-commerce on the global TMall website and ended the year with 29 Victoria's Secret Beauty and Accessories stores. Our company-owned business in the United Kingdom was challenged in 2017—comparable sales and operating income both declined, and we are very focused on improving performance.

We are equipped for success—strong brands which lead their categories and an experienced and talented leadership team—with significant growth opportunities both in and outside of North America. Although our performance in 2017 did not meet our expectations, we continue to hold leadership positions in the segments of retail in which we do business.

⁽¹⁾ The reconciliation of such measure to the comparable figure determined in accordance with accounting principles generally accepted in the United States is included on pages 22 to 24 of the Company's 2017 Annual Report on Form 10-K (the "2017 10-K").

Pay for Performance

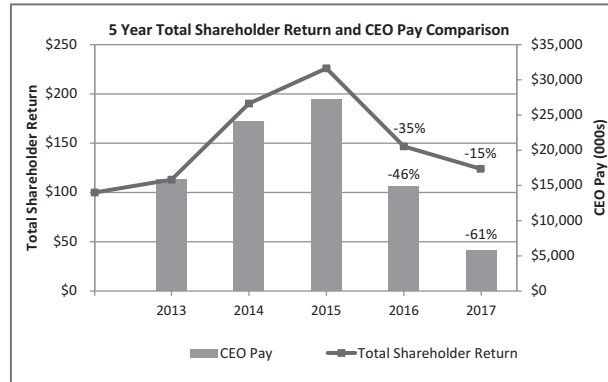

At L Brands, we recognize that our business is the ultimate change business. Our focus is on speed and agility, responding to change. Our compensation program reflects this philosophy, rewarding exceptional performance and significantly reducing compensation when performance does not meet our high expectations.

The Compensation Committee monitors our compensation program, ensuring that pay is aligned with performance and responding to any concerns expressed by our stockholders. Even though 99% of our stockholders voted in favor of our executive compensation program in 2017, the Compensation Committee proactively made significant reductions to CEO compensation to reflect the performance of the Company. With the significant reduction, Mr. Wexner's total compensation for fiscal 2017 was \$5.7 million, which is well below the median of our peers.

Our compensation program is responsive to changes in financial results and shows strong alignment between pay and performance. Mr. Wexner's compensation increased from 2013 to 2015 representing three years of back-to-back record-setting sales and earnings. In fact, Mr. Wexner's compensation in 2015 reflected performance that, at that time, was our best ever—record-setting sales, earnings and operating income rate. Over the last two years, CEO compensation has decreased significantly following performance that was challenged by

changes intended to simplify the business and accelerate growth. Pay-for-performance evaluations using a three year average are distorted by our record setting performance in 2015 and may not consider the fact that CEO pay accurately reflects performance on an annual basis.

The following chart illustrates how CEO compensation has aligned with performance. In years of positive performance, CEO pay increased, while in years of decreasing total shareholder return, CEO pay decreased significantly more than decreases in total shareholder return:

The significant decrease for fiscal 2017 resulted in CEO compensation that was less than half of the median and below the 25th percentile of our peer group (discussed below under the heading “Compensation Comparison”):

While these charts show how the compensation paid to Mr. Wexner by the Company aligns with performance, it is also important to note that Mr. Wexner is the beneficial owner of 16.91% of the Company’s Common Stock. Accordingly, his personal wealth is tied directly to our stock price performance, which provides direct alignment with stockholder interests.

Stockholder Advisory Vote

In 2017, 99% of our stockholders voted in favor of our executive compensation program. The Compensation Committee considers this vote and other stockholder and advisory group feedback when making compensation decisions for NEOs. We have a robust policy of engagement with stockholders, with continuing outreach to and dialogue with all of our major investors on a range of issues, including executive compensation matters. Based on feedback from such engagement, beginning with performance-based RSUs awarded in March 2017, we eliminated the provision for performance-based RSUs in which awards not earned in one period may be earned in subsequent periods, if the cumulative performance metric is achieved.

In addition, we continue the following compensation practices in accordance with our corporate governance principles and/or in response to stockholder and advisory group feedback:

- No tax gross-ups for NEOs upon a change in control.
- “No hedging” policy governing stock trading.
- Adopted a policy that discourages pledging of Company stock and requires advance approval by our General Counsel.
 - None of the Company’s stock held by our NEOs or Board members is pledged.
- No re-pricing of stock options without stockholder approval.
- Double trigger vesting of equity awards upon a change in control.
- Clawback policy as described under “—Compensation Governance—Recovery of Compensation.”
- Stock ownership guidelines set at five times base salary for our CEO and three times base salary for other NEOs. Members of our Board must maintain ownership of at least the number of shares of Common Stock received as Board compensation over the previous four years.
- Stock plan that requires a vesting period of at least one year:
 - Three year minimum vesting period for RSUs that are based on the passage of time; and
 - One year minimum vesting period for stock options and for RSUs that are earned based on performance.
 - While these are the minimum requirements under the plan, stock options and performance-based RSUs awarded to our NEOs in fiscal 2017 generally vest over five years.

Conclusion

Following several years of successive record setting performances, in fiscal 2015 the Company achieved all-time record results. Investors rewarded the Company with a historically high price-earnings multiple and the stock reached an all-time high of \$101.11 per share. Our CEO's compensation in 2015 reflected this accomplishment.

In fiscal 2016, the Company implemented a series of initiatives designed to better position several of our businesses for the future. The short-term effects of some of these initiatives have not yet produced the results that are expected. In response, the Compensation Committee reduced our CEO's target compensation for fiscal 2017 by 34% or \$6.0 million. In addition, due to performance in fiscal 2017, the Compensation Committee took further action to decrease CEO pay from the reduced target:

2017 Compensation Actions

- Did not grant a Fall 2017 long-term performance-based equity incentive award. This reduced CEO compensation by 31% (\$3.5 million) below target.
- Exercised negative discretion to eliminate the Fall season short-term incentive payout, resulting in a total 2017 payout that was 75% (\$3.3 million) below target.
- **As a result of these actions, CEO compensation was 60% (\$6.8 million) below the reduced target for fiscal 2017.**

When comparing CEO compensation for fiscal 2017 to fiscal 2016, total compensation decreased by 61% (\$9.1 million) while total shareholder return decreased by 15%.

The Compensation Committee further adjusted Mr. Wexner's target compensation for fiscal 2018 to reduce the amount of guaranteed compensation, put greater emphasis on performance-based compensation and decrease overall target compensation:

2018 Compensation Actions

- Adjusted base salary from \$2 million to \$1 million, a reduction of 50% or \$1 million.
- Reduced the short-term performance-based incentive compensation target from \$4.4 million to \$1.5 million, a reduction of 66% or \$2.9 million.
- Adjusted the pay mix, increasing the weighting of long-term performance-based incentive compensation from 44% to 72% of total direct compensation.
- Decreased total direct compensation at target from \$11.4 million to \$9.0 million, a reduction of 21% or \$2.4 million.

With these actions to reduce CEO pay, Mr. Wexner's total compensation for fiscal 2017 was \$5.7 million, which is well below the median of our peers and his 2018 target pay is 18% below the median. In summary, there is alignment between our performance, our stockholders' interests and our CEO's pay. Accordingly, we recommend stockholders vote FOR the executive compensation program as outlined in Proposal 4.

Executive Compensation Philosophy

Guiding Principles

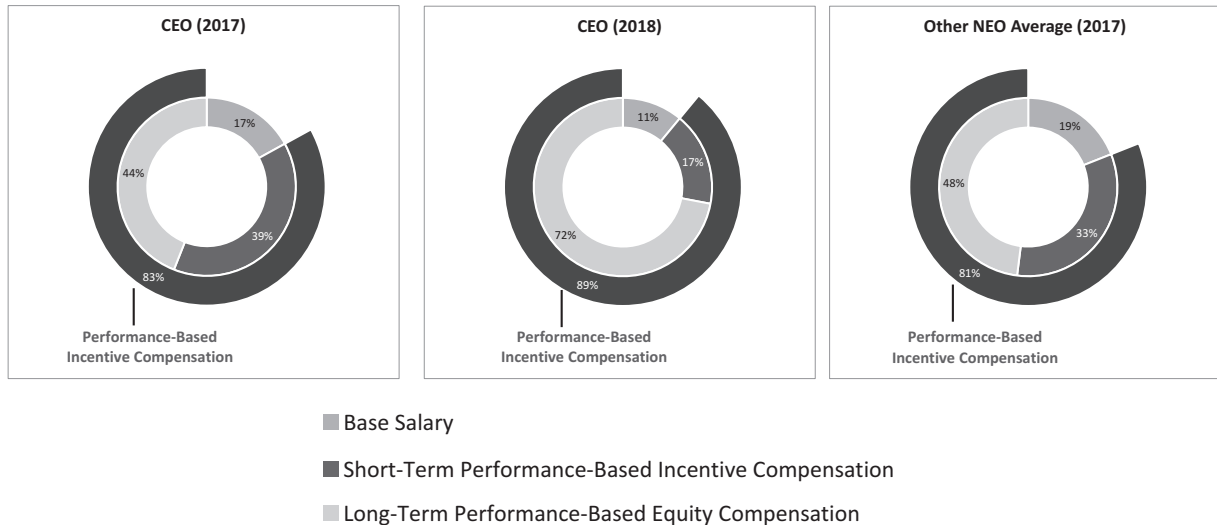

The Compensation Committee has built an executive compensation program on the following clear and purposeful guiding principles:

Compensation Component	Our Principles
Pay Level	<ul style="list-style-type: none">• Attract and retain superior leaders in a highly competitive market for talent.• Pay competitively and equitably.• Recognize depth and scope of accountability and complexity of responsibility.
Pay Mix	<ul style="list-style-type: none">• Emphasize performance-contingent, long-term and equity-based compensation over fixed compensation.
Pay for Performance	<ul style="list-style-type: none">• Recognize and reward enterprise, brand and individual performance.• Align executives' interests with stockholders' interests.• Require executives to own a significant amount of Common Stock.• Set Spring and Fall goals that reflect the seasonal nature of our business and incentivize goal achievement in each season.• Create long-term stockholder value through regular achievement of short-term goals while pursuing our longer-term strategy of growth in North America and internationally and increasing operating margins.• Retain and incentivize high-performers through long-term equity incentive awards.

Connecting Pay and Performance

Two key elements of our program's design connect pay to performance. First, our incentive goals are designed to challenge our NEOs to achieve a high level of performance to earn incentives at target. When our NEOs hit and exceed these goals, we compensate them accordingly. Conversely, disappointing results significantly reduce our NEOs' compensation.

Second, to further connect NEOs' pay to performance, we employ a pay mix philosophy that places greater emphasis on performance-based and equity compensation over base salary. The following charts illustrate our pay mix philosophy which consists of a lower percentage of base salary compared to performance-based pay at target. The adjustments that the Compensation Committee made to CEO compensation for 2018 place even greater emphasis on performance-based pay:

To assess whether the Company's compensation program reflects our financial results as designed, the Compensation Committee's independent compensation consultant, Willis Towers Watson, analyzed our performance-based long-term equity and short-term total cash compensation for our NEOs across four key measures (operating income, earnings per share, total shareholder return and return on invested capital). The analysis tests the alignment of pay delivered over multiple timeframes relative to our peer group with performance measured by these specific metrics that are important to our Company and its stockholders. The analysis demonstrated that both pay and performance are in the top quartile of our peer group.

Based on this analysis, Willis Towers Watson and the Compensation Committee concluded that our NEO compensation is aligned with performance and appropriate based on the competitive market, achievement of performance goals and total returns delivered to our stockholders. They also concluded that the executive compensation program's design appropriately responds to changes in our business and results.

Compensation Comparison

We compare our NEO compensation with publicly available data on executive compensation.

We define our peer group, with the help of Willis Towers Watson, to generally include:

- Specialty and department store retailers;
- Companies with brands that have emotional content;
- Businesses that are generally similar to the Company in total revenue, market capitalization, global locations, business and/or merchandise focus; and
- Retailers that compete with the Company for executive talent.

We review our peer group annually and did not make any changes in 2017. Our peer group consists of the following companies:

Abercrombie & Fitch Co.	The Gap, Inc.	Ralph Lauren Corporation
American Eagle Outfitters, Inc.	J. C. Penney Company, Inc.	Ross Stores, Inc.
Avon Products, Inc.	Kohl's Corporation	Starbucks Corporation
Bed Bath & Beyond Inc.	Macy's, Inc.	The TJX Companies, Inc.
Coach, Inc.	NIKE, Inc.	Williams-Sonoma, Inc.
The Estee Lauder Companies Inc.	Nordstrom, Inc.	

We do not specifically set our NEOs' compensation against our peer group. Instead, we consider peer group comparisons as one of several factors in applying our pay philosophy and setting the pay of our NEOs. Our peer group is used by Willis Towers Watson, the Compensation Committee's independent compensation consultant, to analyze the effectiveness of our compensation program at delivering pay for performance on a relative basis.

Stock Ownership Guidelines

The Compensation Committee encourages Common Stock ownership by our NEOs through stock ownership guidelines which promote a long-term focus on performance, discourage inappropriate risk-taking and align the interests of our NEOs with those of our stockholders. Stock ownership guidelines can be met through direct or beneficial ownership of Common Stock, including Common Stock held under our stock and retirement plans.

Our CEO is required to maintain ownership of Common Stock with a value of five times his base salary. As the beneficial owner of 47,262,939 shares of Common Stock (16.91% of shares outstanding), Mr. Wexner's stock ownership well exceeds this minimum requirement.

Other NEOs are required to maintain beneficial ownership of Common Stock with a value of three times the NEO's base salary. All of our NEOs have beneficial ownership in excess of this guideline as of the end of fiscal 2017.

Members of our Board must maintain ownership of at least the number of shares of Common Stock received as Board compensation over the previous four years. All members of our Board are in compliance with this policy.

Compensation for NEOs

Compensation Setting Process

The Compensation Committee makes all decisions regarding Mr. Wexner's compensation and Mr. Wexner decides on compensation for the other NEOs. The Compensation Committee oversees the evaluation process and compensation structure for the other NEOs and approves all NEO stock awards.

Target compensation for the NEOs is reviewed annually and is designed to reward historical performance, incentivize future performance and be competitive with the external market for talent. Fiscal 2017 compensation decisions made for NEOs other than Mr. Wexner reflect the mixed performance of fiscal 2016.

- There were no base salary adjustments.
- Short-term performance-based incentive compensation targets were increased for each of these NEOs to incentivize future performance and further leverage their compensation.
- Long-term performance-based equity incentive compensation awards at target were decreased in 2017 for each of these NEOs to reflect 2016 performance that did not meet our high expectations.

Compensation Components

The three principal elements of our executive compensation programs are base salary, short-term performance-based cash incentive compensation and long-term performance-based equity incentive compensation. Participation in base salary and short-term performance-based cash incentive compensation is the same for all of our NEOs, including our CEO. The size and grant timing of long-term performance-based equity incentive compensation for our CEO is different from the other NEOs but the other key terms of the award are the same, including vesting and performance requirements. Other elements of compensation that may be paid to NEOs include retirement and other post-employment benefits and perquisites. Our CEO is not eligible for post-employment benefits under a severance or change in control agreement. Additional information about each of these compensation components is provided below.

Base Salary

The following factors are considered in determining base salary adjustments:

- Scope and responsibility of the NEO's position;
- Achievement of seasonal and annual business goals;
- Level of overall compensation paid by competitors for comparable positions;
- Recruitment, retention and development of leadership talent;
- The Company's challenging expectations for future growth; and
- The appropriate balancing of our NEOs' base salary against their incentive compensation.

For 2017, none of the NEOs received a base salary increase.

<u>NEO</u>	<u>2017 Base Salary (\$)</u>	<u>2016 Base Salary (\$)</u>	<u>Increase (%)</u>
Mr. Wexner	2,000,000	2,000,000	0.0%
Mr. Burgdoerfer	900,000	900,000	0.0%
Mr. McGuigan	1,300,000	1,300,000	0.0%
Mr. Coe	1,100,000	1,100,000	0.0%
Mr. Waters	900,000	900,000	0.0%

Short-Term Performance-Based Cash Incentive Compensation

This program focuses on achievement of six-month goals, reflecting the seasonal nature of our business and the fact that achievement of our short-term goals season after season creates long-term value for our stockholders.

Our operations consist of two principal selling seasons: Spring (the first and second quarters) and Fall (the third and fourth quarters). Fall, including the holiday season, is weighted more heavily because of its importance to our profitability.

Short-term performance-based cash incentive compensation targets are set at a percentage of base salary with the amount earned ranging from zero to double the target incentive, based on the extent to which financial goals are achieved or exceeded.

The financial incentive provided by the short-term performance-based incentive compensation plan is a key component in driving the performance of the Company. For fiscal 2017, our NEOs' focus on maximizing operating income was especially important given strategic initiatives that were expected to put pressure on operating income. To ensure that our NEOs were appropriately motivated to achieve operating income goals in a difficult

environment, target percentages for each of the NEOs, other than Mr. Wexner, were increased. For Mr. Coe, the target percentage was increased from 170% to 180% and for Messrs. Burgdoerfer, McGuigan and Waters, the target percentage was increased from 160% to 170%.

The pre-established, objective financial goals for fiscal 2017 were based solely on operating income, subject to adjustment for extraordinary items pursuant to the 2015 Incentive Compensation Performance Plan (the “2015 ICPP”) and approved by the Compensation Committee. Operating income is used because it is a performance measure over which executives can have significant impact and is also directly linked to the Company’s long-term growth plan and performance that drives stockholder value. When evaluating operating income goals, the Compensation Committee compares the increase in operating income relative to the change in the incentive payments to associates at target.

Operating income goals are set at the beginning of each six-month season based on:

- An analysis of historical performance;
- Income goals for that brand;
- Financial results of other comparable businesses; and
- Progress toward achieving our strategic plan.

The table below shows the weighting of operating income goals used to determine short-term performance incentive payouts:

NEO	Short-term Performance Incentive Goal Weighting and Metric
Mr. Wexner	80% weighted average of major brand performance: 55% Victoria’s Secret operating income 30% Bath & Body Works operating income 15% Other operating income 20% Total L Brands operating income
Mr. Burgdoerfer	
Mr. McGuigan	
Mr. Coe	100% Bath & Body Works operating income
Mr. Waters	90% weighted average of international brand operating income 10% international home office expense

In fiscal 2017, the Compensation Committee set goals at target that were lower than actual results in fiscal 2016 due to the following strategic initiatives that were expected to put pressure on operating income:

- Elimination of non-core categories such as swim in our lingerie business and apparel items that were offered in our direct channel but not in stores at Victoria’s Secret.
- Reduced direct mail couponing and elimination of our catalogue circulation at Victoria’s Secret.
- Real estate investment and increased occupancy costs at Bath & Body Works.
- Investment in full assortment stores and development of the direct channel in China for L Brands International.

The table below shows the operating income goals required to earn short-term performance-based incentive compensation at target and actual performance by season:

	Fiscal 2017 Spring Season		Fiscal 2017 Fall Season	
	Operating Income Goal	Actual Performance ¹	Operating Income Goal	Actual Performance ¹
Total L Brands	\$577 million	\$510 million	\$1,246 million	\$1,218 million
Victoria's Secret	415 million	343 million	667 million	588 million
Bath & Body Works	258 million	260 million	682 million	706 million
L Brands International ²	-1 million	-6 million	14 million	7 million
Other ²	71 million	51 million	109 million	138 million

¹ Actual performance presents operating income on an adjusted basis which removes certain special items (subject to approval by the Compensation Committee) which are not indicative of Company ongoing operations due to their non-recurring and extraordinary nature. The Company uses adjusted financial information as key performance measures of results for purposes of evaluating performance internally, which may not correspond to amounts reported externally.

² L Brands International and Other include business unit operating income that is an internal performance measure and does not correspond to amounts reported externally.

To earn threshold payout, performance goals average approximately 75% to 95% of target and to earn maximum payout, performance goals average approximately 105% to 115% of target. Performance below threshold results in no payout. Performance between threshold and target and target and maximum is interpolated to determine payout percentage beginning at 20% at threshold up to 200% at maximum.

Payouts for fiscal 2017 performance are set forth below and in the “Non-Equity Incentive Plan Compensation” column of the 2017 Summary Compensation Table below.

Total Fiscal 2017 Incentive Payout

	Fiscal 2017 Target Incentive (\$)	Fiscal 2017 Spring Incentive Payout (\$)	Fiscal 2017 Fall Incentive Payout (\$)	Total Fiscal 2017 Payout (\$)	Percent of Fiscal 2017 Target (%)
Mr. Wexner	4,400,000	1,112,320	0 ⁽¹⁾	1,112,320	25%
Mr. Burgdoerfer	1,530,000	386,784	635,256	1,022,040	67%
Mr. McGuigan	2,210,000	558,688	917,592	1,476,280	67%
Mr. Coe	1,980,000	852,984	1,669,140	2,522,124	127%
Mr. Waters	1,530,000	623,016	1,140,156	1,763,172	115%

⁽¹⁾ Pursuant to its exercise of negative discretion and with Mr. Wexner's concurrence, the Compensation Committee determined not to pay Mr. Wexner's Fall incentive compensation.

Long-Term Performance-Based Equity Incentive Compensation

Stock awards are made to our NEOs under the 2015 Stock Option and Performance Incentive Plan (the “2015 Plan”). Our equity-based long-term performance-based incentive program rewards past performance, reflected by the size of the award at grant, and encourages future performance with a challenging performance requirement. In addition, the vesting requirements increase the likelihood of retaining executives who are critical to our success.

For the NEOs other than Mr. Wexner, individual performance (including contribution to the achievement of business goals, execution of retail fundamentals and accomplishment of talent and cultural objectives), company performance, competitive practice, the Company's overall equity compensation expense budget, stockholder

dilution, internal equity and retention risk are all considered in determining the size of their fiscal 2017 equity awards. The size and timing of Mr. Wexner’s equity award is determined on a different basis, as described in detail below.

Stock Options

Stock options are intended to align executive interests with stockholder interests by creating a direct link between compensation and stockholder return, and to foster retention. Stock options granted to each NEO vest over five years, subject to continued employment. The exercise price is equal to the grant date closing price of Common Stock.

Performance-Based RSUs

Performance-based RSUs are intended to:

- Incentivize achievement of key performance metrics (through the performance requirement);
- Align executive rewards with those realized by stockholders (through the market value of our stock);
- Retain superior executive talent (through the time vesting requirements); and
- Reward exceptional individual performance (through annual determination of the size of the award).

Below is a summary of the performance-based RSU awards and stock options awarded in fiscal 2017:

	Value of Performance- Based RSU Award (\$)	Value of Stock Option Award (\$)	Total Fiscal 2017 Equity Award Value (\$)
Mr. Wexner ⁽¹⁾	920,767	253,420	1,174,187
Mr. Burgoerfer	1,616,479	83,980	1,700,459
Mr. McGuigan	2,434,972	121,308	2,556,280
Mr. Coe	1,902,944	102,644	2,005,588
Mr. Waters	1,616,479	83,980	1,700,459

⁽¹⁾ While the performance requirement is the same, the amount and timing of Mr. Wexner’s equity award are determined on a different basis than that of our other NEOs, as described in detail below.

In order for performance-based RSUs to be earned, the Company’s cumulative adjusted operating income, as a percentage of cumulative sales, must be in the top one-third of the S&P Retailing Index (also determined on a cumulative and adjusted basis) beginning with the fiscal year of the award through the fiscal year immediately preceding each vest date.

We use operating income in our short-term performance-based cash incentive program and as a component of our long-term performance-based equity incentive program because operating income is an important focus for our NEOs and an appropriate metric for measuring performance. However, while operating income is a component of both incentive programs, there are notable differences in the performance metrics used in the two programs, as detailed below:

- Operating income is the sole performance metric used for our short-term program while the long-term program is based on a metric that uses both operating income and sales;
- The use of operating income as a percentage of sales for our long-term program requires strong performance in both operating income and sales and measures the efficiency of our sales;
- The relative metric of the long-term program requires that our performance significantly exceeds that of companies within our industry for the pre-determined performance goal to be achieved; and

- The cumulative performance metric of the long-term program requires sustained performance over the five-year vesting period reflecting long-term performance of the Company.

Performance-based RSUs vest over five years, with 20% vesting on each of the second and third anniversaries of the grant date, and 30% on each of the fourth and fifth anniversaries, in each case subject to the performance measure being satisfied and continued employment. To the extent the performance metric is not met for any vesting tranche, the shares from such vesting tranche will be forfeited.

Equity awards are granted on the date the award is approved, unless the effective date of the reason for the award (such as hire date) is later than the approval date. In this case, the grant date is the later date.

Retirement and Other Post-Employment Benefits

Retirement and other post-employment benefits consist of qualified and non-qualified defined contribution retirement plan benefits and termination benefits.

Qualified Defined Contribution Retirement Plan

The qualified plan is available to all associates who meet certain age and service requirements. Associates can contribute up to the amounts allowable under the Internal Revenue Code of 1986 (the “Code”). The Company matches associates’ contributions according to a predetermined formula and contributes additional amounts based on a percentage of the associates’ eligible annual compensation and years of service. Associates’ contributions and Company matching contributions to the qualified plan vest immediately. Additional Company contributions and the related investment earnings are subject to vesting based on years of service.

Non-Qualified Defined Contribution Deferred Compensation and Supplemental Retirement Plan

The non-qualified plan is available to all associates who meet certain age, service, job level and compensation requirements. The non-qualified plan is an unfunded plan which provides benefits beyond the Code limits for qualified defined contribution plans. The Company does not set aside assets to fund liabilities of the non-qualified plan. Assets that may be used to satisfy such liabilities are general assets of the Company, subject to the claims of the Company’s creditors.

Associates can contribute to the non-qualified plan up to a maximum percentage of eligible compensation. The Company matches associates’ contributions and contributes additional amounts based on a percentage of the associates’ eligible compensation and years of service.

The plan also permits participating associates to defer additional compensation which the Company does not match.

Associates’ contributions to the non-qualified plan and the related interest accruals vest immediately. Company contributions and credits to the non-qualified plan and the related interest are subject to vesting based on years of service.

Termination Benefits: Severance and Change in Control Agreements

We have entered into severance and change in control agreements with our NEOs other than Mr. Wexner. See “Retirement and Other Post-Employment Benefits—Estimated Post-Employment Payments and Benefits” below for a description of estimated benefits in certain termination situations, including a change in control.

Upon a change in control, awards will only vest if the executive’s employment is terminated by the executive for good reason or by the Company other than for cause within 24 months of the change in control.

None of our NEOs are entitled to a tax gross-up upon a change in control.

Perquisites

We provide our NEOs with minimal perquisites that the Compensation Committee has determined are reasonable and in the best interests of the Company and its stockholders. These perquisites include the reimbursement of financial planning costs of up to \$9,500 and supplemental disability and life insurance coverage provided by the Company for associates at the Vice President level and above, including the NEOs. In addition, to the extent that corporate provided aircraft is used by any NEO for personal purposes, the NEO has reimbursed the Company based on the greater of the amount established by the Internal Revenue Service (“IRS”) as reasonable for personal use or the aggregate incremental cost associated with the personal use of the corporate owned aircraft as determined by an independent, third party aircraft costing service.

CEO Compensation

Overview of CEO Pay

Mr. Wexner is recognized as a unique talent, innovator and leader in the retail industry. His long record of success in leading the Company is unmatched in scope and duration by any other retailer. In November 2015, Mr. Wexner was recognized by the Harvard Business Review as the best-performing CEO in the world based on total shareholder return during his tenure as our founder and CEO. The Compensation Committee has determined that Mr. Wexner should be compensated based on his ability to drive performance, growth and shareholder returns, with due consideration to his management of the business for both short-term and long-term results.

Mr. Wexner’s short-term and long-term performance-based incentive compensation for fiscal 2017 reflects the Company’s performance. The decrease in compensation by 61% from fiscal 2016 to 2017 is linked to short-term performance-based incentive compensation that was earned below target and long-term performance-based equity incentive compensation that is 87% below the value awarded for fiscal 2016.

CEO Stock Award Determination Overview

Beginning with fiscal 2010, the Compensation Committee implemented an annual process in which Mr. Wexner’s stock grant would be a “split grant” delivered in two parts—one in the Spring at the same time other senior executives receive stock grants, and one near the end of the Fall season when Mr. Wexner’s and the Company’s performance can be substantially determined for the fiscal year. Both the Spring and Fall stock awards are 100% performance contingent, granted as a combination of stock options and performance-based RSUs.

Spring 2017 Award

The value of the Spring stock award is set below the competitive market to provide a baseline award while imposing a performance requirement for the award to be earned. The Compensation Committee granted Mr. Wexner a stock award in Spring 2017 with a reported value of \$1.2 million.

Fall 2017 Award

As the fiscal year draws to a close, the Compensation Committee assesses both Mr. Wexner’s and the Company’s performance, and if deemed appropriate, grants Mr. Wexner a performance-based stock award in January. This Fall stock award is intended to recognize financial, strategic and operational performance for the fiscal year and incentivize future performance. The Fall award is subject to performance in two ways:

- The Compensation Committee goes through a rigorous quantitative and qualitative evaluation of historical performance to determine the size of the award; and

- Once granted, RSUs must be earned based on the attainment of a quantitative performance metric and the value of stock options is contingent on the stock price increasing.

For fiscal 2017, the Compensation Committee significantly decreased the Fall stock award value range:

	Fall Stock Award Value Range		
	Fiscal 2016	Fiscal 2017	% Decrease
Minimum	\$ 0	\$ 0	0%
Target	\$ 7,800,000	\$3,500,000	-55%
Maximum	\$18,800,000	\$8,500,000	-55%

The Committee believes that Mr. Wexner’s standing as a top-performing CEO justifies a stock award value that is among the top of our peer group. However, the Committee determined that a lower target appropriately reflects the Company’s performance over the last two years, demonstrating its discipline in aligning pay with performance. The rigorous quantitative and qualitative evaluation that is used to determine the size of the award relative to target includes an analysis of:

- Absolute and relative total shareholder return over one and three years
- Absolute and relative return on invested capital over one and three years
- Sales and operating income growth
- Earnings per share
- Performance against pre-established financial targets
- Leadership talent development
- Identification and development of new business opportunities
- Success in fostering a high performance culture
- Progress toward achieving our strategic plan

While the size of Mr. Wexner’s Fall stock award is determined on a quantitative and qualitative basis, once the size of the grant is determined, the Compensation Committee imposes a quantitative performance metric that the Company must achieve over the vesting period in order for Mr. Wexner to vest in the award.

In January 2018, the Compensation Committee decided not to grant Mr. Wexner a Fall stock award based on financial performance of the Company and the significant decline in total shareholder return.

Both the Spring and Fall awards are delivered as a combination of performance-based RSUs and stock options. Mr. Wexner’s RSU awards are subject to the same performance and vesting requirement as those of our other NEOs. The performance-based RSUs and stock options vest over five years, with 20% vesting on each of the second and third anniversaries of the grant date, and 30% on each of the fourth and fifth anniversaries. Performance-based RSUs must be earned based on achievement of adjusted operating income, as a percentage of cumulative sales, in the top one-third of the S&P Retailing Index (also determined on a cumulative and adjusted basis).

CEO Termination Benefits

Due to his unique role as the founder of the Company, Mr. Wexner is not covered by a severance or change in control agreement. However, consistent with the treatment for all stock plan participants under the terms of our 2015 Plan and prior plan, all of Mr. Wexner’s unvested stock options and RSUs will vest upon death. Subject to the achievement of pre-established performance conditions, RSUs will continue to vest upon Mr. Wexner’s total disability. Upon retirement, RSUs will vest pro rata based on the fraction of whole months worked from the

grant date over the full vesting period (i.e., one-fifth will vest if twelve full months are completed from the grant date for a grant that would otherwise vest over five years), subject to the achievement of performance conditions. In the event of a change in control, unvested RSU awards will vest if Mr. Wexner's employment is terminated other than for cause within 24 months of the change in control.

CEO Perquisites

The Board of Directors has approved a security program (the "Security Program") that provides security services to Mr. Wexner and his family. The Security Program is for the benefit of the Company and is appropriate given the risks associated with Mr. Wexner's position. We periodically hire a third party to review our Security Program to verify that a bona fide Company oriented security concern exists and that the Security Program costs are reasonable and consistent with these concerns. The Security Program requires Mr. Wexner to use corporate provided aircraft, or private aircraft that is in compliance with the Security Program, whether the purpose of the travel is business or personal.

The cost of security services which are not business related have been reimbursed to the Company by Mr. Wexner. In addition, to the extent that corporate provided aircraft is used by Mr. Wexner for personal purposes, he has reimbursed the Company as noted above under the heading "—Compensation for NEOs—Perquisites".

Compensation Governance

Compensation Committee

Our executive compensation program is overseen by the Compensation Committee. Compensation Committee members are appointed by our Board and meet independence and other NYSE requirements. Compensation Committee members are selected based on their knowledge and experience in compensation matters from both their professional experience and their roles on other boards.

As part of its self-evaluation process, the Compensation Committee considers prevailing best practices and compliance with the highest governance standards. During fiscal 2017, the Compensation Committee also continued to engage with the full Board to maximize its effectiveness. The role of the Compensation Committee and information about its meetings are set forth in this proxy statement.

The Compensation Committee participated in the preparation of this CD&A and recommended to the Board that it be included in this proxy statement.

The Compensation Committee, together with the Company, also evaluates the Company's compensation structure from the perspective of enterprise risk. The Company's compensation structure includes risk mitigating factors such as a mix of pay that is balanced between long and short-term, fixed and variable, limited payouts under the 2015 Plan and 2015 ICPP and oversight by the Compensation Committee. Based on this evaluation, the Compensation Committee believes that the Company's compensation structures are appropriate and do not incentivize inappropriate taking of business risks.

The Compensation Committee's charter is available on our website at www.lb.com.

Committee Meetings and Delegation

Members of Company management, including the Chief Operating Officer and the Chief Financial Officer, attend the Compensation Committee meetings along with the Senior Vice President of Total Rewards, who generally prepares meeting materials, and the Corporate Secretary, who records the minutes of the meeting. Members of Company management, including the CEO, do not play a role in recommending CEO compensation. The Compensation Committee regularly meets in executive session without management present.

The Compensation Committee may delegate its authority to subcommittees or the Chair of the Compensation Committee. In accordance with its charter, the Compensation Committee has delegated to our Chief Operating Officer, or his designee, the authority to make stock awards under the provisions of the 2015 Plan with a value up to \$400,000 in any year to any associate who is not a Section 16 officer of the Company or a senior leadership team member.

Independent Compensation Consultant

As permitted by its charter, the Compensation Committee retained Willis Towers Watson as its independent executive compensation consultant and has the sole authority to retain and terminate any independent executive compensation consultant.

The Compensation Committee, considering recommendations from our management team, determines the work to be performed by the consultant. The consultant works with management to gather data required in preparing analyses for Compensation Committee review. Specifically, the services the consultant provides include:

- Assisting in evaluation of CEO and other NEO compensation;
- Informing the Compensation Committee of changing market practices;
- Consulting on our executive compensation strategy and program design;
- Analyzing alignment of pay and performance;
- Assisting in the selection of our peer group; and
- Assisting in the preparation and review of this disclosure.

Willis Towers Watson did not provide additional services to the Company exceeding \$120,000 during the fiscal year.

The Compensation Committee reviews and approves the provision of additional services by Willis Towers Watson to the Company and evaluates the performance and independence of Willis Towers Watson, specifically considering independence factors identified by the Commission. This evaluation includes a review of written representations from Willis Towers Watson confirming their independence. Based on its evaluation, the Compensation Committee believes that there are no conflicts of interest that could impair Willis Towers Watson's ability to provide independent, objective advice to the Compensation Committee regarding executive compensation matters.

Tax Deductibility

The Compensation Committee seeks to structure tax-efficient executive compensation. The 2015 ICPP and the 2015 Plan were intended to qualify short-term cash incentive payments and long-term equity incentive compensation as performance-based compensation for tax deductibility under Section 162(m) of the Code. However, the exception for performance-based compensation has been phased out under recent tax reforms. Accordingly, going forward annual compensation in excess of \$1 million for our covered senior executives will generally be non-deductible pursuant to Section 162(m).

Recovery of Compensation

Under the 2015 ICPP and the 2015 Plan, the Compensation Committee has the power and authority to recover previously awarded bonuses or equity-based compensation or profits if (i) required by applicable law with respect to a participant, (ii) a participant engaged in fraudulent conduct or activities (or had knowledge of such conduct or activities) relating to the Company or (iii) a participant should have had knowledge of such conduct or activities based on his or her position, duties or responsibilities.

Tally Sheets

To assess the reasonableness of the compensation of our NEOs, the Compensation Committee annually reviews a three-year history of all of the components of the NEOs' compensation, including salary, short-term incentive compensation, realized and unrealized gains on stock options and RSUs, the cost to the Company of all perquisites, benefits earned and accrued under the Company's non-qualified deferred compensation and supplemental executive retirement plan, and potential payouts under several potential severance and change-in-control scenarios. Based on this review, the Compensation Committee concluded that compensation components individually and in aggregate are reasonable, encourage retention, incentivize performance and are in the best interests of the Company and its stockholders.

Conclusion

Following several years of successive record setting performances, in fiscal 2015 the Company achieved all-time record results. Investors rewarded the Company with a historically high price-earnings multiple and the stock reached an all-time high of \$101.11 per share. Our CEO's compensation in 2015 reflected this accomplishment.

In fiscal 2016, the Company implemented a series of initiatives designed to better position several of our businesses for the future. The short-term effects of some of these initiatives have not yet produced the results that are expected. In response, the Compensation Committee reduced our CEO's target compensation for fiscal 2017 by 34% or \$6.0 million. In addition, due to performance in fiscal 2017, the Compensation Committee took further action to decrease CEO pay from the reduced target:

2017 Compensation Actions

- Did not grant a Fall 2017 long-term performance-based equity incentive award. This reduced CEO compensation by 31% (\$3.5 million) below target.
- Exercised negative discretion to eliminate the Fall season short-term incentive payout, resulting in a total 2017 payout that was 75% (\$3.3 million) below target.
- **As a result of these actions, CEO compensation was 60% (\$6.8 million) below the reduced target for fiscal 2017.**

When comparing CEO compensation for fiscal 2017 to fiscal 2016, total compensation decreased by 61% (\$9.1 million) while total shareholder return decreased by 15%.

The Compensation Committee further adjusted Mr. Wexner's target compensation for fiscal 2018 to reduce the amount of guaranteed compensation, put greater emphasis on performance-based compensation and decrease overall target compensation:

2018 Compensation Actions

- Adjusted base salary from \$2 million to \$1 million, a reduction of 50% or \$1 million.
- Reduced the short-term performance-based incentive compensation target from \$4.4 million to \$1.5 million, a reduction of 66% or \$2.9 million.
- Adjusted the pay mix, increasing the weighting of long-term performance-based incentive compensation from 44% to 72% of total direct compensation.
- Decreased total direct compensation at target from \$11.4 million to \$9.0 million, a reduction of 21% or \$2.4 million.

With these actions to reduce CEO pay, Mr. Wexner's total compensation for fiscal 2017 was \$5.7 million, which is well below the median of our peers. In summary, there is alignment between our performance, our stockholders' interests and our CEO's pay. Accordingly, we recommend stockholders vote FOR the executive compensation program as outlined in Proposal 4.

2017 Summary Compensation Table

- (1) Performance-based incentive compensation bonuses are disclosed in this table under the Non-Equity Incentive Plan Compensation column. None of our NEOs received a nonperformance-based award in fiscal 2017.
- (2) The value of stock and option awards reflects the aggregate grant date fair value, excluding estimated forfeitures, computed in accordance with Accounting Standards Codification (“ASC”) Topic 718 Compensation—Stock Compensation, for each award. Stock options are valued using the Black-Scholes option pricing model. See Note 20 to the Company’s financial statements filed in the 2017 10-K for the related assumptions for stock options granted during fiscal 2017, 2016 and 2015 and for a discussion of our assumptions in determining the aggregate grant date fair value of these awards. Awards vest over time and, therefore, are not realizable on an annual basis, nor is the ultimate value determinable without reference to future performance.
- (3) Stock and option awards were granted to each NEO under the Company’s 2011 Stock Option and Performance Incentive Plan (the “2011 Plan”) and the 2015 Plan. Awards are long-term compensation and generally vest over five years and are not realizable on an annual basis.

- (4) Represents the aggregate of the non-equity performance-based incentive compensation for the applicable fiscal Spring and Fall selling seasons. Incentive compensation targets are set based on a percentage of base salary and are paid seasonally based on the achievement of operating income results. The following table illustrates the amount of the compensation which is paid in cash and voluntarily deferred:

	<u>Paid in Cash</u> (\$)	<u>Deferred</u> <u>Cash</u> (\$)	<u>Total</u> (\$)
Mr. Wexner	\$1,078,950	\$33,370	\$1,112,320 ^(a)

Mr. McGuigan	1,432,742	43,538	1,476,280
Mr. Coe	2,444,672	77,452	2,522,124
Mr. Waters	1,706,950	56,222	1,763,172

^(a) Amount reflects Mr. Wexner's incentive compensation payment for the Spring season only. Pursuant to its exercise of negative discretion and with Mr. Wexner's concurrence, the Compensation Committee determined not to pay Mr. Wexner's Fall incentive compensation.

- (5) The Company does not sponsor a defined benefit retirement plan (tax-qualified or non-qualified). For fiscal 2017, the amounts shown represent the amount by which earnings on each NEO's non-qualified plan balance at an annual effective rate of 4.34% exceed 120% of the applicable federal long-term rate at the time the rate was set in October 2016.
- (6) The following table details all other compensation paid to each NEO during our last fiscal year:

(1) Non-Equity Incentive Plan Awards represent the Threshold, Target and Maximum opportunities under the 2015 ICPP for the 2017 Spring and Fall seasons. The actual amount earned under this plan is disclosed in the 2017 Summary Compensation Table in the “Non-Equity Incentive Plan Compensation” column.

(2) Equity Incentive Plan Awards were granted pursuant to the Company’s 2015 Plan.

Equity Incentive Plan Awards represent the Target payment of performance-based RSUs for fiscal 2017. No amount is disclosed for Threshold and Maximum since the number of performance-based RSUs earned does not fluctuate based on performance. Units are earned at target, or not at all.

Awards granted on March 31, 2017 are subject to the Company’s achievement of operating income as a percentage of sales ranking in the top one third of the S&P Retailing Index in each of fiscal 2017, 2018, 2019, 2020 and 2021, determined on a cumulative basis. If the performance condition is met, the RSUs will vest 20% on the second and third anniversaries of the grant date and 30% on the fourth and fifth anniversaries of the grant date, subject to continued employment.

In each case, the vesting of these awards is subject to continued employment. Dividends are not paid or accrued on stock awards or stock units until such shares vest.

(3) Option Awards were granted pursuant to the Company’s 2015 Plan. Option grant dates were established on the date the grants were approved by the Compensation Committee and the exercise price is the closing price of Common Stock on the grant date.

Option Awards vest 20% on the second and third anniversaries of the grant date and 30% on the fourth and fifth anniversaries of the grant date.

In each case, the vesting of these awards is subject to continued employment.

(4) The value of stock and option awards reflects the grant date fair value under ASC Topic 718 Compensation—Stock Compensation for each award. Options are valued using the Black-Scholes option

pricing model with the following weighted average assumptions as set forth in the Company's financial statements filed in the 2017 10-K: dividend yield of 5.1%, volatility of 28%, risk free interest rate of 1.5% and expected life of 3.0 years. RSUs are valued based on the fair market value of a share of Common Stock on the date of grant, adjusted for anticipated dividend yields.

Option Exercises and Stock Vested Information for Fiscal 2017

The following table provides information relating to Option Awards exercised and RSU Awards vested during the fiscal year ended February 3, 2018.

	Option Awards		Restricted Stock Awards	
	Number of Shares Acquired on Exercise (#)	Value Realized on Exercise \$(1)	Number of Shares Acquired on Vesting (#)	Value Realized on Vesting \$(2)

Martin P. Waters	0	0	45,440	2,194,259

- (1) Option Award Value Realized is calculated based on the difference between (a) the sale price and the option exercise price for shares that were sold upon exercise and (b) the closing price on the day prior to the date of exercise and the option exercise price for shares that were held upon exercise. The shares acquired by Mr. Wexner upon exercise were held and not sold.
- (2) Restricted Stock Award Value Realized is calculated based on the closing stock price on the date the RSUs vested.

- (1) Amounts disclosed include non-qualified cash deferrals, Company matching contributions, retirement credits and earnings under the Company’s Supplemental Retirement Plan (a non-qualified defined contribution plan) and stock deferrals and related reinvested dividend earnings under the Company’s amended and restated 1993 Stock Option and Performance Incentive Plan (the “1993 Plan”), 2011 Plan and 2015 Plan. Executive Contributions and related matching Registrant Contributions represent 2017 calendar year deferrals and matches on incentive compensation payments earned based on performance for the Fall 2016 season, which was paid in March 2017, and for the Spring 2017 season, which was paid in August 2017.
- (2) All of the contributions are reported in the 2017 Summary Compensation Table under the “Salary” and/or “Non-Equity Incentive Plan Compensation” columns.
- (3) Reflects the Company’s 200% match of associate contributions of up to 3% of base salary and bonus above the IRS qualified plan maximum compensation limit and the Company’s retirement contribution of 6% for less than five years of service or 8% for five or more years of service of compensation above the IRS qualified plan maximum compensation limit. Associates become fully vested in these contributions after six years of service. These contributions are also included under the “All Other Compensation” column of the 2017 Summary Compensation Table.
- (4) Non-qualified deferred cash compensation balances earn a fixed rate of interest determined prior to the beginning of each year.

The portion of the earnings on deferred cash compensation that exceeds 120% of the applicable federal long-term rate in the amount of \$601,942, \$70,437, \$110,693, \$46,311 and \$39,955 for Messrs. Wexner, Burgdoerfer, McGuigan, Coe and Waters, respectively, is disclosed in the “Change in Pension Value and Non-qualified Deferred Compensation Earnings” column of the 2017 Summary Compensation Table.

Amount includes dividends earned on deferred stock and RSU balances in the amount of \$55,010 for Mr. Waters. Dividends are reinvested into additional stock units based on the closing market price of Common Stock on the dividend payment date.

- (5) Participants may elect to receive the funds in a lump sum or in up to ten annual installments following termination of employment, but generally may not make withdrawals during their employment. Deferrals under the Supplemental Retirement Plan, the 1993 Plan, the 2011 Plan and the 2015 Plan are unfunded.
- (6) Balance includes the value of deferred stock and RSUs at calendar year-end in the amount of \$1,136,105 for Mr. Waters. Value is calculated based on a stock price of \$47.51 per share of Common Stock on February 2, 2018.

Estimated Post-Employment Payments and Benefits

We have entered into certain agreements with our NEOs that will require us to provide compensation in the event of a termination of employment, including a termination following a change in control of our Company.

Mr. Wexner is not covered by such an agreement but is entitled to certain termination compensation under the terms of our benefit and stock plans.

The following tables set forth the expected benefits to be received by each of the other NEOs in the event of termination resulting from various scenarios, assuming a termination date of February 3, 2018 and a stock price of \$47.51, the price of our Common Stock on February 2, 2018. Each scenario relates to the single termination event described and amounts are not cumulative in situations where multiple scenarios may apply.

Assumptions and explanations of the numbers set forth in the tables below are set forth in additional text following the tables.⁽¹⁾

- (1) Assumes a termination date of February 3, 2018.
- (2) Bonus amounts assumed at target. Under “Involuntary without Cause or Voluntary with Good Reason” termination scenarios, actual bonus payments would be equal to the bonus payment the NEO would have received if he or she had remained employed with the Company for a period of one year after the termination date of February 3, 2018. Under an “Involuntary Without Cause following Change in Control” termination scenario, bonus payments for Messrs. McGuigan, Coe and Burgdoerfer will be equal to the sum of the last four seasonal bonus payments received and for Mr. Waters will be the same as the “Involuntary without Cause or Voluntary with Good Reason” termination scenario.
- (3) Reflects the value of unvested RSUs and stock options that, subject to achievement of pre-established performance conditions, would become vested based on the \$47.51 fair market value of a share of Common Stock on the last trading day of the fiscal year (February 2, 2018).
- (4) Estimates for benefits and perquisites include the pro rata value of retirement plan contributions on earnings accrued up to the termination date and the continuation of medical, dental and other insurance benefits. Under the “Death” and “Disability” scenarios, includes proceeds from life and disability insurance policies and the value of unvested retirement plan balances that would become vested.
- (5) Messrs. Coe, Burgdoerfer and Waters have not met the age and/or service requirement to qualify for pro rata RSU vesting and retirement plan contributions under the retirement provisions of the 2011 Plan, the 2015 Plan and the qualified and non-qualified retirement plans.

Assumptions and Explanations of Numbers in Tables

The Compensation Committee retains discretion to provide, and in the past has provided, additional benefits to NEOs upon termination or resignation if it determines the circumstances so warrant.

The tables do not include the payment of the aggregate balance of the NEO’s non-qualified deferred compensation that is disclosed in the Non-qualified Deferred Compensation for Fiscal 2017 table above.

Confidentiality, Non-Competition and Non-Solicitation Agreements

As a condition to each NEO’s entitlement to receive certain severance payments and equity vesting acceleration upon certain termination scenarios, the NEO is required to execute a release of claims against us and shall be bound by the terms of certain restrictive covenants, including non-competition and non-solicitation agreements which prohibit the NEO from soliciting or diverting any current or potential employee, customer, or supplier or competing with any of our businesses in which he or she has been employed for a period of one year from the date of termination.

Termination Provisions—Definitions of Cause and Good Reason

The employment agreements for all NEOs other than Mr. Wexner, who does not have an employment agreement, contain customary definitions of cause and good reason. “Cause” generally means that the NEO

(1) willfully failed to perform his or her duties with the Company (other than a failure resulting from the NEO's incapacity due to physical or mental illness); (2) has plead "guilty" or "no contest" to or has been convicted of an act which is defined as a felony under federal or state law; or (3) engaged in willful misconduct in bad faith which could reasonably be expected to materially harm the Company's business or its reputation.

"Good Reason" generally means (1) the NEO's failure to continue in a capacity originally contemplated in the NEO's employment agreement; (2) the assignment to the NEO of any duties materially inconsistent with the NEO's position, duties, authority, responsibilities or reporting requirements, as set out in his or her employment agreement; (3) a material reduction of or a delay in payment of the NEO's total cash compensation and benefits from those required to be provided; (4) the requirement that the NEO be based outside of the United States, other than for travel that is reasonably required to carry out the NEO's duties; or (5) the failure by the Company to obtain the assumption in writing of its obligation to perform the employment agreement by a successor.

Payments Upon a Termination in Connection with a Change in Control

A "Change in Control" of the Company will be deemed to have occurred upon the first of any of the following events to occur:

- (a) any person, together with all affiliates, becomes a beneficial owner of securities representing 33% or more of the combined voting power of the voting stock then outstanding;
- (b) during any period of 24 consecutive months, individuals who at the beginning of such period constitute the Board cease for any reason to constitute a majority of directors then constituting the Board;
- (c) a reorganization, merger or consolidation of the Company is consummated, unless more than 50% of the outstanding shares of Common Stock are beneficially owned by individuals and entities who owned Common Stock just prior to such reorganization, merger or consolidation; or
- (d) the consummation of a complete liquidation or dissolution of the Company.

Participants in the 2015 Plan receive accelerated vesting of equity awards upon a Change in Control in the event of the participant's termination of employment (other than for Cause) within 24 months of the Change in Control ("double trigger" vesting).

No Tax Gross-up

In the event of a termination following a Change in Control, none of our NEOs are entitled to reimbursement or gross-up for any excise taxes that may be imposed under Section 280G of the Code.

Fiscal 2017 Director Compensation

- (1) Directors who are also associates receive no additional compensation for their service as directors. Our current Board's compensation plan does not provide for stock option awards, non-equity incentive plan compensation, pension or non-qualified deferred compensation. At the end of four years of membership on the Board, each member must maintain ownership of Common Stock equal to the amount of Common Stock received as director compensation over the four-year period.
- (2) Directors receive an annual cash retainer of \$111,900; directors receive an additional annual cash retainer of \$12,500 for membership on the Audit and Compensation Committees and \$10,000 for all other committee memberships; the Audit Committee Chair receives an additional \$20,000; the Compensation Committee Chair and the Nominating & Governance Committee Chair each receives an additional \$15,000; and other committee chairs receive \$10,000; and the lead independent director receives an additional cash retainer of \$15,000.
- (3) Directors receive an annual stock retainer worth \$111,900; directors receive an additional annual stock grant worth \$12,500 for membership on the Audit and Compensation Committees and worth \$10,000 for other committee memberships; and the lead independent director receives an additional stock retainer of \$15,000. Stock retainers were granted under the 2015 Plan. The number of shares issued is calculated based on the fair market value of Common Stock on the date the shares were issued. The value of stock awards reflects the aggregate grant date fair value, excluding estimated forfeitures, computed in accordance with ASC Topic 718 Compensation—Stock Compensation, for each award. See Note 20 to the Company's financial statements filed in the 2017 10-K for a discussion of our assumptions in determining the aggregate grant date fair value of these awards.
- (4) Mr. Miro retired from the Board and Ms. Bellinger and Mr. Schottenstein were each named to the Board effective August 22, 2017.

COMPENSATION COMMITTEE REPORT

The Compensation Committee of the Board is composed of three directors who are independent, as defined under the NYSE listing standards. Additionally, each member of the Compensation Committee is an “outside director” within the meaning of Section 162(m) of the Code and a “non-employee director” within the meaning of Section 16b-3 under the Securities Exchange Act of 1934. The Compensation Committee reviews the CD&A on behalf of the Board.

The Compensation Committee has reviewed and discussed the CD&A with management, and based on the review and discussions, the Compensation Committee recommended to the Board that the CD&A be included in the Company’s annual report on Form 10-K for the year ended February 3, 2018 and the Company’s proxy statement.

Following several years of successive record setting performances, in fiscal 2015 the Company achieved all-time record results. Investors rewarded the Company with a historically high price-earnings multiple and the stock reached an all-time high of \$101.11 per share. Our CEO's compensation in 2015 reflected this accomplishment.

In fiscal 2016, the Company implemented a series of initiatives designed to better position several of our businesses for the future. The short-term effects of some of these initiatives have not yet produced the results that are expected. In response, the Compensation Committee reduced our CEO's target compensation for fiscal 2017 by 34% or \$6 million. In addition, due to performance in fiscal 2017, the Compensation Committee took further action to decrease CEO pay from the reduced target:

2017 Compensation Actions

- Did not grant a Fall 2017 long-term performance-based equity incentive award. This reduced CEO compensation by 31% (\$3.5 million) below target.
- Exercised negative discretion to eliminate the Fall season short-term incentive payout, resulting in a total 2017 payout that was 75% (\$3.3 million) below target.
- **As a result of these actions, CEO compensation was 60% (\$6.8 million) below the reduced target for fiscal 2017.**

When comparing CEO compensation for fiscal 2017 to fiscal 2016, total compensation decreased by 61% (\$9.1 million) while total shareholder return decreased by 15%.

The Compensation Committee further adjusted Mr. Wexner's target compensation for fiscal 2018 to reduce the amount of guaranteed compensation, put greater emphasis on performance-based compensation and decrease overall target compensation:

2018 Compensation Actions

- Adjusted base salary from \$2 million to \$1 million, a reduction of 50% or \$1 million.
- Reduced the short-term performance-based incentive compensation target from \$4.4 million to \$1.5 million, a reduction of 66% or \$2.9 million.
- Adjusted the pay mix, increasing the weighting of long-term performance-based incentive compensation from 44% to 72% of total direct compensation.
- Decreased total direct compensation at target from \$11.4 million to \$9.0 million, a reduction of 21% or \$2.4 million.

With these actions to reduce CEO pay, Mr. Wexner's total compensation for fiscal 2017 was \$5.7 million, which is well below the median of our peers. Since 2015, total shareholder return has declined by 45% while CEO compensation has declined by 79% (\$21 million). In summary, there is alignment between our performance, our stockholders' interests and our CEO's pay. Accordingly, we recommend stockholders vote FOR the executive compensation program as outlined in Proposal 4.

2017 PAY RATIO DISCLOSURE

Pay Ratio

In accordance with the requirements of Section 953(b) of the Dodd-Frank Act and Item 402(u) of Regulation S-K (which we collectively refer to as the “Pay Ratio Rule”), we are providing the following estimated information for 2017:

- the median of the annual total compensation of all our employees (except our CEO) was \$12,673;
- the annual total compensation of our CEO was \$5,695,577; and
- the ratio of these two amounts is 449 to 1. We believe that this ratio is calculated in a manner consistent with the requirements of the Pay Ratio Rule.

Methodology for Identifying Our “Median Employee”

Identifying and Adjusting our Employee Population

To identify the median of the annual total compensation of all of our employees (other than our Chief Executive Officer), we identified our total employee population as of February 3, 2018, the last day in our fiscal year. Our employee population consisted of full-time, part-time, seasonal and temporary employees globally.

Determining our Median Employee

To identify our median employee, we calculated the cash compensation paid during the fiscal year for the employee population, annualizing the cash compensation of any permanent employee who joined the Company during the year. We identified the median compensation amount using this compensation measure which was consistently applied to all our employees in the calculation. We then selected a reasonably representative employee with total compensation equal to the median compensation amount as our “median employee”.

Using the methodologies described above, we determined that our median employee was a part-time, hourly employee. The total compensation of the median employee was \$12,673.

Determination of Annual Total Compensation of our Median Employee and our CEO

Once we identified our median employee, we then calculated such employee’s annual total compensation for 2017 using the same methodology we used for purposes of determining the annual compensation of our NEOs for 2017.

Our CEO’s annual total compensation for 2017 for purposes of the Pay Ratio Rule is equal to the amount reported in the “Total” column in the 2017 Summary Compensation Table.

SEC rules for identifying the median employee and calculating the pay ratio allow companies to apply various methodologies and apply various assumptions and, as a result, the pay ratio reported by us may not be comparable to the pay ratio reported by other companies. Our median employee worked approximately 17 hours per week during fiscal 2017. If the total compensation per hour earned by the median employee was extrapolated to full-time employment, median compensation would be approximately \$29,819 and the ratio would be 191 to 1.

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

The Company's executive officers and directors, and persons who own more than 10% of a registered class of the Company's equity securities, must file reports of ownership and changes in ownership of the Company's equity securities with the Commission. Copies of those reports must also be furnished to the Company. Based solely on a review of the copies of reports furnished to the Company and written representations of the Company's executive officers and directors that no other reports were required, we believe that during fiscal 2017 our executive officers, directors and greater than 10% beneficial owners complied with these filing requirements, other than Dr. Kollat who was late in filing one Form 4 reporting one transaction due to inadvertent administrative error.

SHARE OWNERSHIP OF PRINCIPAL STOCKHOLDERS

The following table sets forth the names of all persons who, as of the dates indicated below, were known by the Company to be the beneficial owners (as defined in the rules of the Commission) of more than 5% of the shares of Common Stock.

REPORT OF THE AUDIT COMMITTEE

As provided in our written charter, the Audit Committee is instrumental in the Board's fulfillment of its oversight responsibilities relating to (i) the integrity of the Company's financial statements, (ii) the Company's compliance with legal and regulatory requirements, (iii) the qualifications, independence and performance of the Company's independent auditors and (iv) the performance of the Company's internal audit function.

It is not the duty of the Audit Committee to plan or conduct audits or to determine that the Company's financial statements are complete and accurate and are in accordance with generally accepted accounting principles. This is the responsibility of management and the independent auditors. Furthermore, while we are responsible for reviewing the Company's policies and practices with respect to risk assessment and management, it is the responsibility of the CEO and senior management to determine the appropriate level of the Company's exposure to risk.

We have reviewed and discussed L Brands' audited financial statements as of and for the year ended February 3, 2018 and met with both management and our independent auditors to discuss the financial statements. Management has represented to us that the financial statements were prepared in accordance with generally accepted accounting principles. We have reviewed with the internal auditors and independent auditors the overall scope and plans for their respective audits. We also met with the internal auditors and independent auditors, with and without management present, to discuss the results of their examinations and their evaluations of the Company's internal controls.

We have also discussed with the independent auditors all matters required to be discussed with audit committees under applicable auditing and regulatory standards. The Company's independent auditors also provided to us the written disclosures and the letter required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent auditor's communications with the audit committee concerning independence, and we discussed with the independent auditors their independence from the Company. We considered whether the provision of non-audit services by the independent auditors to the Company is compatible with maintaining their independence.

Based on the reviews and discussions summarized in this Report, and subject to the limitations on our role and responsibilities, certain of which are referred to above and in the Audit Committee charter, we recommended to the Board that L Brands' audited financial statements be included in our annual report on Form 10-K for the year ended February 3, 2018 for filing with the Commission.

We have appointed Ernst & Young LLP as L Brands' independent registered public accountants.

Audit Committee

David T. Kollat
Allan R. Tessler
Raymond Zimmerman

INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS

During our 2017 fiscal year, Ernst & Young LLP served as the Company's independent registered public accountants and in that capacity rendered an opinion on our consolidated financial statements as of and for the fiscal year ended February 3, 2018. The Audit Committee has selected Ernst & Young LLP as the Company's independent registered public accountants for the current fiscal year.

Audit Fees

The aggregate audit fees payable to Ernst & Young LLP for the fiscal years ended 2017 and 2016 were approximately \$5,048,000 and \$4,694,000, respectively. These amounts include fees for professional services rendered by Ernst & Young LLP in connection with the audit of our consolidated financial statements and reviews of our unaudited consolidated interim financial statements as well as fees for services that generally only the independent auditor can reasonably be expected to provide, including comfort letters and consultation regarding financial accounting and/or reporting standards. These amounts also include fees for services rendered in connection with the audit of our internal control over financial reporting and fees for services rendered in connection with statutory audits of our international subsidiaries' financial statements.

Audit Related Fees

The aggregate fees for assurance and related services rendered by Ernst & Young LLP that were reasonably related to the audit of our consolidated financial statements for the fiscal years ended 2017 and 2016 were approximately \$288,000 and \$204,000, respectively. The fees under this category are for assurance and related services that are traditionally performed by the independent auditor and include audits of employee benefit plans, agreed upon procedures and other attest engagements.

Tax Fees

The aggregate fees for tax services rendered by Ernst & Young LLP for the fiscal years ended 2017 and 2016 were approximately \$338,000 and \$131,000, respectively. Tax fees include tax compliance and advisory services.

All Other Fees

No fees for other services were paid to Ernst & Young LLP for the fiscal years ended 2017 and 2016.

Pre-approval Policies and Procedures

The Audit Committee pre-approves all audit and non-audit services to be provided by Ernst & Young LLP in a given fiscal year.

OTHER MATTERS

The Board knows of no other matters to be brought before the annual meeting. However, if other matters should come before the meeting, each of the persons named as a proxy intends to vote in accordance with his or her judgment on such matters.

STOCKHOLDER PROPOSALS FOR NEXT YEAR

Stockholder Proposals Pursuant to Rule 14a-8

Proposals submitted for inclusion in the proxy statement for the 2019 annual meeting must be received by the Secretary of the Company at our principal executive offices on or before December 7, 2018.

Stockholder Director Nominations for Inclusion in 2019 Proxy Statement

Written notice of stockholder nominations of persons for election as a director at the 2019 annual meeting that are to be included in our proxy statement for the 2019 annual meeting pursuant to the proxy access provisions in Section 2.05 of our Bylaws must be received by the Secretary of the Company at our principal executive offices no earlier than November 7, 2018 and no later than December 7, 2018. The notice must contain the information required by our Bylaws.

Other Stockholder Proposals

If a stockholder intends to present a proposal or nominate a person for election as a director at the 2019 annual meeting other than as described above, the stockholder must comply with the requirements set forth in Section 2.04 of our Bylaws. The Bylaws require, among other things, that the Secretary receive written notice of the intent to present a proposal or nomination no earlier than February 16, 2019 and no later than March 18, 2019. The notice must contain the information required by our Bylaws.

SOLICITATION EXPENSES

We are soliciting this proxy on behalf of our Board and will bear the solicitation expenses. Our directors or employees may solicit proxies by telephone, facsimile, email and personal solicitation, in addition to the use of the mail. We will, upon request, reimburse banks, brokerage houses and other institutions, nominees, and fiduciaries for their expenses in forwarding proxy materials to beneficial owners.

By Order of the Board of Directors,

Leslie H. Wexner
Chairman of the Board

L BRANDS, INC.
**PROPOSED AMENDMENT TO THE CERTIFICATE OF INCORPORATION TO REMOVE
SUPERMAJORITY VOTING REQUIREMENTS**

Articles EIGHTH and THIRTEENTH and Section 2 of Article FIFTH and Section 1 of Article ELEVENTH are hereby removed in their entirety, and the remaining articles of the Charter are hereby renumbered accordingly. Articles EIGHTH and THIRTEENTH and Section 2 of Article FIFTH and Section 1 of Article ELEVENTH, which are hereby repealed, are shown below:

FIFTH. Section 2. Amendment of Bylaws by the Stockholders. The bylaws shall not be made, repealed, altered, amended or rescinded by the stockholders of the Corporation except by the vote of the holders of not less than 75 percent of the outstanding shares of the Corporation entitled to vote thereon. Any amendment to the Certificate of Incorporation which shall contravene any bylaw in existence on the record date of the stockholders meeting at which such amendment is to be voted upon by the stockholders shall require the vote of the holders of not less than 75 percent of the outstanding shares entitled to vote thereon.

EIGHTH. The affirmative vote of the holders of not less than 75 percent of the outstanding shares of the Corporation entitled to vote thereon shall be required for the approval of any proposal that (1) the Corporation merge or consolidate with any other corporation or any affiliate of such other corporation if such other corporation and its affiliates singly or in the aggregate are directly or indirectly the beneficial owners of more than five percent of the outstanding shares of any class of stock of the Corporation entitled to vote in the election of directors (such other corporation and any affiliate thereof being herein referred to as a “Related Corporation”), or (2) the Corporation sell, lease or exchange all or substantially all of its assets or business to or with such Related Corporation, or (3) the Corporation issue or deliver any stock or other securities of its issue in exchange or payment for any properties or assets of any such Related Corporation or securities issued by any such Related Corporation or in a merger of any affiliate of the Corporation with or into any such Related Corporation, or (4) the Corporation dissolve, and to effect such transaction the approval of stockholders of the Corporation is required by law or by any agreement between the Corporation and any national securities exchange; provided, however, that the foregoing clauses (1), (2), (3) and (4) shall not apply (i) to any such merger, consolidation, sale, lease, or exchange, or issuance or delivery of assets or other securities which was approved by resolution of the Board of Directors of the Corporation prior to the acquisition of the beneficial ownership of more than five percent of the outstanding Common Stock by the Related Corporation, (ii) to any such transaction solely between the Corporation and another corporation 50 percent or more of the voting power of which is owned by the Corporation provided that the Certificate of Incorporation of the surviving corporation contains provisions substantially similar to those provided in Articles FIFTH, SIXTH, Section 1, SEVENTH, EIGHTH, NINTH, TENTH, and ELEVENTH, (iii) to any transaction between this Corporation and either (a) any stockholder who owned in excess of 10 percent of the Common Stock of the Corporation immediately after the merger of Limited Interim Ohio, Inc., an Ohio corporation, into The Limited Stores, Inc. an Ohio corporation or (b) any affiliate from time to time organized, established, or incorporated of a stockholder referred to in (iii) (a) above. For the purposes hereof, an “affiliate” is any person (including a corporation, partnership, association, trust, business entity, estate or individual) who directly, or indirectly through one or more intermediaries, controls, or is controlled by, or is under common control with, the person specified; “control” means the possession, directly or indirectly, of the power to direct or cause the direction of the management and policies of a person, whether through the ownership of voting securities, by contract, or otherwise; and in computing the percentage of outstanding Common Stock beneficially owned by any person, the shares outstanding and the shares owned shall be determined as of the record date fixed to determine the stockholders entitled to vote or express consent with respect to such proposal. The stockholder vote, if any, required for mergers, consolidations, sales, leases, or exchanges of assets or issuances of stock or other securities not expressly provided for in this Article, shall be such as may be required by applicable law.

ELEVENTH. Section 1. Amendment of Certain Articles. The provisions set forth in this Article ELEVENTH and in Article FIFTH (dealing with the amendment of bylaws), SIXTH, Section 1 (dealing with the classified Board), SEVENTH (dealing with the prohibition against stockholder action without meetings), EIGHTH (dealing with the 75 percent vote of stockholders required for certain reorganizations), NINTH (dealing with certain matters to be considered by the Board in evaluating certain offers), and TENTH (dealing with the removal of any director) may not be amended, altered, changed, or repealed in any respect unless such repeal or amendment is approved by the affirmative vote of the holders of not less than 75 percent of the outstanding shares of the Corporation entitled to vote thereon.

THIRTEENTH. The provisions set forth in Article TWELFTH and in this Article THIRTEENTH may not be amended, altered, changed or repealed in any respect unless such action is approved by the affirmative vote of the holders of not less than 75 percent of the outstanding shares of Voting Stock (as defined in Article TWELFTH) of the Corporation at a meeting of the stockholders duly called for the consideration of such amendment, alteration, change or repeal; provided, however, that if there is an Interested Person (as defined in Article TWELFTH), such action must also be approved by the affirmative vote of the holders of not less than 75 percent of the outstanding shares of Voting Stock held by the stockholders other than the Interested Person.

Articles TENTH and TWELFTH, and Section 2 of Article ELEVENTH are hereby amended as shown below (with deletions highlighted in strike-through text and additions highlighted in underlined text):

TENTH. Any director may be removed at any annual or special stockholders' meeting upon the affirmative vote of the holders of a majority in voting interest of the stockholders present in person or by proxy and voting thereon, a quorum being present ~~of not less than 75 percent of the outstanding shares of voting stock of the Corporation at that time entitled to vote thereon~~; provided, however, that such director may be removed only for cause and shall receive a copy of the charges against him, delivered to him personally or by mail at his last known address at least 10 days prior to the date of the stockholders' meeting; provided further, that directors who shall have been elected by the holders of a series or class of Preferred Stock, voting separately as a class, shall be removed only pursuant to the provisions establishing the rights of such series or class to elect such directors.

TWELFTH. Section 1. Vote Required for Certain Business Combinations. The affirmative vote of the holders of not less than ~~75 percent~~ a majority of the outstanding shares of "Voting Stock" (as hereinafter defined) held by stockholders other than an "Interested Person" (as hereinafter defined) shall be required for the approval or authorization of any "Business Combination" (as hereinafter defined) of the Corporation with any Interested Person; provided, however, that the ~~75 percent~~ exclusion of "Interested Persons" from this voting requirement shall not be applicable if:

(a) the "Continuing Directors" (as hereinafter defined) of the Corporation by at least a two-thirds vote (i) have expressly approved in advance the acquisition of the outstanding shares of Voting Stock that caused such Interested Person to become an Interested Person, or (ii) have expressly approved such Business Combination either in advance of or subsequent to such Interested Person's having become an Interested Person; or

(b) the cash or fair market value (as determined by at least two-thirds of the Continuing Directors) of the property, securities or "Other Consideration to be Received" (as hereinafter defined) per share by holders of Voting Stock of the Corporation in the Business Combination is not less than the "Fair Price" (as hereinafter defined) paid by the Interested Person in acquiring any of its holdings of the Corporation's Voting Stock.

Section 2. Definitions. Certain words and terms as used in this Article TWELFTH shall have the meanings given to them by the definitions and descriptions in this Section.

2.1. Business Combination. The term "Business Combination" shall mean (a) any merger or consolidation of the Corporation or a subsidiary of the Corporation with or into an Interested Person, (b) any

sale, lease, exchange, transfer or other disposition, including without limitation, a mortgage or any other security device, of all or any “Substantial Part” (as hereinafter defined) of the assets either of the Corporation (including without limitation, any voting securities of a subsidiary) or of a subsidiary of the Corporation to an Interested Person, (c) any merger or consolidation of an Interested Person with or into the Corporation or a subsidiary of the Corporation, (d) any sale, lease, exchange, transfer or other disposition, including without limitation, a mortgage or other security device, of all or any Substantial Part of the assets of an Interested Person to the Corporation or a subsidiary of the Corporation, (e) the issuance or transfer by the Corporation or any subsidiary of any securities of the Corporation or a subsidiary of the Corporation to an Interested Person, (f) any reclassification of securities, recapitalization or other comparable transaction involving the Corporation that would have the effect of increasing the Voting power of any Interested Person with respect to Voting Stock of the Corporation, and (g) any agreement, contract or other arrangement providing for any of the transactions described in this definition of Business Combination.

2.2. Interested Person. The term “Interested Person” shall mean and include any individual, corporation, partnership or other person or entity which, together with its “Affiliates” and “Associates” (as defined in Rule 12b-2 of the General Rules and Regulations under the Securities Exchange Act of 1934 as in effect at the date of the adoption of this Article TWELFTH by the stockholders of the Corporation), “Beneficially Owns” (as defined in Rule 13d-3 of the General Rules and Regulations under the Securities Exchange Act of 1934 as in effect at the date of the adoption of this Article TWELFTH by the stockholders of the Corporation) in the aggregate 20 percent or more of the outstanding Voting Stock of the Corporation, and any Affiliate or Associate of any such individual, corporation, partnership or other person or entity. Without limitation, any share of Voting Stock of the Corporation that any Interested Person has the right to acquire at any time (notwithstanding that Rule 13d-3 deems such shares to be beneficially owned only if such right may be exercised within 60 days) pursuant to any agreement, or upon exercise of conversion rights, warrants or options, or otherwise, shall be deemed to be Beneficially Owned by the Interested Person and to be outstanding for purposes of this definition. An Interested Person shall be deemed to have acquired a share of the Voting Stock of the Corporation at the time when such Interested Person became the Beneficial Owner thereof. With respect to the shares owned by Affiliates, Associates or other persons whose ownership is attributed to an Interested Person under the foregoing definition of Interested Person, if the price paid by such Interested Person for such shares is not determinable by two-thirds of the Continuing Directors, the price so paid shall be deemed to be the higher of (a) the price paid upon the acquisition thereof by the Affiliate, Associate or other person or (b) the market price of the shares in question at the time when the Interested Person became the Beneficial Owner thereof.

2.3 Voting Stock. The term “Voting Stock” shall mean all of the outstanding shares of Common Stock of the Corporation and any outstanding shares of Preferred Stock entitled to vote on each matter on which the holders of record of Common Stock shall be entitled to vote, and each reference to a proportion of shares of Voting Stock shall refer to such proportion of the votes entitled to be cast by such shares.

2.4 Continuing Director. The term “Continuing Director” shall mean a Director who was a member of the Board of Directors of the Corporation immediately prior to the time that the Interested Person involved in a Business Combination became an Interested Person, or a Director who was elected or appointed to fill a vacancy after the date the Interested Person became an Interested Person by a majority of the then-current Continuing Directors.

2.5 Fair Price. The term “Fair Price” shall mean the following: If there is only one class of capital stock of the Corporation issued and outstanding, the Fair Price shall mean the highest price that can be determined by a majority of the Continuing Directors to have been paid at any time by the Interested Person for any share or shares of that class of capital stock. If there is more than one class of capital stock of the Corporation issued and outstanding, the Fair Price shall mean with respect to each class and series of capital stock of the Corporation, the amount determined by a majority of the Continuing Directors to be the highest per share price equivalent of the highest price that can be determined to have been paid at any time by the Interested Person for any share or shares of any class or series of capital stock of the Corporation. In determining the Fair Price, all purchases by the Interested Person shall be taken into account regardless of

whether the shares were purchased before or after the Interested Person became an Interested Person. Also, the Fair Price shall include any brokerage commissions, transfer taxes and soliciting dealers' fees paid by the Interested Person with respect to the shares of capital stock of the Corporation acquired by the Interested Person. In the case of any Business Combination with an Interested Person, a majority of the Continuing Directors shall determine the Fair Price for each class and series of the capital stock of the Corporation. The Fair Price shall also include interest compounded annually from the date an Interested Person became an Interested Person through the date the Business Combination is consummated at the publicly announced base rate of interest of Morgan Guaranty Trust Company of New York less the aggregate amount of any cash dividends paid, and the fair market value of any dividends paid in other than cash, on each share of capital stock in the same time period, in an amount up to but not exceeding the amount of interest so payable per share of capital stock.

2.6. Substantial Part. The term "Substantial Part" shall mean more than 20 percent of the fair market value as determined by two-thirds of the Continuing Directors of the total consolidated assets of the Corporation and its subsidiaries taken as a whole as of the end of its most recent fiscal year ended prior to the time the determination is being made.

2.7. Other Consideration to be Received. The term "Other Consideration to be Received" shall include, without limitation, Common Stock or other capital stock of the Corporation retained by its existing stockholders other than Interested Persons or other parties to such Business Combination in the event of a Business Combination in which the Corporation is the surviving corporation.

Section 3. Determinations by the Continuing Directors. In making any determinations, the Continuing Directors may engage such persons, including investment banking firms and the independent accountants who have reported on the most recent financial statements of the Corporation, and utilize employees and agents of the Corporation, who will, in the judgment of the Continuing Directors, be of assistance to the Continuing Directors. Any determinations made by the Continuing Directors, acting in good faith on the basis of such information and assistance as was then reasonably available for such purposes, shall be conclusive and binding upon the Corporation and its stockholders, including any Interested Person.

~~ELEVENTH. Section 2. Amendments Generally. Subject to the provisions of Section 1 of this Article~~
~~ELEVENTH, †~~The Corporation reserves the right to amend, alter, change or repeal any provision contained in this Certificate of Incorporation, in the manner now or hereafter prescribed by statute, and all rights conferred on stockholders herein are granted subject to this reservation.

PART I

ITEM 1. BUSINESS.

General

L Brands, Inc. (“we” or “the Company”) operates in the highly competitive specialty retail business. Founded in 1963 in Columbus, Ohio, we have evolved from an apparel-based specialty retailer to a segment leader focused on women’s intimate and other apparel, personal care, beauty and home fragrance products. We sell our merchandise through company-owned specialty retail stores in the United States (“U.S.”), Canada, United Kingdom (“U.K.”), Ireland and Greater China (China and Hong Kong), which are primarily mall-based; through websites; and through international franchise, license and wholesale partners (collectively, “partners”).

Victoria’s Secret

Victoria’s Secret, including PINK, the iconic women’s intimate brand featuring celebrated supermodels and a world-famous fashion show, is a specialty retailer of women’s intimate and other apparel with fashion-inspired collections and prestige fragrances. We sell our Victoria’s Secret products online and at more than 1,200 Victoria’s Secret and PINK company-owned stores in the U.S., Canada, U.K., Ireland and Greater China. Additionally, Victoria’s Secret and PINK have more than 430 stores in more than 70 countries operating under franchise, license and wholesale arrangements.

Bath & Body Works

Bath & Body Works, which sells products under the Bath & Body Works, White Barn, C.O. Bigelow and other brand names, is one of the leading specialty retailers of body care, home fragrance products, soaps and sanitizers. We sell our Bath & Body Works products online and at more than 1,600 Bath & Body Works company-owned stores in the U.S. and Canada. Additionally, Bath & Body Works has 185 stores in more than 30 other countries operating under franchise, license and wholesale arrangements.

Other Brands

La Senza is a specialty retailer of women’s intimate apparel. We sell our La Senza products online and at more than 110 La Senza stores in Canada and 5 La Senza stores in the U.S. Additionally, La Senza has more than 190 stores in 22 other countries operating under franchise and license arrangements.

Henri Bendel sells handbags, jewelry and other accessory products online and through our New York flagship and 26 other stores.

Acquisition

In the first quarter of 2016, we reacquired the franchise rights to operate Victoria’s Secret Beauty and Accessories stores in Greater China, including 26 stores already open at the time of acquisition. For additional information, see Note 4 to the Consolidated Financial Statements included in Item 8. Financial Statements and Supplementary Data.

Divestiture

In the first quarter of 2015, we divested our remaining ownership interest in our third-party apparel sourcing business. For additional information, see Note 9 to the Consolidated Financial Statements included in Item 8. Financial Statements and Supplementary Data.

Fiscal Year

Our fiscal year ends on the Saturday nearest to January 31. As used herein, “2017” refers to the 53-week period ended February 3, 2018. “2016,” “2015,” “2014” and “2013” refer to the 52-week periods ended January 28, 2017, January 30, 2016, January 31, 2015 and February 1, 2014, respectively.

Real Estate

Company-owned Retail Stores

Our company-owned retail stores are located in shopping malls, lifestyle centers and street locations in the U.S., Canada, U.K., Ireland and Greater China. As a result of our strong brands and established retail presence, we have been able to lease high-traffic locations in most retail centers in which we operate. Substantially all of our stores generated positive cash flow in 2017.

The following table provides the number of our company-owned retail stores in operation for each brand as of February 3, 2018 and January 28, 2017.

	February 3, 2018	January 28, 2017
Victoria’s Secret U.S.	1,124	1,131

La Senza Canada	119	122
Henri Bendel	27	29
Total	<u>3,075</u>	<u>3,074</u>

The following table provides the changes in the number of our company-owned retail stores operated for the past five fiscal years:

	Beginning of Year	Opened	Closed	Acquired (a)	End of Year
2017	3,074	66	(65)	—	3,075
2016	3,005	72	(29)	26	3,074
2015	2,969	72	(36)	—	3,005
2014	2,923	81	(35)	—	2,969
2013	2,876	81	(34)	—	2,923

(a) Relates to the acquisition of Victoria’s Secret Beauty and Accessories franchise stores in Greater China. For additional information see Note 4 to the Consolidated Financial Statements included in Item 8. Financial Statements and Supplementary Data.

Franchise, License and Wholesale Arrangements

In addition to our company-owned stores, our products are sold at hundreds of partner locations in more than 70 countries. Under these arrangements, third parties operate stores that sell our products under our brand names. Revenue recognized under franchise and license arrangements generally consists of royalties earned and recognized upon sale of merchandise by franchise and license partners to retail customers. Revenue is generally recognized under wholesale arrangements at the time the title passes to the partner. We continue to increase the number of locations under these types of arrangements as part of our international expansion.

The following table provides the number of our international stores operated by our partners for each business as of February 3, 2018 and January 28, 2017.

	<u>February 3, 2018</u>	<u>January 28, 2017</u>

Our Strengths

We believe the following competitive strengths contribute to our leading market position, differentiate us from our competitors and will drive future growth:

Industry Leading Brands

We have developed and operate brands that have come to represent an aspirational lifestyle. Our brands allow us to target markets across the economic spectrum, across demographics and across the world. We believe that our three flagship brands, Victoria's Secret, PINK and Bath & Body Works, are highly recognizable which provides us with a competitive advantage.

- At Victoria's Secret, we market glamorous and sexy product lines to our customers. While bras and panties are the core of what we do, this brand also gives our customers choices in beauty products, fragrances, loungewear, athletic attire and personal care accessories.
- At PINK, we market products to the college-aged woman. While bras and panties are the core of what we do, this brand also gives our customers choices in apparel, loungewear, athletic attire and accessories.
- Bath & Body Works caters to our customers' entire well-being, providing shower gels and lotions, aromatherapy, home fragrance, soaps and sanitizers and body care accessories.

In-Store Experience and Store Operations

We view our customers' in-store experience as an important vehicle for communicating the image of each brand. We utilize visual presentation of merchandise, in-store marketing, music and our sales associates to reinforce the image represented by the brands.

Our in-store marketing is designed to convey the principal elements and personality of each brand. The store design, furniture, fixtures and music are all carefully planned and coordinated to create a unique shopping experience. Every brand displays merchandise uniformly to ensure a consistent store experience, regardless of location. Store managers receive detailed plans designating fixture and merchandise placement to ensure coordinated execution of the company-wide merchandising strategy.

Our sales associates and managers are a central element in creating the atmosphere of the stores by providing a high level of customer service.

Digital Experience

In addition to our in-store experience, we strive to create a customer-centric digital platform that integrates the digital and physical brand experience. Our digital presence, including social media, our websites and our mobile applications, allows us to get to know our customers better and communicate with them anytime and anywhere.

Product Development, Sourcing and Logistics

We believe a large part of our success comes from frequent and innovative product launches, which include bra launches at Victoria's Secret, PINK and La Senza and new fragrance and product launches at Bath & Body Works. Our merchant, design and sourcing teams have a long history of bringing innovative products to our customers. Additionally, we believe that our sourcing and production function (Mast Global) has a long and deep presence in the key sourcing markets including those in the U.S. and Asia, which helps us partner with the best manufacturers to get high-quality products quickly.

Experienced and Committed Management Team

We were founded in 1963 and have been led since inception by Leslie H. Wexner. Our senior management team has a wealth of retail and business experience at L Brands, Inc. and other companies such as Nike, Coach, The Gap, The Home Depot, Land's End, Levi Strauss, Boots and Yum Brands. We believe that we have one of the most experienced management teams in retail.

Additional Information

Merchandise Vendors

During 2017, we purchased merchandise from approximately 350 vendors located throughout the world. No vendor provided 10% or more of our merchandise purchases.

Distribution and Merchandise Inventory

Most of our merchandise is shipped to our distribution centers in the Columbus, Ohio, area. We use a variety of shipping terms that result in the transfer of title of the merchandise at either the point of origin or point of destination.

Our policy is to maintain sufficient quantities of inventories on hand in our retail stores and distribution centers to enable us to offer customers an appropriate selection of current merchandise. We emphasize rapid turnover and take markdowns as required to keep merchandise fresh and current.

Information Systems

Our management information systems consist of a full range of retail, financial and merchandising systems. The systems include applications related to point-of-sale, e-commerce, merchandising, planning, sourcing, logistics, inventory management, data security and support systems including human resources and finance.

Seasonal Business

Our operations are seasonal in nature and consist of two principal selling seasons: Spring (the first and second quarters) and Fall (the third and fourth quarters). The fourth quarter, including the holiday season, accounted for approximately one-third of our net sales for 2017, 2016 and 2015 and is typically our most profitable quarter. Accordingly, cash requirements are highest in the third quarter as our inventories build in advance of the holiday season.

Working Capital

We fund our business operations through a combination of available cash and cash equivalents and cash flows generated from operations. In addition, our credit facilities are available for additional working capital needs and investment opportunities.

Regulation

We and our products are subject to regulation by various federal, state, local and foreign regulatory authorities. We are subject to a variety of tax and customs regulations and international trade arrangements.

Trademarks and Patents

Our trademarks and patents, which constitute our primary intellectual property, have been registered or are the subject of pending applications in the United States Patent and Trademark Office and with the registries of many foreign countries and/or are protected by common law. We believe our products are identified by our intellectual property and, thus, our intellectual property is of significant value. Accordingly, we intend to maintain our intellectual property and related registrations and vigorously protect our intellectual property assets against infringement.

Segment Information

We have three reportable segments: Victoria's Secret, Bath & Body Works and Victoria's Secret and Bath & Body Works International. For additional information, including the financial results of our reportable segments, see Note 21 to the Consolidated Financial Statements included in Item 8. Financial Statements and Supplementary Data.

Other Information

For additional information about our business, including our net sales and profits for the last three years and selling square footage, see Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Competition

The sale of women's intimate and other apparel, personal care and beauty products and accessories through retail stores is a highly competitive business with numerous competitors, including individual and chain specialty stores, department stores and discount retailers. Brand image, marketing, design, price, service, assortment and quality are the principal competitive factors in retail store sales. Our online businesses compete with numerous online merchandisers. Image presentation, fulfillment and the factors affecting retail store sales discussed above are the principal competitive factors in online sales.

Associate Relations

As of February 3, 2018, we employed approximately 93,200 associates; 68,000 of whom were part-time. In addition, temporary associates are hired during peak periods, such as the holiday season.

Executive Officers of Registrant

Set forth below is certain information regarding our executive officers.

Leslie H. Wexner, 80, has been our Chief Executive Officer since our founding in 1963 and Chairman of the Board of Directors since 1975.

Stuart B. Burgdoerfer, 54, has been our Executive Vice President and Chief Financial Officer since April 2007.

Nicholas P. M. Coe, 55, has been our Chief Executive Officer and President of Bath & Body Works since August 2011.

Charles C. McGuigan, 61, has been our Chief Operating Officer since May 2012 and our Chief Executive Officer and President of Mast Global since February 2011.

Martin P. Waters, 52, has been our President of L Brands International since November 2009.

ITEM 1A. RISK FACTORS.

We caution that any forward-looking statements (as such term is defined in the Private Securities Litigation Reform Act of 1995) contained in this report or made by our company or our management involve risks and uncertainties and are subject to change based on various factors, many of which are beyond our control. Accordingly, our future performance and financial results may differ materially from those expressed or implied in any such forward-looking statements. Words such as “estimate,” “project,” “plan,” “believe,” “expect,” “anticipate,” “intend,” “planned,” “potential” and any similar expressions may identify forward-looking statements. Risks associated with the following factors, among others, in some cases have affected and in the future could affect our financial performance and actual results and could cause actual results to differ materially from those expressed or implied in any forward-looking statements included in this report or otherwise made by our company or our management:

- general economic conditions, consumer confidence, consumer spending patterns and market disruptions including severe weather conditions, natural disasters, health hazards, terrorist activities, financial crises, political crises or other major events, or the prospect of these events;
- the seasonality of our business;
- the dependence on mall traffic and the availability of suitable store locations on appropriate terms;
- our ability to grow through new store openings and existing store remodels and expansions;
- our ability to successfully expand internationally and related risks;
- our independent franchise, license and wholesale partners;

- our direct channel businesses;
- our ability to protect our reputation and our brand images;
- our ability to attract customers with marketing, advertising and promotional programs;
- our ability to protect our trade names, trademarks and patents;
- the highly competitive nature of the retail industry and the segments in which we operate;
- consumer acceptance of our products and our ability to manage the life cycle of our brands, keep up with fashion trends, develop new merchandise and launch new product lines successfully;
- our ability to source, distribute and sell goods and materials on a global basis, including risks related to:
 - political instability, significant health hazards, environmental hazards or natural disasters;
 - duties, taxes and other charges;
 - legal and regulatory matters;
 - volatility in currency exchange rates;
 - local business practices and political issues;
 - potential delays or disruptions in shipping and transportation and related pricing impacts;
 - disruption due to labor disputes; and
 - changing expectations regarding product safety due to new legislation;
- our geographic concentration of vendor and distribution facilities in central Ohio;
- fluctuations in foreign currency exchange rates;
- stock price volatility;
- our ability to pay dividends and related effects;
- our ability to maintain our credit rating;
- our ability to service or refinance our debt;
- our ability to retain key personnel;
- our ability to attract, develop and retain qualified associates and manage labor-related costs;
- the ability of our vendors to deliver products in a timely manner, meet quality standards and comply with applicable laws and regulations;
- fluctuations in product input costs;
- our ability to adequately protect our assets from loss and theft;
- fluctuations in energy costs;
- increases in the costs of mailing, paper and printing;
- claims arising from our self-insurance;
- our ability to implement and maintain information technology systems and to protect associated data;
- our ability to maintain the security of customer, associate, third-party or company information;
- our ability to comply with regulatory requirements;
- legal and compliance matters; and
- tax, trade and other regulatory matters.

We are not under any obligation and do not intend to make publicly available any update or other revisions to any of the forward-looking statements contained in this report to reflect circumstances existing after the date of this report or to reflect the occurrence of future events even if experience or future events make it clear that any expected results expressed or implied by those forward-looking statements will not be realized.

The following discussion of risk factors contains “forward-looking statements.” These risk factors may be important to understanding any statement in this Form 10-K, other filings or in any other discussions of our business. The following information should be read in conjunction with Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operation and Item 8. Financial Statements and Supplementary Data.

In addition to the other information set forth in this report, the reader should carefully consider the following factors which could materially affect our business, financial condition or future results. The risks described below are not our only risks. Additional risks and uncertainties not currently known or that are currently deemed to be immaterial may also adversely affect our business, operating results and/or financial condition in a material way.

Our net sales, profit results and cash flows are sensitive to, and may be affected by, general economic conditions, consumer confidence, spending patterns, weather or other market disruptions.

Our net sales, profit, cash flows and future growth may be affected by negative local, regional, national or international political or economic trends or developments that reduce the consumers’ ability or willingness to spend, including the effects of national and international security concerns such as war, terrorism or the threat thereof. In addition, market disruptions due to severe weather conditions, natural disasters, health hazards or other major events or the prospect of these events could also impact consumer spending and confidence levels. Purchases of women’s intimate and other apparel, beauty and personal care products and accessories often decline during periods when economic or market conditions are unsettled or weak. In such circumstances, we may increase the number of promotional sales, which could have a material adverse effect on our results of operations, financial condition and cash flows.

The decision by the U.K. to leave the European Union (“Brexit”) has increased the uncertainty in the economic and political environment in Europe. In particular, our business in the U.K. may be adversely impacted by fluctuations in currency exchange rates, changes in trade policies, or changes in labor, immigration, tax or other laws.

Extreme weather conditions in the areas in which our stores are located, particularly in markets where we have multiple stores, could adversely affect our business. For example, heavy snowfall, rainfall or other extreme weather conditions over a prolonged period might make it difficult for our customers to travel to our stores and thereby reduce our sales and profitability.

Our net sales, operating income, cash and inventory levels fluctuate on a seasonal basis.

We experience major seasonal fluctuations in our net sales and operating income, with a significant portion of our operating income typically realized during the fourth quarter holiday season. Any decrease in sales or margins during this period could have a material adverse effect on our results of operations, financial condition and cash flows.

Seasonal fluctuations also affect our cash and inventory levels, since we usually order merchandise in advance of peak selling periods and sometimes before new fashion trends are confirmed by customer purchases. We must carry a significant amount of inventory, especially before the holiday season selling period. If we are not successful in selling inventory, we may have to sell the inventory at significantly reduced prices or may not be able to sell the inventory at all, which could have a material adverse effect on our results of operations, financial condition and cash flows.

Our net sales depend on a volume of traffic to our stores and the availability of suitable lease space.

Most of our stores are located in retail shopping areas including malls and other types of retail centers. Sales at these stores are derived, in part, from the volume of traffic in those retail areas. Our stores benefit from the ability of the retail center and other attractions in an area, including “destination” retail stores, to generate consumer traffic in the vicinity of our stores. Sales volume and retail traffic may be adversely affected by factors that we cannot control, such as economic downturns or changes in consumer demographics in a particular area, consumer trends away from brick-and-mortar retail toward online shopping, competition from internet and other retailers and other retail areas where we do not have stores, the closing or decline in popularity of other stores in the shopping areas where our stores are located and the deterioration in the financial condition of the operators of the shopping areas or developers in which our stores are located.

Part of our future growth is significantly dependent on our ability to operate stores in desirable locations with capital investment and lease costs providing the opportunity to earn a reasonable return. We cannot be sure as to when or whether such desirable locations will become available at reasonable costs. Some of our store locations, such as our Victoria’s Secret flagship stores, require significant upfront capital investment and have material lease commitments. Additionally, we are dependent upon the suitability of the lease spaces that we currently use. The leases that we enter into are generally noncancellable leases with initial terms of ten years. If we determine that it is no longer economical to operate a store and decide to close it, we may remain obligated under the applicable lease for, among other things, payment of the base rent for the balance of the lease term.

These risks could have a material adverse effect on our ability to grow and our results of operations, financial condition and cash flows.

Our ability to grow depends in part on new store openings and existing store remodels and expansions.

Our continued growth and success will depend in part on our ability to open and operate new stores and expand and remodel existing stores on a timely and profitable basis. Accomplishing our new and existing store expansion goals will depend upon a number of factors, including the ability to partner with developers and landlords to obtain suitable sites for new and expanded stores at acceptable costs, the hiring and training of qualified personnel and the integration of new stores into existing operations. There can be no assurance we will be able to achieve our store expansion goals, manage our growth effectively, successfully integrate the planned new stores into our operations or operate our new, remodeled and expanded stores profitably. These risks could have a material adverse effect on our ability to grow and results of operations, financial condition and cash flows.

Our plans for international expansion include risks that could impact our results and reputation.

We intend to further expand into international markets, including mainland China, through partner arrangements and/or company-owned stores. The risks associated with our expansion into international markets include difficulties in attracting customers due to a lack of customer familiarity with our brands, our lack of familiarity with local customer preferences and seasonal differences in the market. Further, entry into other markets may bring us into competition with new competitors or with existing competitors with an established market presence. Other risks include general economic conditions in specific countries or markets, volatility in the geopolitical landscape, restrictions on the repatriation of funds held internationally, disruptions or delays in shipments, changes in diplomatic and trade relationships, political instability and foreign governmental regulation. Such expansions will also have upfront investment costs that may not be accompanied by sufficient revenues to achieve typical or expected operational and financial performance.

We also have risks related to identifying suitable partners. In addition, certain aspects of these arrangements are not directly within our control, such as the ability of these third parties to meet their projections regarding store openings and sales and their compliance with federal and local law. We cannot ensure the profitability or success of our expansion into international markets.

Further, our results of operations and financial condition may be adversely affected by fluctuations in currency exchange rates. See “Fluctuations in foreign currency exchange rates could impact our financial condition and results of operations” below.

These risks could have a material adverse effect on our results of operations, financial condition and cash flows.

Our licensees, franchisees and wholesalers could take actions that could harm our business or brand images.

We have global representation through independently owned stores operated by our partners. Although we have criteria to evaluate and select prospective partners, the level of control we can exercise over our partners is limited and the quality and success of their operations may be diminished by any number of factors beyond our control. For example, our partners may not have the business acumen or financial resources necessary to successfully operate stores in a manner consistent with our standards and may not hire and train qualified store managers and other personnel. Our brand image and reputation may suffer materially and our sales could decline if our partners do not operate successfully. These risks could have an adverse effect on our results of operations, financial condition and cash flows.

Our direct channel businesses include risks that could have an effect on our results.

Our direct operations are subject to numerous risks that could have a material adverse effect on our results. Risks include, but are not limited to, the difficulty in recreating the in-store experience through our direct channels; domestic or international resellers purchasing merchandise and reselling it outside our control; our ability to anticipate and implement innovations in technology and logistics in order to appeal to existing and potential customers who increasingly rely on multiple channels to meet their shopping needs; the failure of and risks related to the systems that operate our web infrastructure, websites and the related support systems, including computer viruses, theft of customer information, privacy concerns, telecommunication failures and electronic break-ins and similar disruptions; and risks related to the fulfillment of direct-to-consumer orders such as not adequately predicting customer demand.

Our failure to maintain efficient and uninterrupted order-taking and fulfillment operations could also have a material adverse effect on our results. The satisfaction of our online customers depends on their timely receipt of merchandise. If we encounter difficulties with the distribution facilities, or if the facilities were to shut down for any reason, including as a result of fire, natural disaster or work stoppage, we could face shortages of inventory; incur significantly higher costs and longer lead times associated with distributing our products to our customers; and cause customer dissatisfaction.

Any of these issues could have a material adverse effect on our operations, financial condition and cash flows.

Our ability to protect our reputation could have a material effect on our brand images.

Our ability to maintain our reputation is critical to our brand images. Our reputation could be jeopardized if we fail to maintain high standards for merchandise quality and integrity. Any negative publicity, including information publicized through traditional or social media platforms and similar venues such as blogs, websites and other forums, may affect our reputation and brand and, consequently, reduce demand for our merchandise, even if such publicity is unverified or inaccurate.

Failure to comply with ethical, social, product, labor and environmental standards, or related political considerations, could also jeopardize our reputation and potentially lead to various adverse consumer actions, including boycotts. Failure to comply with local laws and regulations, to maintain an effective system of internal controls, to maintain the security of customer, associate, third-party or company information or to provide accurate and timely financial statement information could also hurt our reputation. Damage to our reputation or loss of consumer confidence for any of these or other reasons could have a material adverse effect on our results of operations, financial condition and cash flows, as well as require additional resources to rebuild our reputation.

If our marketing, advertising and promotional programs are unsuccessful, or if our competitors are more effective with their programs than we are, our revenue or results of operations may be adversely affected.

Customer traffic and demand for our merchandise are influenced by our advertising, marketing and promotional activities, the name recognition and reputation of our brands and the location of and service offered in our stores. Although we use marketing, advertising and promotional programs to attract customers through various media, including social media, websites, mobile applications, email, print and television, some of our competitors may expend more for their programs than we do, or use different approaches than we do, which may provide them with a competitive advantage. Our programs may not be effective or could require increased expenditures, which could have a material adverse effect on our revenue and results of operations.

Our ability to adequately protect our trade names, trademarks and patents could have an impact on our brand images and ability to penetrate new markets.

We believe that our trade names, trademarks and patents are important assets and an essential element of our strategy. We have obtained or applied for federal registration of these trade names, trademarks and patents and have applied for or obtained registrations in many foreign countries. There can be no assurance that we will obtain such registrations or that the registrations we obtain will prevent the imitation of our products or infringement of our intellectual property rights by others. In particular, the laws of certain foreign countries may not protect proprietary rights to the same extent as the laws of the U.S. If any third-party copies our products or our stores in a manner that projects lesser quality or carries a negative connotation, it could have a material adverse effect on our brand image and reputation as well as our results of operations, financial condition and cash flows.

Our ability to compete favorably in our highly competitive segment of the retail industry could impact our results.

The sale of women's intimate and other apparel, personal care products and accessories is highly competitive. We compete for sales with a broad range of other retailers, including individual and chain specialty stores, department stores and discount retailers. In addition to the traditional store-based retailers, we also compete with direct marketers or retailers that sell similar lines of merchandise and who target customers through online channels. Brand image, marketing, design, price, service, assortment, quality, image presentation and fulfillment are all competitive factors in both the store-based and online channels.

Some of our competitors may have greater financial, marketing and other resources available. In many cases, our competitors sell their products in stores that are located in the same shopping malls and centers as our stores. In addition to competing for sales, we compete for favorable site locations and lease terms in shopping malls and centers.

Increased competition could result in price reductions, increased marketing expenditures and loss of market share, any of which could have a material adverse effect on our results of operations, financial condition and cash flows.

Our ability to manage the life cycle of our brands and to remain current with fashion trends and launch new product lines successfully could impact the image and relevance of our brands.

Our success depends in part on management's ability to effectively manage the life cycle of our brands and to anticipate and respond to changing fashion preferences and consumer demands and to translate market trends into appropriate, saleable product offerings in advance of the actual time of sale to the customer. Customer demands and fashion trends change rapidly. If we are unable to successfully anticipate, identify or react to changing styles or trends or we misjudge the market for our products or any new product lines, our sales will be lower, potentially resulting in significant amounts of unsold finished goods inventory. In response, we may be forced to increase our marketing promotions or price markdowns. These risks could have a material adverse effect on our brand image and reputation as well as our results of operations, financial condition and cash flows.

We may be impacted by our ability to adequately source, distribute and sell merchandise and other materials on a global basis.

We source merchandise and other materials directly in international markets and in our domestic market. We distribute merchandise and other materials globally to our partners in international locations and to our stores. Many of our imports and exports are subject to a variety of customs regulations and international trade arrangements, including existing or potential duties, tariffs or safeguard quotas. We compete with other companies for production facilities.

We also face a variety of other risks generally associated with doing business on a global basis. For example:

- political instability, significant health hazards, environmental hazards or natural disasters which could negatively affect international economies, financial markets and business activity;
- imposition of new or retaliatory trade duties, sanctions or taxes and other charges on imports or exports;
- evolving, new or complex legal and regulatory matters;
- volatility in currency exchange rates;
- local business practice and political issues (including issues relating to compliance with domestic or international labor standards) which may result in adverse publicity or threatened or actual adverse consumer actions, including boycotts;
- potential delays or disruptions in shipping and transportation and related pricing impacts;
- disruption due to labor disputes; and
- changing expectations regarding product safety due to new legislation or other factors.

We also rely upon third-party transportation providers for substantially all of our product shipments, including shipments to and from our distribution centers, to our stores and to our customers. Our utilization of these delivery services for shipments is subject to risks, including increases in fuel prices, which would increase our shipping costs, and associate strikes and inclement weather, which may impact our transportation providers' ability to provide delivery services that adequately meet our shipping needs.

Our future performance will depend upon these and the other factors listed above which are beyond our control and could have a material adverse effect on our results of operations, financial condition and cash flows.

We rely on a number of vendor and distribution facilities located in the same vicinity, making our business susceptible to local and regional disruptions or adverse conditions.

To achieve the necessary speed and agility in producing our beauty, personal care and home fragrance products, we rely heavily on vendor and distribution facilities in close proximity to our headquarters in central Ohio. As a result of geographic concentration of the vendor and distribution facilities that we rely upon, our operations are susceptible to local and regional factors, such as accidents, system failures, economic and weather conditions, natural disasters, demographic and population changes, and other unforeseen events and circumstances. Any significant interruption in the operations of these facilities could lead to inventory issues or increased costs, which could have a material adverse effect on our results of operations, financial condition and cash flows.

Fluctuations in foreign currency exchange rates could impact our financial condition and results of operations.

We are exposed to foreign currency exchange rate risk with respect to our sales, profits, assets and liabilities denominated in currencies other than the U.S. dollar. In addition, our royalty arrangements are calculated based on sales in local currency and, as such, we are exposed to foreign currency exchange rate fluctuations. Although

we use foreign currency forward contracts to hedge certain foreign currency risks, these measures may not succeed in offsetting all of the short-term negative impacts of foreign currency rate movements on our business and results of operations. Hedging would generally not be effective in offsetting the long-term impact of sustained shifts in foreign exchange rates on our business results. As a result, the fluctuation in the value of the U.S. dollar against other currencies could have a material adverse effect on our results of operations, financial condition and cash flows.

Our stock price may be volatile.

Our stock price may fluctuate substantially as a result of variations in our actual or projected performance or the financial performance of other companies in the retail industry. Any guidance that we provide is based on goals that we believe are reasonably attainable at the time guidance is given. If, or when, we announce actual results that differ from those that have been predicted by us, outside investment analysts or others, our stock price could be adversely affected. Investors who rely on these predictions when making investment decisions with respect to our securities do so at their own risk.

In addition, the stock market may experience price and volume fluctuations that are unrelated or disproportionate to operating performance.

If we are unable to pay quarterly dividends at intended levels, our reputation and stock price may be harmed.

Our dividend program requires the use of a portion of our cash flow. Our ability to pay dividends will depend on our ability to generate sufficient cash flows from operations in the future. This ability may be subject to certain economic, financial, competitive and other factors that are beyond our control. Our Board of Directors may, at its discretion, decrease the level of dividends or entirely discontinue the payment of dividends at any time. Any failure to pay dividends after we have announced our intention to do so may negatively impact our reputation, investor confidence in us and our stock price.

Our ability to maintain our credit rating could affect our ability to access capital and could increase our interest expense.

The credit rating agencies periodically review our capital structure and the quality and stability of our earnings. A deterioration in our capital structure or the quality and stability of our earnings could result in a downgrade of our credit rating. Any negative ratings actions could constrain the capital available to our company or our industry and could limit our access to funding for our operations. We are dependent upon our ability to access capital at rates and on terms we determine to be attractive. If our ability to access capital becomes constrained, our interest costs will likely increase, which could have a material adverse effect on our results of operations, financial condition and cash flows. Additionally, changes to our credit rating could affect our future interest costs.

We may be impacted by our ability to service or refinance our debt.

We currently have substantial indebtedness. Some of our debt agreements contain covenants which require maintenance of certain financial ratios and also, under certain conditions, restrict our ability to pay dividends, repurchase common shares and make other restricted payments as defined in those agreements. Our cash flow from operations provides the primary source of funds for our debt service payments. If our cash flow from operations declines, we may be unable to service or refinance our current debt.

We may be impacted by our ability to recruit, train and retain key personnel.

We believe we have benefited substantially from the leadership and experience of our senior executives, including Leslie H. Wexner, Chairman of the Board of Directors and Chief Executive Officer. The loss of the

services of any of these individuals could have a material adverse effect on our business. Competition for key personnel in the retail industry is intense, and our future success will also depend on our ability to recruit, train and retain other qualified key personnel.

We may be impacted by our ability to attract, develop and retain qualified associates and manage labor-related costs.

We believe our competitive advantage is providing a positive, engaging and satisfying experience for each individual customer, which requires us to have highly trained and engaged associates. Our success depends in part upon our ability to attract, develop and retain a sufficient number of qualified associates, including store personnel and talented merchants. The turnover rate in the retail industry is generally high and qualified individuals of the requisite caliber and number needed to fill these positions may be in short supply in some areas. Competition for such qualified individuals or changes in labor and healthcare laws could require us to incur higher labor costs. Our inability to recruit a sufficient number of qualified individuals in the future may delay planned openings of new stores or affect the speed with which we expand. Delayed store openings, significant increases in associate turnover rates or significant increases in labor-related costs could have a material adverse effect on our results of operations, financial condition and cash flows.

We may be impacted by our vendors' ability to manufacture and deliver products in a timely manner, meet quality standards and comply with applicable laws and regulations.

We purchase products from third-party vendors. Factors outside our control, such as production or shipping delays or quality problems, could disrupt merchandise deliveries and result in lost sales, cancellation charges or excessive markdowns.

In addition, quality problems could result in a product liability judgment or a widespread product recall that may negatively impact our sales and profitability for a period of time depending on product availability, competition reaction and consumer attitudes. Even if the product liability claim is unsuccessful or is not fully pursued, the negative publicity surrounding any assertions could adversely impact our reputation with existing and potential customers and our brand image.

Our business could also suffer if our third-party vendors fail to comply with applicable laws and regulations. While our internal and vendor operating guidelines promote ethical business practices and our associates visit and monitor the operations of our third-party vendors, we do not control these vendors or their practices. The violation of labor, environmental or other laws by third-party vendors used by us, or the divergence of a third-party vendor's or partner's labor or environmental practices from those generally accepted as ethical or appropriate, could interrupt or otherwise disrupt the shipment of finished products to us or damage our reputation.

These risks could have a material adverse effect on our results of operations, financial condition and cash flows.

Our results may be affected by fluctuations in product input costs.

Product input costs, including freight, labor and raw materials, fluctuate. These fluctuations may result in an increase in our production costs. We may not be able to, or may elect not to, pass these increases on to our customers which may adversely impact our profit margins. These risks could have a material adverse effect on our results of operations, financial condition and cash flows.

Our ability to adequately protect our assets from loss and theft.

Our assets are subject to loss, including those caused by illegal or unethical conduct by associates, customers, vendors or unaffiliated third parties. We have experienced events such as inventory shrinkage in the past, and we

cannot assure that incidences of loss and theft will decrease in the future or that the measures we are taking will effectively reduce these losses. Higher rates of loss or increased security costs to combat theft could have a material adverse effect on our results of operations, financial condition and cash flows.

Our results may be affected by fluctuations in energy costs.

Energy costs have fluctuated in the past. These fluctuations may result in an increase in our transportation costs for distribution, utility costs for our retail stores and costs to purchase products from our manufacturers. A continual rise in energy costs could adversely affect consumer spending and demand for our products and increase our operating costs, both of which could have a material adverse effect on our results of operations, financial condition and cash flows.

We may be impacted by increases in costs of mailing, paper and printing.

Postal rate increases and paper and printing costs will affect the cost of our order fulfillment and promotional mailings. We rely on discounts from the basic postal rate structure, such as discounts for bulk mailings and sorting. Future paper and postal rate increases could adversely impact our earnings if we are unable to recover these costs or if we are unable to implement more efficient printing, mailing, delivery and order fulfillment systems. These risks could have a material adverse effect on our results of operations, financial condition and cash flows.

We self-insure certain risks and may be impacted by unfavorable claims experience.

We are self-insured for various types of insurable risks including associate medical benefits, workers' compensation, property, general liability and automobile up to certain stop-loss limits. Claims are difficult to predict and may be volatile. Any adverse claims experience could have a material adverse effect on our results of operations, financial condition and cash flows.

We significantly rely on our ability to implement and sustain information technology systems and to protect associated data.

Our success depends, in part, on the secure and uninterrupted performance of our information technology systems. Our information technology systems, as well as those of our service providers, are vulnerable to damage from a variety of sources, including telecommunication failures, malicious human acts and natural disasters. Moreover, despite network security measures, some of our servers and those of our service providers are potentially vulnerable to physical or electronic break-ins, computer viruses and similar disruptive problems. Additionally, these types of problems could result in a breach of confidential customer, merchandise, financial or other important information which could result in damage to our reputation and/or litigation. The increased use of smartphones, tablets and other mobile devices may also heighten these and other operational risks. Despite the precautions we have taken, unanticipated problems may nevertheless cause failures in our information technology systems. Sustained or repeated system disruptions that interrupt our ability to process orders and deliver products to the stores, impact our consumers' ability to access our websites in a timely manner or expose confidential customer information, merchandise, financial or other important information could have a material adverse effect on our results of operations, financial condition and cash flows.

In addition, from time to time, we make modifications and upgrades to the information technology systems for point-of-sale, e-commerce, merchandising, planning, sourcing, logistics, inventory management and support systems including human resources and finance. Modifications involve replacing legacy systems with successor systems, making changes to legacy systems or acquiring new systems with new functionality. We are aware of inherent risks associated with replacing these systems, including not accurately capturing data and system disruptions. Information technology system disruptions, if not anticipated and appropriately mitigated, could have a material adverse effect on our operations, financial condition and cash flows.

Our ability to maintain the security of customer, associate, third-party or company information could have an impact on our reputation and our results.

Information systems are susceptible to an increasing threat of continually evolving cybersecurity risks. Any significant compromise or breach of our data security could significantly damage our reputation with our customers, associates, investors and other third parties; cause the disclosure of confidential customer, associate, third-party or company information; cause our customers to stop shopping with us; and result in significant legal, regulatory and financial liabilities and lost revenues. While we train our associates and have implemented systems and processes to protect against unauthorized access to our information systems and prevent data loss, there is no guarantee that these procedures are adequate to safeguard against all data security breaches. In addition to our own networks and databases, we use third-party service providers to store, process and transmit certain of this information on our behalf. Although we contractually require these service providers to implement and use reasonable security measures, we cannot control third parties and cannot guarantee that a security breach will not occur in their systems. We have confidential security measures in place to protect our physical facilities and information technology systems from attacks. Despite these measures, we may be vulnerable to targeted or random security breaches, phishing attacks, denial of service attacks, acts of vandalism, computer viruses, misplaced or lost data, programming and/or human errors or similar events.

The regulatory environment related to information security, data collection and privacy is increasingly rigorous, with new and constantly changing requirements applicable to our business, and compliance with those requirements could result in additional costs, such as costs related to organizational changes, implementing additional protection technologies, training associates and engaging consultants. Additionally, we could incur lost revenues and face increased litigation as a result of any potential cybersecurity breach.

These risks could have a material adverse effect on our results of operations, financial condition and cash flows.

We may be impacted by our ability to comply with regulatory requirements.

We are subject to numerous regulatory requirements. Our policies, procedures and internal controls are designed to comply with all applicable foreign and domestic laws and regulations, including those required by the Sarbanes-Oxley Act of 2002, the U.S. Foreign Corrupt Practices Act, the U.K. Bribery Act, the SEC and the New York Stock Exchange (the “NYSE”), among others. Although we have put in place policies and procedures aimed at ensuring legal and regulatory compliance, our associates, subcontractors, vendors, licensees, franchisees and other third parties could take actions that violate these laws and regulations. Any violations of such laws or regulations could have an adverse effect on our reputation, market price of our common stock, results of operations, financial condition and cash flows.

It can be difficult to comply with sometimes conflicting regulations in local, national or foreign jurisdictions as well as new or changing regulations. Also, changes in such laws could make operating our business more expensive or require us to change the way we do business. For example, changes in product safety or other consumer protection laws could lead to increased costs for certain merchandise, or additional labor costs associated with readying merchandise for sale. It may be difficult for us to oversee regulatory changes impacting our business and our responses to changes in the law could be costly and may negatively impact our operations.

We may be adversely impacted by certain compliance or legal matters.

We, along with third parties we do business with, are subject to complex compliance and litigation risks. Actions filed against us from time to time include commercial, tort, intellectual property, customer, employment, wage and hour, data privacy, securities, anti-corruption and other claims, including purported class action lawsuits. The cost of defending against these types of claims against us or the ultimate resolution of such claims, whether by settlement or adverse court decision, may harm our business. Further, potential claimants may be encouraged to bring suits based on a settlement from us or adverse court decisions against us. We cannot currently assess the likely outcome of such suits, but if the outcome were negative, it could have a material adverse effect on our reputation, results of operations, financial condition and cash flows.

In addition, we may be impacted by litigation trends, including class action lawsuits involving consumers and shareholders, that could have a material adverse effect on our reputation, the market price of our common stock, results of operations, financial condition and cash flows.

We may be impacted by changes in taxation, trade and other regulatory requirements.

We are subject to income tax in local, national and international jurisdictions. In addition, our products are subject to import and excise duties and/or sales or value-added taxes in many jurisdictions. We are also subject to the examination of our tax returns and other tax matters by the Internal Revenue Service and other tax authorities and governmental bodies. We regularly assess the likelihood of an adverse outcome resulting from these examinations to determine the adequacy of our provision for taxes. There can be no assurance as to the outcome of these examinations. Fluctuations in tax rates and duties, changes in tax legislation or regulation or adverse outcomes of these examinations could have a material adverse effect on our results of operations, financial condition and cash flows.

There is increased uncertainty with respect to tax policy and trade relations between the U.S. and other countries. Major developments in tax policy or trade relations, such as the imposition of unilateral tariffs on imported products, could have a material adverse effect on our results of operations, financial condition and cash flows.

ITEM 1B. UNRESOLVED STAFF COMMENTS.

None.

ITEM 2. PROPERTIES.

The following table provides the location, use and size of our distribution, corporate and product development facilities as of February 3, 2018:

<u>Location</u>	<u>Use</u>	<u>Approximate Square Footage</u>
Columbus, Ohio area	Corporate, distribution and shipping	6,938,000
New York	Office, sourcing and product development/design	580,000
Kettering, Ohio	Call center	94,000
Montreal, Quebec, Canada	Office	60,000
Hong Kong	Office and sourcing	60,000
Mainland China	Office	26,000
Various international locations	Office and sourcing	120,000

United States

Our business for the Victoria’s Secret, Bath & Body Works and Victoria’s Secret and Bath & Body Works International segments is principally conducted from office, distribution and shipping facilities located in the Columbus, Ohio, area. Additional facilities are located in New York and Kettering, Ohio.

Our distribution and shipping facilities consist of eight buildings located in the Columbus, Ohio, area. These buildings, including attached office space, comprise approximately 6.9 million square feet.

As of February 3, 2018, we operate 2,748 retail stores located in leased facilities, primarily in malls and shopping centers, throughout the U.S. A substantial portion of these lease commitments consists of store leases generally with an initial term of 10 years. The store leases expire at various dates between 2018 and 2031.

Typically, when space is leased for a retail store in a mall or shopping center, we supply all improvements, including interior walls, floors, ceilings, fixtures and decorations. The cost of improvements varies widely,

depending on the design, size and location of the store. In certain cases, the landlord of the property may provide an allowance to fund all or a portion of the cost of improvements, serving as a lease incentive. Rental terms for new locations usually include a fixed minimum rent plus a percentage of sales in excess of a specified amount. We usually pay certain operating costs such as common area maintenance, utilities, insurance and taxes. For additional information, see Note 16 to the Consolidated Financial Statements included in Item 8. Financial Statements and Supplementary Data.

International

Canada

We lease offices in the Montreal, Quebec, and Toronto, Ontario, areas.

As of February 3, 2018, we operate 267 retail stores located in leased facilities, primarily in malls and shopping centers, throughout the Canadian provinces. These lease commitments consist of store leases with initial terms of 5 to 10 years expiring on various dates between 2018 and 2030.

United Kingdom / Ireland

As of February 3, 2018, we operate 24 retail stores in leased facilities in the U.K. and Ireland. These lease commitments consist of store leases with initial terms ranging from 10 to 35 years expiring on various dates between 2021 and 2045.

Greater China

We lease offices in Shanghai, Shenzhen and Hong Kong within Greater China.

As of February 3, 2018, we operate 36 retail stores in leased facilities in the Greater China area. These lease commitments consist of store leases with initial terms ranging from 3 to 15 years expiring on various dates between 2018 and 2032.

Other International

As of February 3, 2018, we also have global representation through stores operated by our partners:

- 397 Victoria's Secret Beauty and Accessories stores in more than 70 countries;
- 194 La Senza stores in 22 countries;
- 185 Bath & Body Works stores in more than 30 countries;
- 32 Victoria's Secret stores in 13 countries; and
- 5 PINK stores in 5 countries.

We also operate sourcing-related office facilities in various international locations.

ITEM 3. LEGAL PROCEEDINGS.

We are a defendant in a variety of lawsuits arising in the ordinary course of business. Actions filed against our Company from time to time include commercial, tort, intellectual property, customer, employment, data privacy, securities and other claims, including purported class action lawsuits. Although it is not possible to predict with certainty the eventual outcome of any litigation, in the opinion of management, our current legal proceedings are not expected to have a material adverse effect on our results of operations, financial condition and cash flows.

ITEM 4. MINE SAFETY DISCLOSURES.

Not applicable.

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES.

Our common stock ("LB") is traded on the NYSE. As of February 3, 2018, there were approximately 37,000 shareholders of record. However, including active associates who participate in our stock purchase plan, associates who own shares through our sponsored retirement plans and others holding shares in broker accounts under street names, we estimate the shareholder base to be approximately 193,000.

The following table provides our quarterly market prices and cash dividends per share for 2017 and 2016:

	Market Price		Cash Dividend per Share
	High	Low	
2017			
Fourth quarter	\$63.10	\$42.54	\$0.60
Third quarter	46.66	35.00	0.60
Second quarter	55.98	43.35	0.60
First quarter	60.46	43.04	0.60
2016			
Fourth quarter	\$75.50	\$58.75	\$0.60
Third quarter	79.67	69.33	0.60
Second quarter	80.20	60.00	0.60
First quarter	97.35	75.91	2.60(a)

(a) In February 2016, our Board of Directors declared an increase in our quarterly common stock dividend from \$0.50 to \$0.60 per share and a special dividend of \$2 per share.

In February 2018, our Board of Directors declared our first quarter of 2018 common stock dividend of \$0.60 per share. This dividend was distributed on March 9, 2018 to shareholders of record at the close of business on February 23, 2018.

The following graph shows the changes, over the past five-year period, in the value of \$100 invested in our common stock, the Standard & Poor's 500 Composite Stock Price Index and the Standard & Poor's 500 Retail Composite Index.

(a) The fiscal year ended February 3, 2018 ("2017") represents a 53-week fiscal year.

(b) Operating income includes the effect of the following item:

- (i) In 2016, a \$35 million charge related to strategic actions at Victoria's Secret, including severance charges, fabric cancellations and the write-off of catalogue paper.

- (c) In addition to the item previously discussed in (b), net income includes the effect of the following items:
- (i) In 2017, a \$92 million tax benefit related to changes in U.S. tax legislation partially offset by a \$29 million loss associated with the early extinguishment of our 2019 Notes.
 - (ii) In 2016, a \$70 million gain related to a \$124 million cash distribution from Easton Town Center, LLC, a \$42 million tax benefit related to the favorable resolution of a discrete income tax matter, partially offset by a \$22 million loss associated with the early extinguishment of our 2017 Notes.
 - (iii) In 2015, a \$69 million gain related to the divestiture of our remaining ownership interest in our third-party apparel sourcing business.

For additional information on these items, see the Notes to the Consolidated Financial Statements included in Item 8. Financial Statements and Supplementary Data.

The effect of the items described in (b) and (c) above increased earnings per share by \$0.22 in 2017, \$0.23 in 2016 and \$0.23 in 2015.

- (d) As further discussed in Note 2 included in Item 8. Financial Statements and Supplementary Data, prior year amounts have been recast to reflect the retrospective application of Accounting Standards Update (“ASU”) No. 2016-09, *Improvements to Employee Share-Based Payment Accounting*.
- (e) The percentage change in comparable sales represents direct and comparable store sales. The percentage change in comparable store sales represents the change in sales at comparable stores only and excludes the change in sales from our direct channels. A store is typically included in the calculation of comparable sales when it has been open or owned 12 months or more and it has not had a change in selling square footage of 20% or more. Additionally, stores of a given brand are excluded if total selling square footage for the brand in the mall changes by 20% or more through the opening or closing of a second store. The percentage change in comparable sales are calculated on a comparable calendar period. Therefore, the percentage change in comparable sales for 2016, 2015, 2014 and 2013 were calculated on a 52-to-52-week basis and the percentage change in comparable sales for 2017 was calculated on a 53-to-53-week basis. Comparable sales attributable to our international stores are calculated on a constant currency basis.
- (f) Number of stores and selling square feet excludes independently owned Victoria’s Secret Beauty and Accessories, Victoria’s Secret, PINK, Bath & Body Works and La Senza stores operated by our partners.

ITEM 7. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following discussion and analysis of financial condition and results of operations are based upon our Consolidated Financial Statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) as codified in the Accounting Standards Codification (“ASC”). The following information should be read in conjunction with our financial statements and the related notes included in Item 8. Financial Statements and Supplementary Data.

Our operating results are generally impacted by economic changes and, therefore, we monitor the retail environment using, among other things, certain key industry performance indicators including competitor performance and mall traffic data. These can provide insight into consumer spending patterns and shopping behavior in the current retail environment and assist us in assessing our performance as well as the potential impact of industry trends on our future operating results. Additionally, we evaluate a number of key performance indicators including comparable sales, gross profit, operating income and other performance metrics such as sales per average selling square foot and inventory per selling square foot in assessing our performance.

Executive Overview

We have a multi-year goal to grow our business and increase operating margins for our brands by focusing on these key business priorities:

- Grow our business in North America;
- Extend our core brands internationally; and
- Focus on the fundamentals of our business including managing inventory, expenses and capital with discipline.

We also continue to focus on:

- Attracting and retaining top talent;
- Maintaining a strong cash and liquidity position while optimizing our capital structure; and
- Returning value to our shareholders.

The following is a discussion regarding certain of our key business priorities:

Grow our business in North America

Our first focus is on the substantial growth opportunity in North America.

At Victoria’s Secret, we are very focused on improving performance by staying close to our customer, improving the customer experience in stores and online and improving our assortment. We are developing and launching new products, especially in core bra, panties, sport and PINK beauty. In addition to resetting product, we are focused on attracting, engaging and retaining high-value, dual-channel customers. We will continue delivering brand-accretive marketing to grow the customer base. In 2018, our square footage at Victoria’s Secret North America is expected to remain flat. In our direct channel, we are investing in infrastructure and technology to support growth.

The core of Bath & Body Works is its body care, home fragrance products, soaps and sanitizers which together make up the majority of sales and profits for the business. We see clear opportunities for substantial growth in these categories by focusing on product newness and innovation and expanding into under-penetrated market and price segments. We have further opportunity to grow by creating a Bath & Body Works and White Barn shop-in-

shop at many of our store locations. In 2018, we plan to increase our square footage at Bath & Body Works North America by about 3% through the opening of approximately 30 net new Bath & Body Works stores and the remodeling of existing stores. Additionally, www.BathandBodyWorks.com continues to exhibit significant year-over-year growth.

Extend our core brands internationally

We believe there is substantial opportunity for international growth. We have separate, dedicated teams that have taken a methodical, “test and learn” approach to expansion. We began our international expansion with the acquisition of La Senza at the beginning of 2007, and we’ve continued to expand our presence outside of North America by opening company-owned stores, as well as increasing the number of stores operated by our international partners.

- **Victoria’s Secret International Stores**—We have made significant progress in expanding Victoria’s Secret internationally. We opened our first seven Victoria’s Secret full-assortment stores in Greater China during 2017, and have plans to open approximately 10 more in 2018. In the U.K., we opened three new Victoria’s Secret full-assortment stores and two PINK stores in 2017, bringing the total to 23. In 2018, we plan to open two Victoria’s Secret full-assortment stores and one PINK store in the U.K. Additionally, in 2017 we opened our first Victoria’s Secret full-assortment store in Ireland.

Further, our partners opened nine Victoria’s Secret full-assortment stores in 2017 with notable openings in Poland, Russia, Turkey and the Middle East, bringing the total to 32 Victoria’s Secret full-assortment stores and five PINK stores. Our partners plan to open approximately 20 Victoria’s Secret full-assortment stores and five PINK stores in 2018.

- **Victoria’s Secret Beauty and Accessories Stores**—We operate 29 company-owned Victoria’s Secret Beauty and Accessories stores in Greater China and expect to open approximately 10 more in 2018. Our partners opened six net new Victoria’s Secret Beauty and Accessories stores in 2017, bringing the total to 397. These stores are located in local markets, airports and tourist destinations, and are focused on Victoria’s Secret branded beauty and accessory products. Our partners plan to open approximately 40 and close approximately 25 Victoria’s Secret Beauty and Accessories stores in 2018.
- **Bath & Body Works International Stores**—Our partners opened 26 net new Bath & Body Works stores in 2017, bringing the total in the Middle East, Latin America, Southeast Asia and Europe to 185. Our partners plan to open approximately 50 additional stores in 2018.

Focus on the fundamentals of our business

We are focused on the fundamentals of our business which include our customers, core merchandise categories, inventory management, speed and agility, and store selling and execution. In terms of speed and agility, we are focused on inventory discipline through lead-time reductions and in-season agility to increase sales and reduce promotional activity. Finally, we continue to optimize our store selling and execution by concentrating on a better store experience and developing, retaining and investing in talented, trained and productive store associates.

2017 Overview

We utilize the retail calendar for reporting. As such, the results for fiscal 2017 represents the 53-week period ended February 3, 2018, and the results for 2016 and 2015 represent the 52-week periods ended January 28, 2017 and January 30, 2016, respectively. The 2017 fourth quarter consists of a 14-week period versus a 13-week period in 2016. The extra week accounted for approximately \$160 million in incremental sales in the fourth quarter of 2017.

Results were mixed in 2017. Our net sales increased \$58 million to \$12.632 billion driven by the extra week in the fiscal year, partially offset by a comparable sales decrease of 3%. Our operating income decreased \$275 million to \$1.728 billion, and our operating income rate decreased to 13.7% from 15.9%. Growth at Bath & Body Works was more than offset by declines at Victoria's Secret and Victoria's Secret and Bath & Body Works International:

- At Bath & Body Works, sales increased 8%, driven by a positive 2% comparable store sales increase and a 24% increase in sales in the direct channel. Operating income increased 5%. We worked a large part of the year to refine our merchandise mix. Through new products and relaunches we improved our assortment, created a large amount of newness and learned even more about our customer and what she wants most. We ended the year with 425 new concept stores which include the White Barn design. While the investment in these stores results in near-term financial pressure, they continue to drive significant sales increases and importantly present a new, compelling store design to our customers.
- In the Victoria's Secret business, while we continue to see strong growth in our direct channel (18% in go-forward merchandise categories for 2017), store traffic levels continue to be challenging despite increased marketing and promotion (comparable store sales for go-forward merchandise categories declined 6% in 2017), as we continue to build back our customer base. Operating income for the Victoria's Secret segment declined 21% in 2017. By business unit:
 - Our PINK business achieved a mid-single digit sales increase for the year, as strong growth in the bra and panty business was somewhat offset by a decline in the loungewear business. We are leveraging our speed capabilities in the PINK business to address fashion issues in the loungewear business and improve results.
 - In the Victoria's Secret Lingerie business, although our results improved throughout the year, total sales in go-forward categories declined in the mid-single digit range in 2017.
 - The Victoria's Secret Beauty business improved in 2017. Sales increased in the low-single digit range, and the merchandise margin rate increased, as the customer responded to a more focused assortment and new products and fashion.
- Operating income in our international segment declined by \$35 million to \$5 million. Our partner-based businesses are doing well, with solid operating income growth for the year. The operating loss related to our company-owned business in China increased as we continue to invest for significant growth. We opened seven new Victoria's Secret full-assortment stores in China in 2017 and began e-commerce on the global Tmall website. Our company-owned business in the U.K. was challenged in 2017, comparable sales and operating income both declined, and we are very focused on improving performance.

We are equipped for success, driven by strong brands which lead their categories and an experienced and talented leadership team. We see significant growth opportunities both in and outside of North America. Although our performance in 2017 did not meet our expectations, we continue to hold leadership positions in the segments of retail in which we do business.

For additional information related to our 2017 financial performance, see "Results of Operations—2017 Compared to 2016."

Our capital expenditures of \$707 million included \$601 million for opening new stores and remodeling and improving existing stores. Remaining capital expenditures were primarily related to spending on technology and infrastructure to support growth.

We also are committed to returning value to our shareholders through a combination of dividends and share repurchase programs. During 2017, we paid \$686 million in regular dividends and repurchased \$445 million of our common stock. We use cash flow generated from operating and financing activities to fund our dividends and share repurchase programs. Since 2000, we have returned approximately \$20 billion to shareholders through share repurchases and dividends.

Adjusted Financial Information

In addition to our results provided in accordance with GAAP above and throughout this Form 10-K, provided below are non-GAAP measurements which present operating income, net income and earnings per share in 2017, 2016 and 2015 on an adjusted basis, which remove certain special items. We believe that these special items are not indicative of our ongoing operations due to their size and nature. We use adjusted financial information as key performance measures of results of operations for the purpose of evaluating performance internally. These non-GAAP measurements are not intended to replace the presentation of our financial results in accordance with GAAP. Instead, we believe that the presentation of adjusted financial information provides additional information to investors to facilitate the comparison of past and present operations. Further, our definition of adjusted financial information may differ from similarly titled measures used by other companies. The table below reconciles the GAAP financial measures to the non-GAAP financial measures.

(a) In the first quarter of 2016, we made strategic changes within the Victoria’s Secret segment designed to focus the brand on its core merchandise categories and streamline operations. As a result of these changes, we recorded charges related to severance and related costs, fabric cancellations and catalogue paper write-offs. For additional information see Note 5, “Restructuring Activities” included in Item 8. Financial Statements and Supplementary Data.

- (b) In the second quarter of 2016, we received a \$124 million cash distribution from Easton Town Center, LLC resulting in a pre-tax gain of \$108 million (after-tax gain of \$70 million). For additional information see Note 9, “Equity Investments and Other” included in Item 8. Financial Statements and Supplementary Data.
- (c) In the fourth quarter of 2017, we redeemed our \$500 million 8.50% Senior Unsecured Notes due June 2019 resulting in a pre-tax loss on extinguishment of \$45 million (after-tax loss of \$29 million). In the second quarter of 2016, we redeemed our \$700 million 6.90% Senior Unsecured Notes due July 2017 resulting in a pre-tax loss on extinguishment of \$36 million (after-tax loss of \$22 million). For additional information see Note 12, “Long-term Debt and Borrowing Facilities” included in Item 8. Financial Statements and Supplementary Data.
- (d) In the first quarter of 2015, we divested our remaining ownership interest in our third-party apparel sourcing business. We received cash proceeds of \$85 million and recognized a pre-tax gain of \$78 million (after-tax gain of \$69 million). For additional information see Note 9, “Equity Investments and Other” included in Item 8. Financial Statements and Supplementary Data.
- (e) In the fourth quarter of 2017, we recorded a \$92 million tax benefit related to changes in U.S. tax legislation. For additional information see Note 11, “Income Taxes” included in Item 8. Financial Statements and Supplementary Data.
- (f) In the fourth quarter of 2016, we recorded a \$42 million tax benefit related to the favorable resolution of a discrete income tax matter. For additional information see Note 11, “Income Taxes” included in Item 8. Financial Statements and Supplementary Data.

2018 Outlook

The global retail sector and our business continue to face an uncertain environment and, as a result, we will continue to manage our business thoughtfully, and we will focus on the execution of the retail fundamentals.

At the same time, we are aggressively focusing on bringing compelling merchandise assortments and marketing, store and online experiences to our customers. We will look for, and seek to capitalize on, those opportunities available to us. We believe that our brands, which lead their categories and offer high emotional content to customers at accessible prices, are well positioned heading into 2018.

Results of Operations—2017 Compared to 2016

We utilize the retail calendar for reporting. As such, the results for fiscal 2017 represent the 53-week period ended February 3, 2018, and the results for 2016 represent the 52-week period ended January 28, 2017. The extra week accounted for approximately \$160 million in incremental net sales and an estimated \$46 million in incremental operating income in 2017.

- (a) The percentage change in comparable sales represents direct and comparable store sales. The percentage change in comparable store sales represents the change in sales at comparable stores only and excludes the change in sales from our direct channels. A store is typically included in the calculation of comparable sales when it has been open or owned 12 months or more and it has not had a change in selling square footage of 20% or more. Additionally, stores of a given brand are excluded if total selling square footage for the brand in the mall changes by 20% or more through the opening or closing of a second store. The percentage change in comparable sales are calculated on a comparable calendar period. Therefore, the percentage change in comparable sales for 2017 was calculated on a 53-to-53-week basis and the percentage change in comparable sales for 2016 was calculated on a 52-to-52-week basis. Comparable sales attributable to our international stores are calculated on a constant currency basis.
- (b) Includes company-owned stores in the U.S. and Canada.

The results by segment are as follows:

Victoria's Secret

For 2017, net sales decreased \$394 million to \$7.387 billion, comparable sales and comparable store sales both decreased 8%. Net sales decreased primarily due to strategic decisions to exit the swim and apparel categories, a decline in core bra sales and a decline in panties as we reposition the category. These results were partially offset by increases in PINK, sport and beauty driven by merchandise assortment that incorporated newness, innovation and fashion.

The decrease in comparable store sales was driven primarily by a decrease in total transactions due to reduced traffic, impacted significantly by the exit of certain categories.

Bath & Body Works

For 2017, net sales increased \$296 million to \$4.148 billion, comparable sales increased 5% and comparable store sales increased 2%. Net sales increased in the home fragrance and body care categories, which incorporated newness, innovation and fashion.

The increase in comparable store sales was primarily driven by higher average unit retail.

Victoria's Secret and Bath & Body Works International

For 2017, net sales increased \$79 million to \$502 million primarily related to new company-owned Victoria's Secret stores and direct channel growth in Greater China and additional stores opened by our partners.

Other

For 2017, net sales increased \$77 million to \$595 million primarily due to an increase in wholesale sales to our international partners.

Gross Profit

For 2017, our gross profit decreased \$166 million to \$4.959 billion, and our gross profit rate (expressed as a percentage of net sales) decreased to 39.3% from 40.8% primarily as a result of:

Victoria's Secret

For 2017, the gross profit decrease was driven by lower merchandise margin dollars related to the decrease in net sales.

The gross profit rate decrease was driven by deleverage of buying and occupancy expenses on lower sales and a lower merchandise margin rate primarily due to increased promotional activity, partially offset by lower catalogue costs and other cost reductions.

Bath & Body Works

For 2017, the gross profit increase was driven by higher merchandise margin dollars related to the increase in net sales, partially offset by higher occupancy expenses due to investments in store real estate.

The gross profit rate decrease was driven by a decrease in the merchandise margin rate primarily due to increased promotional activity, mix of category sales and channel mix.

Victoria's Secret and Bath & Body Works International

For 2017, the gross profit increase was driven by increased merchandise margin dollars related to higher net sales in Greater China and additional stores opened by our partners. These increases were partially offset by higher occupancy expenses due to investments in store real estate in Greater China and at Victoria's Secret U.K.

The gross profit rate decrease was driven by an increase in occupancy expenses due to investments in store real estate in Greater China and at Victoria's Secret U.K.

General, Administrative and Store Operating Expenses

For 2017, our general, administrative and store operating expenses increased \$109 million to \$3.231 billion primarily driven by an increase in marketing expenses due to increased direct mail at Victoria's Secret, higher selling expenses at Bath & Body Works and in Greater China due to the increase in net sales, and as a result of our investment in Greater China. These increases were partially offset by lower selling expenses related to lower sales volumes at Victoria's Secret and severance charges recorded in the first quarter of 2016 related to the Victoria's Secret restructuring.

The general, administrative and store operating expense rate increased to 25.6% from 24.8% primarily due to increased marketing expenses.

Other Income and Expenses

Interest Expense

The following table provides the average daily borrowings and average borrowing rates for 2017 and 2016:

	<u>2017</u>	<u>2016</u>
Average daily borrowings (in millions)	\$5,827	\$5,827
Average borrowing rate (in percentages)	7.0%	6.8%

For 2017, our interest expense increased \$12 million to \$406 million due to a higher average borrowing rate and the impact of the extra week in 2017.

Other Income (Loss)

For 2017, our other income (loss) decreased \$97 million to a \$10 million loss. Activity in 2016 included a distribution received from Easton Town Center, LLC resulting in a pre-tax gain of \$108 million, partially offset by a \$36 million pre-tax loss on extinguishment of the 2017 Notes. In 2017, we recognized a \$45 million pre-tax loss on extinguishment of the 2019 Notes, partially offset by gains related to distributions from certain of our Easton investments.

Provision for Income Taxes

For 2017, our effective tax rate decreased to 25.1% from 31.7%. The 2017 rate was lower than our combined estimated federal and state statutory rate primarily due to the benefit related to changes in U.S. tax legislation. The 2016 rate was lower than our combined estimated federal and state statutory rate primarily due to the resolution of certain tax matters.

Results of Operations—Fourth Quarter of 2017 Compared to Fourth Quarter of 2016

We utilize the retail calendar for reporting. As such, the results for the fourth quarter of 2017 represent the 14-week period ended February 3, 2018, and the results for the fourth quarter of 2016 represent the 13-week period ended January 28, 2017. The extra week accounted for approximately \$160 million in incremental net sales and an estimated \$46 million in incremental operating income in 2017.

(b) Includes company-owned stores in the U.S. and Canada.

The results by segment are as follows:

Victoria's Secret

For the fourth quarter of 2017, net sales increased \$80 million to \$2.669 billion, comparable sales decreased 1%, and comparable store sales decreased 6%. Net sales increased in PINK, beauty and sport apparel driven by merchandise assortment that incorporated newness, innovation and fashion. These results were partially offset by a decrease in lingerie sales driven by a decline in unconstructed and sport bra performance.

The decrease in comparable store sales was driven primarily by lower traffic and lower average unit retail.

Bath & Body Works

For the fourth quarter of 2017, net sales increased \$174 million to \$1.794 billion, comparable sales increased 6%, and comparable store sales increased 4%. Net sales increased in the home fragrance and body care categories, which incorporated newness, innovation and fashion.

The increase in comparable store sales was driven by higher average unit retail.

Victoria's Secret and Bath & Body Works International

For the fourth quarter of 2017, net sales increased \$46 million to \$170 million, primarily related to new company-owned Victoria's Secret stores and direct channel growth in Greater China and additional stores opened by our partners.

Other

For the fourth quarter of 2017, net sales increased \$34 million to \$190 million primarily due to an increase in wholesale sales to our international partners.

Gross Profit

For the fourth quarter of 2017, our gross profit increased \$96 million to \$2.040 billion, and our gross profit rate (expressed as a percentage of net sales) decreased to 42.3% from 43.3% primarily as a result of:

Victoria's Secret

For the fourth quarter of 2017, the gross profit increase was driven by higher merchandise margin dollars related to the increase in net sales, partially offset by an increase in distribution and fulfillment expenses related to higher direct channel sales.

The gross profit rate decrease was driven by a decrease in the merchandise margin rate primarily due to increased promotional activity.

Bath & Body Works

For the fourth quarter of 2017, the gross profit increase was driven by higher merchandise margin dollars related to the increase in net sales, partially offset by higher occupancy expenses due to investments in store real estate and distribution and fulfillment expenses related to higher direct channel sales.

The gross profit rate decrease was driven by a decrease in the merchandise margin rate primarily due to increased promotional activity, partially offset by leverage of buying and occupancy expenses on higher sales.

Victoria's Secret and Bath & Body Works International

For the fourth quarter of 2017, the gross profit increase was driven by increased merchandise margin dollars related to higher net sales in Greater China and additional stores opened by our partners, partially offset by higher occupancy expenses due to investments in store real estate in Greater China and at Victoria's Secret U.K.

The gross profit rate decrease was driven by an increase in occupancy expenses due to investments in store real estate in Greater China and at Victoria's Secret U.K.

General, Administrative and Store Operating Expenses

For the fourth quarter of 2017, our general, administrative and store operating expenses increased \$97 million to \$1.053 billion driven by higher selling expenses due to higher sales volumes and an increase in marketing expenses primarily due to increased direct mail at Victoria's Secret.

The general, administrative and store operating expense rate increased to 21.8% from 21.3% primarily due to increased marketing expenses.

A store is typically included in the calculation of comparable sales when it has been open or owned 12 months or more and it has not had a change in selling square footage of 20% or more. Additionally, stores of a given brand are excluded if total selling square footage for the brand in the mall changes by 20% or more through the opening or closing of a second store. Comparable sales attributable to our international stores are calculated on a constant currency basis.

(b) Includes company-owned stores in the U.S. and Canada.

The results by segment are as follows:

Victoria's Secret

For 2016, net sales increased \$109 million to \$7.781 billion, comparable sales remained flat, and comparable store sales decreased 1%. Net sales increased primarily due to increases in PINK and sport, driven by a compelling merchandise assortment that incorporated newness, innovation and fashion. These results were partially offset by decreases in swim and apparel due to a strategic decision to exit these categories, core bras due to lower average unit retail prices, and beauty as we reposition the category.

The decrease in comparable store sales was driven by a lower average unit retail and the impact of exited categories.

Bath & Body Works

For 2016, net sales increased \$265 million to \$3.852 billion, comparable sales increased 6%, and comparable store sales increased 3%. Net sales increased in most categories, including home fragrance and body care, which incorporated newness, innovation, and fashion.

The increase in comparable store sales was primarily driven by a higher average unit retail.

Victoria's Secret and Bath & Body Works International

For 2016, net sales increased \$38 million to \$423 million primarily related to newly acquired Victoria's Secret Beauty and Accessories stores in Greater China, company-owned Victoria's Secret stores in the U.K. and additional stores opened by our partners. These results were partially offset by softness in the Victoria's Secret Beauty and Accessories business and the negative impacts of foreign currency.

Other

For 2016, net sales increased \$8 million to \$518 million primarily due to increases in our La Senza and Henri Bendel direct channels, partially offset by store closures and the negative impacts of foreign currency at La Senza.

Gross Profit

For 2016, our gross profit decreased \$79 million to \$5.125 billion, and our gross profit rate (expressed as a percentage of net sales) decreased to 40.8% from 42.8% primarily as a result of:

Victoria's Secret

For 2016, the gross profit decrease was primarily driven by a decline in merchandise margin due to clearance activity on non-go forward merchandise categories, promotions and pricing to drive trial in beauty and other key categories and fabric cancellations related to restructuring activities. Offsetting the merchandise margin decline, buying and occupancy expenses decreased primarily driven by a decrease in catalogue costs and other cost reductions from strategic actions taken in the first quarter, partially offset by an increase in occupancy expenses due to investments in store real estate.

The gross profit rate decrease was driven primarily by increases in the promotional and clearance activity described above, the expenses related to the restructuring activities and investments in store real estate, partially offset by lower buying and occupancy expenses due to decreased catalogue costs.

Bath & Body Works

For 2016, the gross profit increase was primarily driven by higher merchandise margin dollars related to the increase in net sales. The increase in merchandise margin was partially offset by higher occupancy expenses due to investments in store real estate.

The gross profit rate decrease was driven by an increase in occupancy expenses primarily due to investments in store real estate.

Victoria's Secret and Bath & Body Works International

For 2016, the gross profit decrease was primarily due to higher occupancy expenses driven by investments in store real estate in Greater China and the U.K., lower merchandise margin dollars at Victoria's Secret Beauty and Accessories due to business performance, and the negative impacts of foreign currency. These decreases were partially offset by increased merchandise margin dollars generated from higher net sales.

The gross profit rate decrease was driven by higher occupancy expenses due to investments in store real estate, a decrease in merchandise margin rate at Victoria's Secret Beauty and Accessories and the negative impacts of foreign currency.

General, Administrative and Store Operating Expenses

For 2016, our general, administrative and store operating expenses increased \$110 million to \$3.122 billion primarily driven by increased store selling expenses related to higher sales volume and investments in selling to improve the customer experience, increased marketing to drive traffic, severance charges related to the Victoria's Secret restructuring activities, and corporate expenses in Greater China, partially offset by lower incentive compensation expense.

Other Income and Expenses

Interest Expense

The following table provides the average daily borrowings and average borrowing rates for 2016 and 2015:

	<u>2016</u>	<u>2015</u>
Average daily borrowings (in millions)	\$5,827	\$5,005
Average borrowing rate (in percentages)	6.8%	6.7%

For 2016, our interest expense increased \$60 million to \$394 million primarily due to an increase in average borrowings related to the October 2015 \$1 billion issuance of our 2035 Notes, as well as an increase in the average borrowing rate.

Other Income (Loss)

For 2016, our other income (loss) increased \$11 million to \$87 million primarily driven by a distribution received from Easton Town Center, LLC resulting in a gain of \$108 million, partially offset by a \$36 million loss on extinguishment of the 2017 Notes. In 2015, we recognized a gain of \$78 million due to the divestiture of our remaining ownership interest in the third-party apparel sourcing business.

Provision for Income Taxes

For 2016, our effective tax rate decreased to 31.7% from 35.2%. The 2016 rate was lower than our combined estimated federal and state statutory rate primarily due to the resolution of certain tax matters. The 2015 rate was lower than our combined estimated federal and state statutory rate primarily due to foreign earnings taxed at a rate lower than our combined estimated federal and state statutory rate.

- (a) The percentage change in comparable sales represents direct and comparable store sales. The percentage change in comparable store sales represents the change in sales at comparable stores only and excludes the change in sales from our direct channels. A store is typically included in the calculation of comparable sales when it has been open or owned 12 months or more and it has not had a change in selling square footage of 20% or more. Additionally, stores of a given brand are excluded if total selling square footage for the brand in the mall changes by 20% or more through the opening or closing of a second store. Comparable sales attributable to our international stores are calculated on a constant currency basis.
- (b) Includes company-owned stores in the U.S. and Canada.

The results by segment are as follows:

Victoria's Secret

For the fourth quarter of 2016, net sales decreased \$25 million to \$2.589 billion, comparable sales decreased 3%, and comparable store sales decreased 2%. Net sales decreased primarily driven by a decline in total core bra sales due to lower average unit retail prices and decreases in swim and apparel due to a strategic decision to exit these categories. These results were partially offset by increases in PINK, sport and beauty driven by compelling merchandise assortment that incorporated newness, innovation and fashion.

The decrease in comparable store sales was driven by a lower average unit retail and the impact of exited categories.

Bath & Body Works

For the fourth quarter of 2016, net sales increased \$100 million to \$1.620 billion, comparable sales increased 5%, and comparable store sales increased 2%. Net sales increased in most categories, including home fragrance and body care which incorporated newness, innovation, and fashion.

The increase in comparable store sales was primarily driven by a higher average unit retail.

Victoria's Secret and Bath & Body Works International

For the fourth quarter of 2016, net sales increased \$12 million to \$124 million, primarily related to newly acquired Victoria's Secret Beauty and Accessories stores in Greater China, company-owned Victoria's Secret stores in the U.K. and additional stores opened by our partners. These results were partially offset by softness in the Victoria's Secret Beauty and Accessories business and the negative impacts of foreign currency at Victoria's Secret U.K.

Other

For the fourth quarter of 2016, net sales increased \$7 million to \$156 million primarily due to increases in our La Senza and Henri Bendel direct channels, partially offset by store closures at La Senza.

Gross Profit

For the fourth quarter of 2016, our gross profit decreased \$58 million to \$1.944 billion, and our gross profit rate (expressed as a percentage of net sales) decreased to 43.3% from 45.6% primarily as a result of:

Victoria's Secret

For the fourth quarter of 2016, the gross profit decrease was driven by a decline in merchandise margin primarily due to promotional events to drive traffic and proactively manage inventory and a decline in beauty as we reposition the category. Buying and occupancy expenses decreased primarily driven by a decrease in catalogue costs and other cost reductions from strategic actions taken in the first quarter, partially offset by an increase in occupancy expenses due to investments in store real estate.

The gross profit rate decrease was driven primarily by increases in the promotional and clearance activity described above, partially offset by lower buying and occupancy expenses due to decreased catalogue costs.

Bath & Body Works

For the fourth quarter of 2016, the gross profit increase was driven by higher merchandise margin dollars primarily related to the increase in net sales. The increase in merchandise margin was partially offset by an increase in occupancy expenses due to investments in store real estate.

The gross profit rate decrease was driven by an increase in occupancy expenses primarily due to investments in store real estate.

Victoria's Secret and Bath & Body Works International

For the fourth quarter of 2016, the gross profit decrease was driven by higher occupancy expenses due to investments in store real estate in Greater China and the U.K., softness in the Victoria's Secret Beauty and Accessories business and the negative impacts of foreign currency on merchandise margin at Victoria's Secret U.K. These decreases were partially offset by increased merchandise margin dollars generated from higher net sales.

The gross profit rate decrease was driven by an increase in occupancy expenses due to investments in store real estate, a decrease in the merchandise margin rate at Victoria's Secret Beauty and Accessories and the negative impacts of foreign currency at Victoria's Secret U.K.

General, Administrative and Store Operating Expenses

For the fourth quarter of 2016, our general, administrative and store operating expenses increased \$32 million to \$956 million primarily driven by increased store selling expenses related to higher sales volume and investments in selling to improve the customer experience, increased marketing to drive traffic and corporate expenses in Greater China, partially offset by lower incentive compensation expense.

The general, administrative and store operating expense rate increased to 21.3% from 21.0% due to store selling, marketing and our investment in China, partially offset by a reduction in incentive compensation expense.

Other Income and Expense

Interest Expense

The following table provides the average daily borrowings and average borrowing rates for the fourth quarter of 2016 and 2015:

<u>Fourth Quarter</u>	<u>2016</u>	<u>2015</u>
Average daily borrowings (in millions)	\$5,779	\$5,756
Average borrowing rate (in percentages)	6.9%	6.8%

For the fourth quarter of 2016, our interest expense increased \$1 million to \$98 million primarily due to an increase in the average borrowing rate.

Provision for Income Taxes

For the fourth quarter of 2016, our effective tax rate decreased to 29.2% from 35.2%. The 2016 rate was lower than our combined estimated federal and state statutory rate primarily due to the resolution of certain tax matters. The 2015 rate was lower than our combined estimated federal and state statutory rate primarily due to foreign earnings taxed at a rate lower than our combined estimated federal and state statutory rate.

FINANCIAL CONDITION

Liquidity and Capital Resources

Liquidity, or access to cash, is an important factor in determining our financial stability. We are committed to maintaining adequate liquidity. Cash generated from our operating activities provides the primary resources to support current operations, growth initiatives, seasonal funding requirements and capital expenditures. Our cash provided from operations is impacted by our net income and working capital changes. Our net income is impacted by, among other things, sales volume, seasonal sales patterns, success of new product introductions, profit margins and income taxes. Historically, sales are higher during the fourth quarter of the fiscal year due to seasonal and holiday-related sales patterns. Generally, our need for working capital peaks during the summer and fall months as inventory builds in anticipation of the holiday period. The majority of our cash and cash equivalents are held by domestic subsidiaries. Our cash and cash equivalents held by foreign subsidiaries were \$348 million as of February 3, 2018.

We believe in returning value to our shareholders through a combination of dividends and share repurchase programs. During 2017, we paid \$686 million in regular dividends and repurchased \$445 million of our common stock. We use cash flow generated from operating and financing activities to fund our dividends and share repurchase programs.

The following table provides our debt balance, net of unamortized debt issuance costs and discounts, as of February 3, 2018 and January 28, 2017:

(a) The balance includes a fair value interest rate hedge adjustment which increased the debt balance by \$2 million as of January 28, 2017.

Issuance of Notes

In January 2018, we issued \$500 million of 5.25% notes due in February 2028. The obligation to pay principal and interest on these notes is jointly and severally guaranteed on a full and unconditional basis by certain of our 100% owned subsidiaries (the “Guarantors”). The proceeds from the issuance were \$495 million, which were net of issuance costs of \$5 million. These issuance costs are being amortized through the maturity date of February 2028 and are included within Long-term Debt on the February 3, 2018 Consolidated Balance Sheet.

In June 2016, we issued \$700 million of 6.75% notes due in July 2036. The obligation to pay principal and interest on these notes is jointly and severally guaranteed on a full and unconditional basis by the Guarantors. The proceeds from the issuance were \$692 million, which were net of issuance costs of \$8 million. These issuance costs are being amortized through the maturity date of July 2036 and are included within Long-term Debt on the Consolidated Balance Sheets.

Redemption of Notes

In January 2018, we used the proceeds from the 2028 Notes to redeem the \$500 million 2019 Notes for \$540 million. The pre-tax loss on extinguishment of this debt was \$45 million (after-tax loss of \$29 million), which includes write-offs of unamortized issuance costs and discounts and losses related to terminated interest rate swaps associated with the 2019 Notes. This loss is included in Other Income (Loss) in the 2017 Consolidated Statement of Income.

Form 10-K

In July 2016, we used the proceeds from the 2036 Notes to redeem the \$700 million 2017 Notes for \$742 million. The pre-tax loss on extinguishment of this debt was \$36 million (after-tax net loss of \$22 million), which is net of gains of \$7 million related to terminated interest rate swaps associated with the 2017 Notes. This loss is included in Other Income (Loss) in the 2016 Consolidated Statement of Income.

Revolving Facility

In May 2017, we entered into an amendment and restatement (“Amendment”) of our secured revolving credit facility (“Revolving Facility”). The Amendment maintains the aggregate amount of the commitments of the lenders under the Revolving Facility at \$1 billion and extends the termination date from July 18, 2019 to May 11, 2022. The Amendment allows certain of our non-U.S. subsidiaries to borrow and obtain letters of credit in U.S. dollars, Canadian dollars, Euros, Hong Kong dollars or British pounds.

In addition, the Amendment reduced the commitment fees payable under the Revolving Facility, which are based on our long-term credit rating, to 0.25% per annum. The Amendment did not modify our quantitative covenant requirements, but did provide an increased limit on restricted payments in the event we do not meet the criteria to make these payments without limitation and provides greater flexibility with respect to our ability to grant liens on assets.

We incurred fees related to the Amendment of the Revolving Facility of \$5 million, which were capitalized and recorded in Other Assets on the February 3, 2018 Consolidated Balance Sheet and are being amortized over the remaining term of the Revolving Facility.

The Revolving Facility fees related to committed and unutilized amounts are 0.25% per annum, and the fees related to outstanding letters of credit are 1.50% per annum. In addition, the interest rate on outstanding U.S. dollar borrowings is London Interbank Offered Rate (“LIBOR”) plus 1.50% per annum. The interest rate on outstanding foreign denominated borrowings is the applicable benchmark rate plus 1.50% per annum.

The Revolving Facility contains fixed charge coverage and debt to EBITDA financial covenants. We are required to maintain a fixed charge coverage ratio of not less than 1.75 to 1.00 and a consolidated debt to consolidated EBITDA ratio not exceeding 4.00 to 1.00 for the most recent four-quarter period. In addition, the Revolving Facility provides that investments and restricted payments may be made, without limitation on amount, if (a) at the time of and after giving effect to such investment or restricted payment, the ratio of consolidated debt to consolidated EBITDA for the most recent four-quarter period is less than 3.00 to 1.00 and (b) no default or event of default exists. As of February 3, 2018, we were in compliance with both of our financial covenants, and the ratio of consolidated debt to consolidated EBITDA was less than 3.00 to 1.00.

As of February 3, 2018, there were no borrowings outstanding under the Revolving Facility.

The Revolving Facility supports our letter of credit program. We had \$9 million of outstanding letters of credit as of February 3, 2018 that reduced our remaining availability under our Revolving Facility.

Foreign Facilities

In addition to the Revolving Facility, we maintain various revolving and term loan bank facilities to support our operations in Greater China (“Foreign Facilities”). These facilities allow certain of our Greater China subsidiaries to borrow and obtain letters of credit in U.S. dollars and Chinese yuan.

During the fourth quarter of 2017, we entered into a new revolving facility with availability totaling \$100 million. The obligation to pay principal and interest is jointly and severally guaranteed on a full and unconditional basis by L Brands, Inc. and the Guarantors. The interest rates on outstanding borrowings are based upon the applicable benchmark rate for the currency of each borrowing. During 2017, we borrowed \$1 million under this facility. This borrowing, which matures on May 11, 2022, is included within Long-term Debt on the February 3, 2018 Consolidated Balance Sheet.

We also maintain various revolving and term loan bank facilities that are guaranteed by L Brands, Inc. with availability totaling \$100 million. The interest rates on outstanding borrowings are based upon the applicable benchmark rate for the currency of each borrowing. During 2017, we borrowed \$95 million and made payments of \$44 million under these facilities. The maximum daily amount outstanding at any point in time during 2017 was \$97 million. Current borrowings on these facilities mature between February 6, 2018 and December 18, 2018 and are included within Current Debt on the February 3, 2018 Consolidated Balance Sheet.

Working Capital and Capitalization

We believe that our available short-term and long-term capital resources are sufficient to fund foreseeable requirements.

The following table provides a summary of our working capital position and capitalization as of February 3, 2018, January 28, 2017 and January 30, 2016:

	February 3, 2018	January 28, 2017	January 30, 2016

- (b) Letters of credit issued reduce our remaining availability under the Revolving Facility. We had outstanding letters of credit that reduce our remaining availability under the Revolving Facility of \$9 million as of February 3, 2018, and \$8 million as of January 28, 2017 and January 30, 2016.

The following table provides certain measures of liquidity and capital resources as of February 3, 2018, January 28, 2017 and January 30, 2016:

	February 3, 2018	January 28, 2017	January 30, 2016

- (a) Long-term debt divided by total capitalization
- (b) Net cash provided by operating activities divided by capital expenditures. As further discussed in Note 2 included in Item 8. Financial Statements and Supplementary Data, prior year net cash provided by operating activities have been recast to reflect the retrospective application of ASU No. 2016-09, *Improvements to Employee Share-Based Payment Accounting*.

Credit Ratings

The following table provides our credit ratings as of February 3, 2018:

	<u>Moody's</u>	<u>S&P</u>	<u>Fitch</u>
Corporate	Ba1	BB+	BB+
Senior Unsecured Debt with Subsidiary Guarantee	Ba1	BB+	BB+
Senior Unsecured Debt	Ba2	BB-	BB
Outlook	Stable	Stable	Stable

Our borrowing costs under our Revolving Facility are linked to our credit ratings at Moody's, S&P and Fitch. If we receive an upgrade or downgrade to our corporate credit ratings by Moody's, S&P or Fitch, the borrowing costs could decrease or increase, respectively. The guarantees of our obligations under the Revolving Facility by the Guarantors and the security interests granted in our and the Guarantors' collateral securing such obligations are released if our credit ratings are higher than a certain level. Additionally, the restrictions imposed under the Revolving Facility on our ability to make investments and to make restricted payments cease to apply if our credit ratings are higher than certain levels. Credit rating downgrades by any of the agencies do not accelerate the repayment of any of our debt.

Common Stock Share Repurchases

Our Board of Directors will determine share repurchase authorizations giving consideration to our levels of profit and cash flow, capital requirements, current and forecasted liquidity, the restrictions placed upon us by our borrowing arrangements as well as financial and other conditions existing at the time. We use cash flow generated from operating and financing activities to fund our share repurchase programs. The timing and amount of any repurchases will be made at our discretion, taking into account a number of factors, including market conditions.

Under the authority of our Board of Directors, we repurchased shares of our common stock under the following repurchase programs during fiscal 2017, 2016 and 2015:

<u>Repurchase Program</u>	<u>Amount Authorized</u> (in millions)	<u>Shares Repurchased</u>			<u>Amount Repurchased</u>			<u>Average Stock Price of Shares Repurchased within Program</u>

Total		<u>9,409</u>	<u>5,719</u>	<u>5,468</u>	<u>\$445</u>	<u>\$438</u>	<u>\$483</u>	

In September 2017, our Board of Directors approved a \$250 million share repurchase program, which included the \$10 million remaining under the February 2017 repurchase program.

In February 2017, our Board of Directors approved a \$250 million share repurchase program, which included the \$59 million remaining under the February 2016 repurchase program.

In February 2016, our Board of Directors approved a \$500 million share repurchase program, which included the \$17 million remaining under the June 2015 repurchase program.

In June 2015, our Board of Directors approved a \$250 million share repurchase program, which included the \$0.6 million remaining under the February 2015 repurchase program.

In February 2015, our Board of Directors approved a \$250 million share repurchase program, which included the \$91 million remaining under the November 2012 repurchase program.

There were \$2 million and \$3 million of share repurchases reflected in Accounts Payable on the February 3, 2018 and January 28, 2017 Consolidated Balance Sheets, respectively.

Subsequent to February 3, 2018, our Board of Directors approved a new \$250 million share repurchase program, which included the \$23 million remaining under the September 2017 repurchase program. We repurchased an additional 0.8 million shares of common stock for \$35 million subsequent to February 3, 2018.

Treasury Stock Retirement

In November 2017, we retired 36 million shares of our treasury stock. The retirement resulted in a reduction of \$2.036 billion in Treasury Stock, \$18 million in the par value of Common Stock, \$82 million in Paid-in Capital and \$1.936 billion in Retained Earnings.

Dividend Policy and Procedures

Our Board of Directors will determine future dividends after giving consideration to our levels of profit and cash flow, capital requirements, current and forecasted liquidity, the restrictions placed upon us by our borrowing arrangements as well as financial and other conditions existing at the time. We use cash flow generated from operating activities to fund our ordinary dividends and a combination of cash flow generated from operating activities and financing activities to fund our special dividends.

Under the authority and declaration of our Board of Directors, we paid the following dividends during fiscal 2017, 2016 and 2015:

	<u>Ordinary Dividends</u>	<u>Special Dividends</u> (per share)	<u>Total Dividends</u>	<u>Total Paid</u> (in millions)

(a) As further discussed in Note 2 included in Item 8. Financial Statements and Supplementary Data, prior year amounts have been recast to reflect the retrospective application of ASU No. 2016-09, *Improvements to Employee Share-Based Payment Accounting*.

Operating Activities

Net cash provided by operating activities in 2017 was \$1.406 billion, including net income of \$983 million. Net income included depreciation and amortization of \$571 million, a decrease in deferred income taxes of \$108 million, share-based compensation expense of \$102 million, loss on extinguishment of debt of \$45 million and gains on distributions from Easton investments of \$20 million. Other changes in assets and liabilities represent items that had a current period cash flow impact, such as changes in working capital. The most significant item in working capital was a decrease in operating cash flow of \$137 million associated with an increase in inventory.

Net cash provided by operating activities in 2016 was \$1.990 billion, including net income of \$1.158 billion. Net income included depreciation and amortization of \$518 million, an increase in deferred income taxes of \$110 million, gains on distributions from Easton investments of \$112 million, share-based compensation expense of \$96 million and loss on extinguishment of debt of \$36 million. Other changes in assets and liabilities represent items that had a current period cash flow impact, such as changes in working capital. The most significant item in working capital was an increase in operating cash flow of \$117 million associated with an increase in income taxes payable.

Net cash provided by operating activities in 2015 was \$2.027 billion, including net income of \$1.253 billion. Net income included depreciation and amortization of \$457 million, share-based compensation expense of \$97 million and a gain on divestiture of the third-party apparel sourcing business of \$78 million. Other changes in assets and liabilities represent items that had a current period cash flow impact, such as changes in working capital. The most significant items in working capital were increases in operating cash flow of \$137 million associated with an increase in accounts payable, accrued expenses and other and \$131 million associated with an increase in income taxes payable.

Investing Activities

Net cash used for investing activities in 2017 was \$698 million consisting primarily of \$707 million of capital expenditures and purchases of marketable securities of \$10 million, partially offset by a \$29 million return of

capital from Easton investments. The capital expenditures included \$601 million for opening new stores and remodeling and improving existing stores. Remaining capital expenditures were primarily related to spending on technology and infrastructure to support growth.

Net cash used for investing activities in 2016 was \$833 million consisting primarily of \$990 million of capital expenditures and \$33 million related to the acquisition of our Victoria's Secret Beauty and Accessories franchise partner's operations and stores in Greater China (net of cash acquired), partially offset by a \$119 million return of capital from Easton investments, proceeds from the sale of assets of \$53 million and proceeds from the sale of marketable securities of \$10 million. The capital expenditures included \$772 million for opening new stores and remodeling and improving existing stores. Remaining capital expenditures were primarily related to spending on technology and infrastructure to support growth.

Net cash used for investing activities in 2015 was \$443 million consisting primarily of \$727 million of capital expenditures and purchases of marketable securities of \$60 million, partially offset by proceeds from the sale of assets of \$196 million, proceeds from the divestiture of the third-party apparel sourcing business for \$85 million and proceeds from the sale of marketable securities of \$50 million. The capital expenditures included \$555 million for opening new stores and remodeling and improving existing stores. Remaining capital expenditures were primarily related to spending on technology and infrastructure to support growth.

We anticipate spending approximately \$750 million for capital expenditures in 2018 with the majority relating to opening new stores and remodeling and improving existing stores. We expect to open approximately 100 new company-owned stores in 2018, primarily Bath & Body Works stores in the U.S. and stores in Greater China.

Financing Activities

Net cash used for financing activities in 2017 was \$1.127 billion consisting primarily of quarterly dividend payments totaling \$2.40 per share, or \$686 million, \$540 million to redeem our 2019 Notes, repurchases of common stock of \$446 million and tax payments related to share-based awards of \$32 million. These were partially offset by the net proceeds of \$495 million from the 2028 Notes issuance, \$52 million of net proceeds under our foreign facilities and proceeds from the exercise of stock options of \$38 million.

Net cash used for financing activities in 2016 was \$1.765 billion consisting primarily of quarterly and special dividend payments totaling \$4.40 per share, or \$1.268 billion, \$742 million to redeem our 2017 Notes, repurchases of common stock of \$435 million and tax payments related to share-based awards of \$58 million. These were partially offset by the net proceeds of \$692 million from the 2036 Notes issuance, \$29 million of net proceeds under our foreign facilities and proceeds from the exercise of stock options of \$20 million.

Net cash used for financing activities in 2015 was \$716 million consisting primarily of quarterly and special dividend payments totaling \$4.00 per share, or \$1.171 billion, repurchases of common stock of \$483 million and tax payments related to share-based awards of \$88 million. These were partially offset by the net proceeds of \$988 million from the 2035 Notes issuance and proceeds from the exercise of stock options of \$33 million.

Contingent Liabilities and Contractual Obligations

The following table provides our contractual obligations, aggregated by type, including the maturity profile as of February 3, 2018:

	Payments Due by Period					Other	
	Total	Less Than 1 Year	1-3 Years	4-5 Years	More than 5 Years		
			(in millions)				
Long-term Debt (a)	\$ 9,762	\$ 431	\$1,122	\$2,554	\$5,655	\$ —	
Operating Lease Obligations (b)	5,328	730	1,358	1,160	2,080	—	
Purchase Obligations (c)	1,272	1,204	60	6	2	—	
Other Liabilities (d)	412	19	13	21	30	329	
Total	\$16,774	\$2,384	\$2,553	\$3,741	\$7,767	\$329	

- (a) Long-term debt obligations relate to our principal and interest payments for outstanding notes and debentures. Interest payments have been estimated based on the coupon rate for fixed rate obligations. Interest obligations exclude amounts which have been accrued through February 3, 2018. For additional information, see Note 12 to the Consolidated Financial Statements included in Item 8. Financial Statements and Supplementary Data.
- (b) Operating lease obligations primarily represent minimum payments due under store lease agreements. For additional information, see Note 16 to the Consolidated Financial Statements included in Item 8. Financial Statements and Supplementary Data.
- (c) Purchase obligations primarily include purchase orders for merchandise inventory and other agreements to purchase goods or services that are enforceable and legally binding and that specify all significant terms, including: fixed or minimum quantities to be purchased; fixed, minimum or variable price provisions; and the approximate timing of the transactions.
- (d) Other liabilities primarily include future payments relating to our nonqualified supplemental retirement plan of \$269 million which have been reflected under “Other” as the timing of these future payments is not known until an associate leaves the Company or otherwise requests an in-service distribution. Other liabilities also include future estimated payments associated with unrecognized tax benefits. The “Less Than 1 Year” category includes \$12 million of these tax items because it is reasonably possible that the amounts could change in the next 12 months due to audit settlements or resolution of uncertainties. The remaining portion totaling \$60 million is included in the “Other” category as it is not reasonably possible that the amounts could change in the next 12 months. In addition, a liability of \$67 million was recorded in 2017 resulting from the Tax Cuts and Jobs Act, which imposed a deemed repatriation tax on our undistributed foreign earnings. The tax liability will be paid over eight years beginning in fiscal 2018. For additional information, see Note 11 to the Consolidated Financial Statements in Item 8. Financial Statements and Supplementary Data.

In connection with the disposition of a certain business, we have remaining guarantees of \$10 million related to lease payments under the current terms of noncancellable leases expiring at various dates through 2021. These guarantees include minimum rent and additional payments covering taxes, common area costs and certain other expenses and relate to leases that commenced prior to the disposition of the business. In certain instances, our guarantee may remain in effect if the term of a lease is extended. We have not recorded a liability with respect to these guarantee obligations as of February 3, 2018 or January 28, 2017 as we concluded that payments under these guarantees were not probable.

In connection with noncancellable operating leases of certain assets, we provided residual value guarantees to the lessor if the leased assets cannot be sold for an amount in excess of a specified minimum value at the conclusion of the lease term. The leases expire at various dates through 2021, and the total amount of the guarantees is \$104 million. We recorded a liability of \$3 million and \$1 million related to these guarantee obligations as of

February 3, 2018 and January 28, 2017, respectively, which are included in Other Long-term Liabilities on the Consolidated Balance Sheets.

Off Balance Sheet Arrangements

We have no off balance sheet arrangements as defined by Regulation 229.303 Item 303 (a) (4).

Recently Issued Accounting Pronouncements

Share-Based Compensation

In the first quarter of 2017, we adopted ASU No. 2016-09, *Improvements to Employee Share-Based Payment Accounting*. On a prospective basis, this standard requires recognition of the income tax effects of share-based awards in the income statement when the awards vest or are exercised. These effects were historically recorded in equity on the balance sheet. As a result, we recognized \$13 million of excess tax benefits related to share-based awards in Provision for Income Taxes in the 2017 Consolidated Statement of Income. The standard also requires all tax-related cash flows from share-based awards to be reported as operating activities on the statements of cash flows and any cash payments made to taxing authorities on an employee's behalf from withheld shares as financing activities. The retrospective application of these changes resulted in a \$100 million increase in operating cash flows and a corresponding decrease to financing cash flows on the 2016 Consolidated Statement of Cash Flows, and a \$158 million increase in operating cash flows and a corresponding decrease to financing cash flows on the 2015 Consolidated Statement of Cash Flows. Further, as allowed by the standard, we will continue to estimate award forfeitures at the time awards are granted and adjust, if necessary, in subsequent periods based on historical experience and expected future forfeiture rates.

Revenue from Contracts with Customers

In May 2014, the Financial Accounting Standards Board ("FASB") issued ASC 606, *Revenue from Contracts with Customers*, which was further clarified and amended in 2015 and 2016. This guidance requires companies to recognize revenue in a manner that depicts the transfer of promised goods or services to customers in amounts that reflect the consideration to which a company expects to be entitled in exchange for those goods or services. The new standard also will result in enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. This guidance will be effective beginning in fiscal 2018. The standard allows for either a full retrospective or a modified retrospective transition method.

We will adopt the standard in the first quarter of fiscal 2018 under the modified retrospective approach. Under the new standard, income from the Victoria's Secret private label credit card arrangement, which has historically been presented as a reduction to General, Administrative and Store Operating Expenses, will be presented as revenue. Further, our current accounting related to loyalty points earned under the Victoria's Secret customer loyalty program will change as we will begin to defer revenue associated with customer loyalty points until the points are redeemed using a relative stand-alone selling price method. The new standard will also change our accounting for sales returns which requires balance sheet presentation on a gross basis.

In the first quarter of fiscal 2018, we will record a cumulative catch-up adjustment resulting in a reduction to opening retained earnings, net of tax, of approximately \$28 million primarily relating to the deferral of revenue related to outstanding points, net of estimated forfeitures, under the Victoria's Secret customer loyalty program. In addition, we expect the adoption of this standard to increase Net Sales and General, Administrative and Store Operating Expenses by approximately \$110 million in fiscal 2018 as a result of the classification change for our Victoria's Secret private label credit card arrangement.

Fair Value of Financial Instruments

In January 2016, the FASB issued ASU 2016-01, *Financial Instruments—Overall: Recognition and Measurement of Financial Assets and Financial Liabilities*, which addresses certain aspects of the recognition,

measurement, presentation and disclosure of financial instruments. The standard requires the recognition of changes in the fair value of marketable equity securities in net income as compared to today's treatment in accumulated other comprehensive income on the balance sheet. We will adopt the standard in the first quarter of fiscal 2018 and record an increase to opening retained earnings, net of tax, of \$2 million.

Leases

In February 2016, the FASB issued ASC 842, *Leases*, which requires companies classified as lessees to put most leases on their balance sheets but recognize expenses on their income statements in a manner similar to today's accounting. The new standard also will result in enhanced quantitative and qualitative disclosures, including significant judgments made by management, to provide greater insight into the extent of revenue and expense recognized and expected to be recognized from existing leases. The standard currently requires a modified retrospective transition approach. In January 2018, the FASB issued an exposure draft that would provide companies an option that would not require earlier periods to be restated upon adoption. The standard is effective beginning in fiscal 2019, with early adoption permitted.

We are currently evaluating the impacts that this standard will have on our Consolidated Statements of Income and Comprehensive Income, Balance Sheets and Statements of Cash Flows. We currently expect that most of our operating lease commitments will be recognized as operating lease liabilities and right-of-use assets upon adoption of the standard. Thus, we expect adoption will result in a material increase to the assets and liabilities on the Consolidated Balance Sheet. We will adopt the standard in the first quarter of fiscal 2019.

Hedging Activities

In August 2017, the FASB issued ASU 2017-12, *Targeted Improvements to Accounting for Hedging Activities*, which is intended to better align risk management activities and financial reporting for hedging relationships. The new standard eliminates the requirement to separately measure and report hedge ineffectiveness and generally requires the entire change in the fair value of a hedging instrument to be presented in the same income statement line as the hedged item. It also eases certain documentation and assessment requirements. This guidance will be effective beginning in fiscal 2019, with early adoption permitted. We are currently evaluating the impact of this standard on our Consolidated Statements of Income and Comprehensive Income, Balance Sheets and Statements of Cash Flows.

Impact of Inflation

While it is difficult to accurately measure the impact of inflation due to the imprecise nature of the estimates required, we believe the effects of inflation, if any, on the results of operations and financial condition have been minor.

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to adopt accounting policies related to estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period, as well as the related disclosure of contingent assets and liabilities at the date of the financial statements. On an ongoing basis, management evaluates its accounting policies, estimates and judgments, including those related to inventories, long-lived assets, claims and contingencies, income taxes and revenue recognition. Management bases our estimates and judgments on historical experience and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates. Management has discussed the development and selection of our critical accounting policies and estimates with the Audit Committee of our Board of Directors and believes the following assumptions and estimates are most significant to reporting our results of operations and financial position.

Inventories

Inventories are principally valued at the lower of cost or net realizable value, on a weighted-average cost basis.

We record valuation adjustments to our inventories if the cost of inventory on hand exceeds the amount we expect to realize from the ultimate sale or disposal of the inventory. These estimates are based on management's judgment regarding future demand and market conditions and analysis of historical experience. If actual demand or market conditions are different than those projected by management, future period merchandise margin rates may be unfavorably or favorably affected by adjustments to these estimates.

We also record inventory loss adjustments for estimated physical inventory losses that have occurred since the date of the last physical inventory. These estimates are based on management's analysis of historical results and operating trends.

Management believes that the assumptions used in these estimates are reasonable and appropriate. A 10% increase or decrease in the inventory valuation adjustment would have impacted net income by approximately \$4 million for 2017. A 10% increase or decrease in the estimated physical inventory loss adjustment would have impacted net income by approximately \$5 million for 2017.

Valuation of Long-lived Assets

Property and equipment and intangible assets with finite lives are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable. Assets are grouped at the lowest level for which they are largely independent of other assets or asset groups. If the estimated undiscounted future cash flows related to the asset or asset group are less than the carrying value, we recognize a loss equal to the difference between the carrying value and the estimated fair value, usually determined by the estimated discounted future cash flows of the asset or asset group. When a decision has been made to dispose of property and equipment prior to the end of the previously estimated useful life, depreciation estimates are revised to reflect the use of the asset over the shortened estimated useful life.

Goodwill is reviewed for impairment each year in the fourth quarter and may be reviewed more frequently if certain events occur or circumstances change. First, we perform a qualitative assessment to determine whether it is more likely than not that each reporting unit's fair value is less than its carrying value, including goodwill. If we determine that it is more likely than not that the fair value of the reporting unit is less than its carrying value, we then estimate the fair value of all assets and liabilities of that reporting unit, including the implied fair value of goodwill, through either estimated discounted future cash flows or market-based methodologies. If the carrying value of goodwill exceeds the implied fair value, we recognize an impairment charge equal to the difference. Our reporting units are determined in accordance with the provisions of ASC Topic 350, *Intangibles—Goodwill and Other*. Our reporting units that have goodwill are Victoria's Secret Stores, Victoria's Secret Direct, Bath & Body Works Stores and Greater China.

Intangible assets with indefinite lives are reviewed for impairment each year in the fourth quarter and may be reviewed more frequently if certain events occur or circumstances change. We first perform a qualitative assessment to determine whether it is more likely than not that the indefinite-lived intangible asset is impaired. If we determine that it is more likely than not that the fair value of the asset is less than its carrying amount, we will estimate the fair value, usually determined by the estimated discounted future cash flows of the asset, compare that value with its carrying amount and record an impairment charge, if any.

We estimate the fair value of property and equipment, goodwill and intangible assets in accordance with the provisions of ASC Topic 820, *Fair Value Measurement*. If future economic conditions are different than those projected by management, future impairment charges may be required.

Claims and Contingencies

We are subject to various claims and contingencies related to lawsuits, insurance, regulatory and other matters arising out of the normal course of business. Our determination of the treatment of claims and contingencies in the Consolidated Financial Statements is based on management's view of the expected outcome of the applicable claim or contingency. We consult with legal counsel on matters related to litigation and seek input from both internal and external experts with respect to matters in the ordinary course of business. We accrue a liability if the likelihood of an adverse outcome is probable and the amount is reasonably estimable. If the likelihood of an adverse outcome is only reasonably possible (as opposed to probable) or if an estimate is not reasonably determinable, disclosure of a material claim or contingency is disclosed in the Notes to the Consolidated Financial Statements included in Item 8. Financial Statements and Supplementary Data.

Income Taxes

We account for income taxes under the asset and liability method. Under this method, taxes currently payable or refundable are accrued, and deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets are also recognized for realizable operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted income tax rates in effect for the year in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in income tax rates is recognized in our Consolidated Statement of Income in the period that includes the enactment date. A valuation allowance is recorded to reduce the carrying amounts of deferred tax assets if it is more likely than not that such assets will not be realized. U.S. deferred income taxes are not provided on undistributed income of foreign subsidiaries where such earnings are considered to be permanently reinvested for the foreseeable future.

Significant judgment is required in determining the provision for income taxes and related accruals, deferred tax assets and liabilities. In determining our provision for income taxes, we consider permanent differences between book and tax income and statutory income tax rates. Our effective income tax rate is affected by items including changes in tax law, the tax jurisdiction of new stores or business ventures and the level of earnings.

We follow the authoritative guidance included in ASC Topic 740, *Income Taxes*, which contains a two-step approach to recognizing and measuring uncertain tax positions. The first step is to evaluate the tax position for recognition by determining if the available evidence indicates it is more likely than not that the position will be sustained on audit, including resolution of related appeals or litigation processes, if any. The second step is to measure the tax benefit as the largest amount which is more than 50% likely of being realized upon ultimate settlement. We consider many factors when evaluating and estimating our tax positions and tax benefits, which may require periodic adjustments and for which actual outcomes may differ from forecasted outcomes. Our policy is to include interest and penalties related to uncertain tax positions in income tax expense.

Our income tax returns, like those of most companies, are periodically audited by domestic and foreign tax authorities. These audits include questions regarding our tax filing positions, including the timing and amount of deductions and the allocation of income among various tax jurisdictions. At any one time, multiple tax years are subject to audit by the various tax authorities. A number of years may elapse before a particular matter for which we have established an accrual is audited and fully resolved or clarified. We adjust our tax contingencies accrual and income tax provision in the period in which matters are effectively settled with tax authorities at amounts different from our established accrual, when the statute of limitations expires for the relevant taxing authority to examine the tax position or when more information becomes available.

Revenue Recognition

Company-owned Stores and Direct Channels

While our recognition of revenue does not involve significant judgment, revenue recognition represents an important accounting policy for our organization. We recognize revenue upon customer receipt of the

merchandise. We also provide a reserve for projected merchandise returns based on historical experience. For direct channel revenues, we estimate shipments that have not been received by the customer based on shipping terms and historical delivery times.

All of our brands sell gift cards with no expiration dates to customers in retail stores, through our direct channels and through third parties. We do not charge administrative fees on unused gift cards. We recognize revenue from gift cards when they are redeemed by the customer. In addition, we recognize revenue on unredeemed gift cards where the likelihood of the gift card being redeemed is remote and there is no legal obligation to remit the unredeemed gift cards to relevant jurisdictions (gift card breakage). Gift card breakage revenue is recognized in proportion, and over the same time period, as actual gift card redemptions. We determine the gift card breakage rate based on historical redemption patterns. Gift card breakage is included in Net Sales in our Consolidated Statements of Income.

Royalty and Other

We also recognize revenues associated with franchise, license and wholesale arrangements. Revenue recognized under franchise and license arrangements generally consists of royalties earned and recognized upon sale of merchandise by franchise and license partners to retail customers. Revenue is generally recognized under wholesale and sourcing arrangements at the time the title passes to the partner.

ASC 606, Revenue from Contracts with Customers

For additional information regarding future impacts as a result of our adoption of ASC 606 in the first quarter of fiscal 2018, refer to “Recently Issued Accounting Pronouncements” in Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Market Risk

The market risk inherent in our financial instruments represents the potential loss in fair value, earnings or cash flows arising from adverse changes in foreign currency exchange rates or interest rates. We may use derivative financial instruments like cross-currency swaps, foreign currency forward contracts and interest rate swap arrangements to manage exposure to market risks. We do not use derivative financial instruments for trading purposes.

Foreign Exchange Rate Risk

We have operations in foreign countries which expose us to market risk associated with foreign currency exchange rate fluctuations. Our Canadian dollar, British pound, Chinese yuan, Hong Kong dollar and Euro denominated earnings are subject to exchange rate risk as substantially all of our merchandise sold in Canada, the U.K., Ireland and Greater China is sourced through U.S. dollar transactions. Although we utilize foreign currency forward contracts to partially offset risks associated with Canadian dollar and British pound denominated earnings, these measures may not succeed in offsetting all of the short-term impact of foreign currency rate movements and generally may not be effective in offsetting the long-term impact of sustained shifts in foreign currency rates.

Further, although our royalty arrangements with our international partners are denominated in U.S. dollars, the royalties we receive in U.S. dollars are calculated based on sales in the local currency. As a result, our royalties in these arrangements are exposed to foreign currency exchange rate fluctuations.

Interest Rate Risk

Our investment portfolio primarily consists of interest-bearing instruments that are classified as cash and cash equivalents based on their original maturities. Our investment portfolio is maintained in accordance with our

investment policy, which specifies permitted types of investments, specifies credit quality standards and maturity profiles and limits credit exposure to any single issuer. The primary objective of our investment activities are the preservation of principal, the maintenance of liquidity and the maximization of interest income while minimizing risk. Typically, our investment portfolio is primarily comprised of U.S. government obligations, U.S. Treasury and AAA-rated money market funds, commercial paper and bank deposits. Given the short-term nature and quality of investments in our portfolio, we do not believe there is any material risk to principal associated with increases or decreases in interest rates.

All of our long-term debt as of February 3, 2018 has fixed interest rates. We will from time to time adjust our exposure to interest rate risk by entering into interest rate swap arrangements. Our exposure to interest rate changes is limited to the fair value of the debt issued, which would not have a material impact on our earnings or cash flows.

Fair Value of Financial Instruments

As of February 3, 2018, we believe that the carrying values of accounts receivable, accounts payable, accrued expenses and current debt approximate fair value because of their short maturity.

The following table provides a summary of the principal value and fair value of long-term debt, excluding foreign borrowings, and swap arrangements as of February 3, 2018 and January 28, 2017:

	February 3, 2018	January 28, 2017
	(in millions)	
Long-term Debt:		
Principal Value	\$5,750	\$5,750
Fair Value, Estimated (a)	5,943	6,030
Foreign Currency Cash Flow Hedges (b)	9	(17)
Interest Rate Fair Value Hedges (b)	—	(2)

(a) The estimated fair value is based on reported transaction prices. The estimates presented are not necessarily indicative of the amounts that we could realize in a current market exchange.

(b) Hedge arrangements are in a net liability (asset) position.

Concentration of Credit Risk

We maintain cash and cash equivalents and derivative contracts with various major financial institutions. We monitor the relative credit standing of financial institutions with whom we transact and limit the amount of credit exposure with any one entity. Typically, our investment portfolio is primarily comprised of U.S. government obligations, U.S. Treasury and AAA-rated money market funds, commercial paper and bank deposits. We also periodically review the relative credit standing of franchise, license and wholesale partners and other entities to which we grant credit terms in the normal course of business.

Management's Report on Internal Control Over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934. The Company's internal control system is designed to provide reasonable assurance to the Company's management and Board of Directors regarding the preparation and fair presentation of published financial statements. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Management assessed the effectiveness of the Company's internal control over financial reporting as of February 3, 2018. In making this assessment, management used the criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) (the COSO criteria).

Based on our assessment and the COSO criteria, management believes that the Company maintained effective internal control over financial reporting as of February 3, 2018.

The Company's independent registered public accounting firm, Ernst & Young LLP, has issued an attestation report on the Company's internal control over financial reporting. Ernst & Young LLP's report appears on the following page and expresses an unqualified opinion on the effectiveness of the Company's internal control over financial reporting as of February 3, 2018.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders of L Brands, Inc.:

Opinion on Internal Control over Financial Reporting

We have audited L Brands, Inc.'s internal control over financial reporting as of February 3, 2018, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) (the COSO criteria). In our opinion, L Brands, Inc. (the Company) maintained, in all material respects, effective internal control over financial reporting as of February 3, 2018, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Consolidated Balance Sheets of L Brands, Inc. as of February 3, 2018 and January 28, 2017 and the related Consolidated Statements of Income, Comprehensive Income, Total Equity (Deficit), and Cash Flows for each of the three years in the period ended February 3, 2018 of the Company and our report dated March 23, 2018 expressed an unqualified opinion thereon.

Basis for Opinion

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects.

Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and Limitation of Internal Control Over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders of L Brands, Inc.:

Opinion on the Financial Statements

We have audited the accompanying Consolidated Balance Sheets of L Brands, Inc. (the Company) as of February 3, 2018 and January 28, 2017, the related Consolidated Statements of Income, Comprehensive Income, Total Equity (Deficit), and Cash Flows for each of the three years in the period ended February 3, 2018, and the related notes (collectively referred to as the consolidated financial statements). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company at February 3, 2018 and January 28, 2017, and the results of its operations and its cash flows for each of the three years in the period ended February 3, 2018, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company's internal control over financial reporting as of February 3, 2018, based on the criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework), and our report dated March 23, 2018 expressed an unqualified opinion thereon.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

L BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Description of Business and Summary of Significant Accounting Policies

Description of Business

L Brands, Inc. (“the Company”) operates in the highly competitive specialty retail business. The Company is a specialty retailer of women’s intimate and other apparel, personal care, beauty and home fragrance products. The Company sells its merchandise through company-owned specialty retail stores in the U.S., Canada, U.K., Ireland and Greater China, which are primarily mall-based, and through its websites and other channels. The Company’s other international operations are primarily through franchise, license and wholesale partners. The Company currently operates the following retail brands:

- Victoria’s Secret
- PINK
- Bath & Body Works
- La Senza
- Henri Bendel

Fiscal Year

The Company’s fiscal year ends on the Saturday nearest to January 31. As used herein, “2017” refers to the 53-week period ended February 3, 2018. “2016” and “2015” refer to the 52-week periods ended January 28, 2017 and January 30, 2016, respectively.

Basis of Consolidation

The Consolidated Financial Statements include the accounts of the Company and its subsidiaries. All significant intercompany balances and transactions have been eliminated in consolidation.

The Company accounts for investments in unconsolidated entities where it exercises significant influence, but does not have control, using the equity method. Under the equity method of accounting, the Company recognizes its share of the investee’s net income or loss. Losses are only recognized to the extent the Company has positive carrying value related to the investee. Carrying values are only reduced below zero if the Company has an obligation to provide funding to the investee. The Company’s share of net income or loss of unconsolidated entities from which the Company purchases merchandise or merchandise components is included in Costs of Goods Sold, Buying and Occupancy on the Consolidated Statements of Income. The Company’s share of net income or loss of all other unconsolidated entities is included in Other Income (Loss) on the Consolidated Statements of Income. The Company’s equity investments are required to be reviewed for impairment when it is determined there may be an other than temporary loss in value.

Cash and Cash Equivalents

Cash and Cash Equivalents include cash on hand, demand deposits with financial institutions and highly liquid investments with original maturities of less than 90 days. The Company’s outstanding checks, which totaled \$14 million as of February 3, 2018 and \$5 million as of January 28, 2017, are included in Accounts Payable on the Consolidated Balance Sheets.

Concentration of Credit Risk

The Company maintains cash and cash equivalents and derivative contracts with various major financial institutions. The Company monitors the relative credit standing of financial institutions with whom the Company

transacts and limits the amount of credit exposure with any one entity. Typically, the Company's investment portfolio is primarily comprised of U.S. government obligations, U.S. Treasury and AAA-rated money market funds, commercial paper and bank deposits.

The Company also periodically reviews the relative credit standing of franchise, license and wholesale partners and other entities to which the Company grants credit terms in the normal course of business. The Company records an allowance for uncollectable accounts when it becomes probable that the counterparty will be unable to pay.

Marketable Equity Securities

The Company has marketable equity securities which are classified as available-for-sale. The Company determines the appropriate classification of investments in equity securities at the acquisition date and re-evaluates the classification at each balance sheet date. These investments are recorded at fair value in other current assets on the Consolidated Balance Sheets, and unrealized holding gains and losses are recorded, net of tax, as a component of accumulated other comprehensive income.

Inventories

Inventories are principally valued at the lower of cost or net realizable value, on a weighted-average cost basis.

The Company records valuation adjustments to its inventories if the cost of inventory on hand exceeds the amount it expects to realize from the ultimate sale or disposal of the inventory. These estimates are based on management's judgment regarding future demand and market conditions and analysis of historical experience.

The Company also records inventory loss adjustments for estimated physical inventory losses that have occurred since the date of the last physical inventory. These estimates are based on management's analysis of historical results and operating trends.

Advertising Costs

Advertising and catalogue costs are expensed at the time the promotion first appears in media, in the store or when the advertising is mailed. Advertising and catalogue costs totaled \$383 million for 2017, \$325 million for 2016 and \$414 million for 2015.

Property and Equipment

The Company's property and equipment are recorded at cost and depreciation/amortization is computed on a straight-line basis using the following depreciable life ranges:

Category of Property and Equipment	Depreciable Life Range
Software, including software developed for internal use	3 - 7 years
Store related assets	3 - 10 years
Leasehold improvements	Shorter of lease term or 10 years
Non-store related building and site improvements	10 - 15 years
Other property and equipment	20 years
Buildings	30 years

When a decision has been made to dispose of property and equipment prior to the end of the previously estimated useful life, depreciation estimates are revised to reflect the use of the asset over the shortened estimated useful life. The Company's cost of assets sold or retired and the related accumulated depreciation are removed from the accounts with any resulting gain or loss included in net income. Maintenance and repairs are charged to expense as incurred. Major renewals and betterments that extend useful lives are capitalized.

Property and equipment are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable. Assets are grouped at the lowest level for which they are largely independent of other assets or asset groups. If the estimated undiscounted future cash flows related to the asset or asset group are less than the carrying value, the Company recognizes a loss equal to the difference between the carrying value and the estimated fair value, usually determined by the estimated discounted future cash flows of the asset or asset group.

Goodwill and Intangible Assets

The Company has certain intangible assets resulting from business combinations and acquisitions that are recorded at cost. Intangible assets with finite lives are amortized on a straight-line basis over their respective estimated useful lives.

Intangible assets with finite lives are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable. If the estimated undiscounted future cash flows related to the asset are less than the carrying value, the Company recognizes a loss equal to the difference between the carrying value and the estimated fair value, usually determined by the estimated discounted future cash flows of the asset.

Goodwill is reviewed for impairment each year in the fourth quarter and may be reviewed more frequently if certain events occur or circumstances change. First, the Company performs a qualitative assessment to determine whether it is more likely than not that each reporting unit's fair value is less than its carrying value, including goodwill. If the Company determines that it is more likely than not that the fair value of the reporting unit is less than its carrying value, the Company then estimates the fair value of all assets and liabilities of that reporting unit, including the implied fair value of goodwill, through either estimated discounted future cash flows or market-based methodologies. If the carrying value of goodwill exceeds the implied fair value, the Company recognizes an impairment charge equal to the difference. The Company's reporting units are determined in accordance with the provisions of ASC Topic 350, *Intangibles—Goodwill and Other*. The Company's reporting units that have goodwill are Victoria's Secret Stores, Victoria's Secret Direct, Bath & Body Works Stores and Greater China.

Intangible assets with indefinite lives are reviewed for impairment each year in the fourth quarter and may be reviewed more frequently if certain events occur or circumstances change. The Company first performs a qualitative assessment to determine whether it is more likely than not that the indefinite-lived intangible asset is impaired. If the Company determines that it is more likely than not that the fair value of the asset is less than its carrying amount, the Company will estimate the fair value, usually determined by the estimated discounted future cash flows of the asset, compare that value with its carrying amount and record an impairment charge, if any.

If future economic conditions are different than those projected by management, future impairment charges may be required.

Leases and Leasehold Improvements

The Company has leases that contain predetermined fixed escalations of minimum rentals and/or rent abatements subsequent to taking possession of the leased property. The Company recognizes the related rent expense on a straight-line basis commencing upon the store possession date. The Company records the difference between the recognized rental expense and amounts payable under the leases as deferred lease credits. The Company's liability for predetermined fixed escalations of minimum rentals and/or rent abatements totaled \$210 million as of February 3, 2018 and \$191 million as of January 28, 2017. These liabilities are included in Other Long-term Liabilities on the Consolidated Balance Sheets.

The Company receives construction allowances from landlords related to its retail stores. These allowances are generally comprised of cash amounts received by the Company from its landlords as part of the negotiated lease

terms. The Company records a receivable and a landlord allowance at the lease commencement date (date of initial possession of the store). The landlord allowance is amortized on a straight-line basis as a reduction of rent expense over the term of the lease (including the pre-opening build-out period), and the receivable is reduced as amounts are received from the landlord. The Company's unamortized portion of landlord allowances, which totaled \$293 million as of February 3, 2018 and \$279 million as of January 28, 2017, is included in Other Long-term Liabilities on the Consolidated Balance Sheets.

The Company also has leasehold improvements which are amortized over the shorter of their estimated useful lives or the period from the date the assets are placed in service to the end of the initial lease term. Leasehold improvements made after the inception of the initial lease term are depreciated over the shorter of their estimated useful lives or the remaining lease term, including renewal periods, if reasonably assured.

Foreign Currency Translation

The functional currency of the Company's foreign operations is generally the applicable local currency. Assets and liabilities are translated into U.S. dollars using the current exchange rates in effect as of the balance sheet date, while revenues and expenses are translated at the average exchange rates for the period. The Company's resulting translation adjustments are recorded as a component of Comprehensive Income in the Consolidated Statements of Comprehensive Income and the Consolidated Statements of Total Equity (Deficit).

Derivative Financial Instruments

The Company uses derivative financial instruments to manage exposure to foreign currency exchange rates and interest rates. The Company does not use derivative instruments for trading purposes. All derivative instruments are recorded on the Consolidated Balance Sheets at fair value.

For derivative financial instruments that are designated and qualify as cash flow hedges, the effective portion of the gain or loss on the derivative instrument is reported as a component of accumulated other comprehensive income (loss) in shareholders' equity and reclassified into earnings in the same period during which the hedged item affects earnings. Gains and losses that are reclassified into earnings are recognized in the same line item on the Consolidated Statement of Income as the underlying hedged item. Gains and losses on the derivative representing hedge ineffectiveness, if any, are recognized in current earnings.

For derivative financial instruments that are designated and qualify as fair value hedges, the change in the fair value of the derivative instrument has an equal and offsetting impact to the carrying value of the liability on the balance sheet.

For derivative financial instruments that are not designated as hedging instruments, the gain or loss on the derivative instrument is recognized in current earnings in Other Income (Loss) on the Consolidated Statements of Income.

Fair Value

The authoritative guidance included in ASC Topic 820, *Fair Value Measurement*, defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. This authoritative guidance further establishes a three-level fair value hierarchy that prioritizes the inputs used to measure fair value. This hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of inputs used to measure fair value are as follows:

- Level 1—Quoted market prices in active markets for identical assets or liabilities.
- Level 2—Observable inputs other than quoted market prices included in Level 1, such as quoted prices of similar assets and liabilities in active markets; quoted prices for identical or similar assets and

liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

- Level 3—Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets and liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

The Company estimates the fair value of financial instruments, property and equipment and goodwill and intangible assets in accordance with the provisions of ASC Topic 820.

Income Taxes

The Company accounts for income taxes under the asset and liability method. Under this method, taxes currently payable or refundable are accrued, and deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets are also recognized for realizable operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted income tax rates in effect for the year in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in income tax rates is recognized in the Company's Consolidated Statement of Income in the period that includes the enactment date. A valuation allowance is recorded to reduce the carrying amounts of deferred tax assets if it is more likely than not that such assets will not be realized. U.S. deferred income taxes are not provided on undistributed income of foreign subsidiaries where such earnings are considered to be permanently reinvested for the foreseeable future.

In determining the Company's provision for income taxes, the Company considers permanent differences between book and tax income and statutory income tax rates. The Company's effective income tax rate is affected by items including changes in tax law, the tax jurisdiction of new stores or business ventures and the level of earnings.

The Company follows a two-step approach to recognizing and measuring uncertain tax positions. The first step is to evaluate the tax position for recognition by determining if the available evidence indicates it is more likely than not that the position will be sustained on audit, including resolution of related appeals or litigation processes, if any. The second step is to measure the tax benefit as the largest amount which is more than 50% likely of being realized upon ultimate settlement. The Company considers many factors when evaluating and estimating its tax positions and tax benefits, which may require periodic adjustments and for which actual outcomes may differ from forecasted outcomes.

The Company's income tax returns, like those of most companies, are periodically audited by domestic and foreign tax authorities. These audits include questions regarding the Company's tax filing positions, including the timing and amount of deductions and the allocation of income among various tax jurisdictions. At any one time, multiple tax years are subject to audit by the various tax authorities. A number of years may elapse before a particular matter for which the Company has established an accrual is audited and fully resolved or clarified. The Company adjusts its tax contingencies accrual and income tax provision in the period in which matters are effectively settled with tax authorities at amounts different from its established accrual, when the statute of limitations expires for the relevant taxing authority to examine the tax position or when more information becomes available. The Company includes its tax contingencies accrual, including accrued penalties and interest, in Other Long-term Liabilities on the Consolidated Balance Sheets unless the liability is expected to be paid within one year. Changes to the tax contingencies accrual, including accrued penalties and interest, are included in Provision for Income Taxes on the Consolidated Statements of Income.

Self-Insurance

The Company is self-insured for medical, workers' compensation, property, general liability and automobile liability up to certain stop-loss limits. Such costs are accrued based on known claims and an estimate of incurred

but not reported (“IBNR”) claims. IBNR claims are estimated using historical claim information and actuarial estimates.

Noncontrolling Interest

Noncontrolling interest represents the portion of equity interests of consolidated affiliates not owned by the Company.

Share-based Compensation

The Company recognizes all share-based payments to employees and directors as compensation cost over the service period based on their estimated fair value on the date of grant. The Company estimates award forfeitures at the time awards are granted and adjusts, if necessary, in subsequent periods based on historical experience and expected future forfeitures.

Compensation cost is recognized over the service period for the fair value of awards that actually vest. Compensation expense for awards without a performance condition is recognized, net of estimated forfeitures, using a single award approach (each award is valued as one grant, irrespective of the number of vesting tranches). Compensation expense for awards with a performance condition is recognized, net of estimated forfeitures, using a multiple award approach (each vesting tranche is valued as one grant).

Revenue Recognition

The Company recognizes revenue upon customer receipt of the merchandise, which for direct channel revenues reflects an estimate of shipments that have not yet been received by the customer based on shipping terms and historical delivery times. The Company’s shipping and handling revenues are included in Net Sales with the related costs included in Costs of Goods Sold, Buying and Occupancy on the Consolidated Statements of Income. The Company also provides a reserve for projected merchandise returns based on historical experience. Net Sales exclude sales tax collected from customers.

All of the Company’s brands sell gift cards with no expiration dates to customers in retail stores, through direct channels and through third parties. The Company does not charge administrative fees on unused gift cards. The Company recognizes revenue from gift cards when they are redeemed by the customer. In addition, the Company recognizes revenue on unredeemed gift cards where the likelihood of the gift card being redeemed is remote and there is no legal obligation to remit the unredeemed gift cards to relevant jurisdictions (gift card breakage). Gift card breakage revenue is recognized in proportion, and over the same time period, as actual gift card redemptions. The Company determines the gift card breakage rate based on historical redemption patterns. Gift card breakage is included in Net Sales on the Consolidated Statements of Income.

The Company also recognizes revenues associated with franchise, license and wholesale arrangements. Revenue recognized under franchise and license arrangements generally consists of royalties earned and recognized upon sale of merchandise by franchise and license partners to retail customers. Revenue is generally recognized under wholesale and sourcing arrangements at the time the title passes to the partner.

For additional information regarding future impacts as a result of the Company’s adoption of ASC 606 in the first quarter of fiscal 2018, refer to Note 2, “New Accounting Pronouncements.”

Costs of Goods Sold, Buying and Occupancy

The Company’s costs of goods sold include merchandise costs, net of discounts and allowances, freight and inventory shrinkage. The Company’s buying and occupancy expenses primarily include payroll, benefit costs and operating expenses for its buying departments and distribution network, rent, common area maintenance, real estate taxes, utilities, maintenance, fulfillment expenses and depreciation for the Company’s stores, warehouse facilities and equipment.

General, Administrative and Store Operating Expenses

The Company's general, administrative and store operating expenses primarily include payroll and benefit costs for its store-selling and administrative departments (including corporate functions), marketing, advertising and other operating expenses not specifically categorized elsewhere in the Consolidated Statements of Income.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period, as well as the related disclosure of contingent assets and liabilities at the date of the financial statements. Actual results may differ from those estimates, and the Company revises its estimates and assumptions as new information becomes available.

2. New Accounting Pronouncements

Share-Based Compensation

In the first quarter of 2017, the Company adopted ASU No. 2016-09, *Improvements to Employee Share-Based Payment Accounting*. On a prospective basis, this standard requires recognition of the income tax effects of share-based awards in the income statement when the awards vest or are exercised. These effects were historically recorded in equity on the balance sheet. As a result, the Company recognized \$13 million of excess tax benefits related to share-based awards in Provision for Income Taxes in the 2017 Consolidated Statement of Income. The standard also requires all tax-related cash flows from share-based awards to be reported as operating activities on the statements of cash flows and any cash payments made to taxing authorities on an employee's behalf from withheld shares as financing activities. The retrospective application of these changes resulted in a \$100 million increase in operating cash flows and a corresponding decrease to financing cash flows on the 2016 Consolidated Statement of Cash Flows and a \$158 million increase in operating cash flows and a corresponding decrease to financing cash flows on the 2015 Consolidated Statement of Cash Flows. Further, as allowed by the standard, the Company will continue to estimate award forfeitures at the time awards are granted and adjust, if necessary, in subsequent periods based on historical experience and expected future forfeiture rates.

Revenue from Contracts with Customers

In May 2014, the FASB issued ASC 606, *Revenue from Contracts with Customers*, which was further clarified and amended in 2015 and 2016. This guidance requires companies to recognize revenue in a manner that depicts the transfer of promised goods or services to customers in amounts that reflect the consideration to which a company expects to be entitled in exchange for those goods or services. The new standard also will result in enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. This guidance will be effective beginning in fiscal 2018. The standard allows for either a full retrospective or a modified retrospective transition method.

The Company will adopt the standard in the first quarter of fiscal 2018 under the modified retrospective approach. Under the new standard, income from the Victoria's Secret private label credit card arrangement, which has historically been presented as a reduction to General, Administrative and Store Operating Expenses, will be presented as revenue. Further, current accounting related to loyalty points earned under the Victoria's Secret customer loyalty program will change as the Company will begin to defer revenue associated with customer loyalty points until the points are redeemed using a relative stand-alone selling price method. The new standard will also change accounting for sales returns which requires balance sheet presentation on a gross basis.

In the first quarter of fiscal 2018, the Company will record a cumulative catch-up adjustment resulting in a reduction to opening retained earnings, net of tax, of approximately \$28 million primarily relating to the deferral of revenue related to outstanding points, net of estimated forfeitures, under the Victoria's Secret customer loyalty program.

Fair Value of Financial Instruments

In January 2016, the FASB issued ASU 2016-01, *Financial Instruments—Overall: Recognition and Measurement of Financial Assets and Financial Liabilities*, which addresses certain aspects of the recognition, measurement, presentation and disclosure of financial instruments. The standard requires the recognition of changes in the fair value of marketable equity securities in net income as compared to today's treatment in accumulated other comprehensive income on the balance sheet. The Company will adopt the standard in the first quarter of fiscal 2018 and record an increase to opening retained earnings, net of tax, of \$2 million.

Leases

In February 2016, the FASB issued ASC 842, *Leases*, which requires companies classified as lessees to put most leases on their balance sheets but recognize expenses on their income statements in a manner similar to today's accounting. The new standard also will result in enhanced quantitative and qualitative disclosures, including significant judgments made by management, to provide greater insight into the extent of revenue and expense recognized and expected to be recognized from existing leases. The standard currently requires a modified retrospective transition approach. In January 2018, the FASB issued an exposure draft that would provide companies an option that would not require earlier periods to be restated upon adoption. The standard is effective beginning in fiscal 2019, with early adoption permitted.

The Company is currently evaluating the impacts that this standard will have on its Consolidated Statements of Income and Comprehensive Income, Balance Sheets and Statements of Cash Flows. The Company currently expects that most of its operating lease commitments will be recognized as operating lease liabilities and right-of-use assets upon adoption of the standard. Thus, the Company expects adoption will result in a material increase to the assets and liabilities on the Consolidated Balance Sheet. The Company will adopt the standard in the first quarter of fiscal 2019.

Hedging Activities

In August 2017, the FASB issued ASU 2017-12, *Targeted Improvements to Accounting for Hedging Activities*, which is intended to better align risk management activities and financial reporting for hedging relationships. The new standard eliminates the requirement to separately measure and report hedge ineffectiveness and generally requires the entire change in the fair value of a hedging instrument to be presented in the same income statement line as the hedged item. It also eases certain documentation and assessment requirements. This guidance will be effective beginning in fiscal 2019, with early adoption permitted. The Company is currently evaluating the impact of this standard on its Consolidated Statements of Income and Comprehensive Income, Balance Sheets and Statements of Cash Flows.

3. Earnings Per Share

Earnings per basic share is computed based on the weighted-average number of outstanding common shares. Earnings per diluted share include the weighted-average effect of dilutive options and restricted stock on the weighted-average shares outstanding.

The following table provides shares utilized for the calculation of basic and diluted earnings per share for 2017, 2016 and 2015:

	<u>2017</u>	<u>2016</u>	<u>2015</u>
	(in millions)		
Weighted-average Common Shares:			
Issued Shares (a)	308	314	312
Treasury Shares (a)	<u>(24)</u>	<u>(27)</u>	<u>(21)</u>
Basic Shares	284	287	291
Effect of Dilutive Options and Restricted Stock	<u>3</u>	<u>4</u>	<u>6</u>
Diluted Shares	<u>287</u>	<u>291</u>	<u>297</u>
Anti-dilutive Options and Awards (b)	4	2	1

(a) In November 2017, the Company retired 36 million shares of its Treasury Stock.

(b) These options and awards were excluded from the calculation of diluted earnings per share because their inclusion would have been anti-dilutive.

4. Acquisition

On April 18, 2016, the Company completed the acquisition of 100% of the shares of American Beauty Limited for a total purchase price of \$44 million. This agreement included the reacquisition of the franchise rights from one of our partners to operate Victoria's Secret Beauty and Accessories stores in Greater China, including 26 stores already open at the time of acquisition. The purchase price included \$10 million in forgiveness of liabilities owed to the Company from the pre-existing relationship. As a result of this acquisition, the Company's financial statements include the financial results of American Beauty Limited, which are reported as part of the Victoria's Secret and Bath & Body Works International segment.

The total purchase price was allocated to the net tangible and intangible assets acquired based on their estimated fair value. Such estimated fair values require management to make estimates and judgments, especially with respect to intangible assets. The allocation of the purchase price to goodwill was complete as of the second quarter of 2016. Goodwill related to the acquisition is not deductible for tax purposes.

The allocation of the purchase price to the fair value of assets acquired and liabilities assumed is as follows:

	(in millions)
Cash and Cash Equivalents	\$ 1
Inventories	3
Property and Equipment	10
Goodwill	30
Other Assets	3
Current Liabilities	<u>(3)</u>
Net Assets Acquired	<u>\$ 44</u>
Forgiveness of Liabilities Owed to the Company	<u>(10)</u>
Consideration Paid	<u>\$ 34</u>

5. Restructuring Activities

During the first quarter of 2016, the Company made strategic changes within the Victoria's Secret segment designed to focus the brand on its core merchandise categories, streamline operations and emphasize brand building and loyalty-enhancing marketing and advertising rather than using traditional catalogues and offers. As

a result of these actions, the Company recorded charges related to cancellations of fabric commitments for non-go forward merchandise and a reserve against paper that was previously intended for future catalogues. These costs, totaling \$11 million, including non-cash charges of \$10 million, are included in Costs of Goods Sold, Buying and Occupancy on the 2016 Consolidated Statement of Income. These actions also resulted in the elimination of approximately 200 positions primarily in the Company's Ohio and New York home offices. Severance and related costs associated with these eliminations, totaling \$24 million, are included in General, Administrative and Store Operating Expenses on the 2016 Consolidated Statement of Income. The Company recognized a total pre-tax charge of \$35 million for these items in the first quarter of 2016. The remaining liability for unpaid severance and related costs was not significant as of February 3, 2018.

6. Inventories

The following table provides details of inventories as of February 3, 2018 and January 28, 2017:

	February 3, 2018	January 28, 2017
	(in millions)	
Finished Goods Merchandise	\$1,121	\$ 982
Raw Materials and Merchandise Components	119	114
Total Inventories	<u>\$1,240</u>	<u>\$1,096</u>

7. Property and Equipment, Net

The following table provides details of property and equipment, net as of February 3, 2018 and January 28, 2017:

	February 3, 2018	January 28, 2017
	(in millions)	
Land and Improvements	\$ 116	\$ 113
Buildings and Improvements	484	476
Furniture, Fixtures, Software and Equipment	3,757	3,560
Leasehold Improvements	2,251	2,044
Construction in Progress	79	89
Total	6,687	6,282
Accumulated Depreciation and Amortization	(3,794)	(3,541)
Property and Equipment, Net	<u>\$ 2,893</u>	<u>\$ 2,741</u>

Depreciation expense was \$571 million in 2017, \$518 million in 2016 and \$457 million in 2015.

In 2016 and 2015, the Company completed sale and leaseback transactions under noncancellable operating leases of certain assets. The carrying value of assets sold under these arrangements was \$51 million and \$177 million for 2016 and 2015, respectively. Proceeds of \$51 million and \$178 million are included in Proceeds from Sale of Assets within the Investing Activities section of the Consolidated Statements of Cash Flows. For additional information, see Note 17, "Commitments and Contingencies."

8. Goodwill and Trade Names

Goodwill

The following table provides detail regarding the composition of goodwill for the fiscal years ended February 3, 2018 and January 28, 2017:

	February 3, 2018	January 28, 2017
	(in millions)	
Victoria's Secret	\$ 690	\$ 690
Bath & Body Works	628	628
Victoria's Secret and Bath & Body Works International	30	30
Goodwill	<u>\$1,348</u>	<u>\$1,348</u>

In 2016, the Company reacquired from one of its partners the franchise rights to operate Victoria's Secret Beauty and Accessories stores in Greater China, including 26 stores already open at the time of acquisition. As a result of the acquisition, the Company recognized \$30 million of goodwill within the Victoria's Secret and Bath & Body Works International reportable segment. For additional information, see Note 4, "Acquisition."

The Company tests for goodwill impairment at the reporting unit level. The Company's reporting units with goodwill balances at February 3, 2018 were Victoria's Secret Stores, Victoria's Secret Direct, Bath & Body Works Stores and Greater China.

Intangible Assets—Indefinite Lives

Intangible assets with indefinite lives represent the Victoria's Secret and Bath & Body Works trade names. The following table provides additional detail regarding the composition of trade names as of February 3, 2018 and January 28, 2017:

	February 3, 2018	January 28, 2017
	(in millions)	
Victoria's Secret	\$246	\$246
Bath & Body Works	165	165
Trade Names	<u>\$411</u>	<u>\$411</u>

9. Equity Investments and Other

Third-party Apparel Sourcing Business

In 2015, the Company divested its remaining ownership interest in its third-party apparel sourcing business. The Company received cash proceeds of \$85 million and recognized a pre-tax gain of \$78 million (after-tax gain of \$69 million). The gain is included in Other Income (Loss) in the 2015 Consolidated Statement of Income, and the cash proceeds are included in Proceeds from Divestiture of Third-party Apparel Sourcing Business within the Investing Activities section of the 2015 Consolidated Statement of Cash Flows.

Easton Investments

The Company has land and other investments in Easton, a planned community in Columbus, Ohio, that integrates office, hotel, retail, residential and recreational space. These investments, totaling \$81 million as of February 3, 2018 and \$79 million as of January 28, 2017, are recorded in Other Assets on the Consolidated Balance Sheets.

Included in the Company's Easton investments are equity interests in Easton Town Center, LLC ("ETC") and Easton Gateway, LLC ("EG"), entities that own and develop commercial entertainment and shopping centers. The Company's investments in ETC and EG are accounted for using the equity method of accounting. The Company has a majority financial interest in ETC and EG, but another unaffiliated member manages them, and certain significant decisions regarding ETC and EG require the consent of unaffiliated members in addition to the Company.

During 2017, the Company received cash distributions of \$29 million from certain of its Easton investments. As a result, the Company recognized pre-tax gains totaling \$20 million which are included in Other Income (Loss) on the 2017 Consolidated Statement of Income, and the return of capital is included within the Investing Activities section of the 2017 Consolidated Statement of Cash Flows.

In July 2016, ETC refinanced its bank loan. In conjunction with the loan refinancing, the Company received a cash distribution from ETC of \$124 million and recognized a pre-tax gain of \$108 million (after-tax gain of \$70 million). The gain is included in Other Income (Loss) on the 2016 Consolidated Statement of Income and the return of capital is included within the Investing Activities section of the 2016 Consolidated Statement of Cash Flows.

10. Accrued Expenses and Other

The following table provides additional information about the composition of accrued expenses and other as of February 3, 2018 and January 28, 2017:

	February 3, 2018	January 28, 2017
	(in millions)	
Deferred Revenue, Principally from Gift Card Sales	\$ 267	\$259
Compensation, Payroll Taxes and Benefits	196	191
Taxes, Other than Income	102	82
Interest	101	99
Rent	43	48
Accrued Claims on Self-insured Activities	37	35
Returns Reserve	20	21
Other	263	262
Total Accrued Expenses and Other	<u>\$1,029</u>	<u>\$997</u>

11. Income Taxes

Current income tax expense represents the amounts expected to be reported on the Company's income tax returns, and deferred tax expense or benefit represents the change in net deferred tax assets and liabilities. Deferred tax assets and liabilities are determined based on the difference between the financial statement and tax bases of assets and liabilities as measured by the enacted tax rates that will be in effect when these differences reverse. Valuation allowances are recorded as appropriate to reduce deferred tax assets to the amount considered likely to be realized.

On December 22, 2017, the Tax Cuts and Jobs Act (the "TCJA") was enacted into law. The legislation significantly changes U.S. tax law by, among other things, lowering corporate income tax rates and imposing a repatriation tax on deemed repatriated earnings of foreign subsidiaries. The TCJA reduces the U.S. corporate income tax rate from a maximum of 35% to a flat 21% rate, effective January 1, 2018. This results in an effective statutory tax rate of 33.7% for the Company for the year ended February 3, 2018.

On December 22, 2017, the SEC staff issued Staff Accounting Bulletin No. 118 (“SAB 118”) to address the application of GAAP in situations when a registrant does not have the necessary information available, prepared or analyzed (including computations) in reasonable detail to complete the accounting for certain income tax effects of the TCJA. The ultimate impact may differ from provisional amounts, due to changes in interpretations and assumptions the Company has made regarding application of the TCJA as well as additional regulatory guidance that may be issued. The Company has recognized the following provisional tax impacts and included these amounts in its consolidated financial statements for the year ended February 3, 2018.

As a result of the reduction in the U.S. corporate income tax rate from 35% to 21% under the TCJA, the Company revalued its ending net deferred tax liabilities at February 3, 2018 and recognized a provisional \$159 million tax benefit in the Company’s Consolidated Statement of Income for the year ended February 3, 2018.

The TCJA provided for a one-time deemed mandatory repatriation of post-1986 undistributed foreign subsidiary earnings and profits (“E&P”) determined as of December 31, 2017. The Company had an estimated \$704 million of undistributed foreign E&P subject to the deemed mandatory repatriation and recognized a provisional \$67 million of income tax expense in the Company’s Consolidated Statement of Income for the year ended February 3, 2018, which is payable over eight years. The amount payable in excess of one year, totaling \$61 million, is included within Other Long-term Liabilities on the February 3, 2018 Consolidated Balance Sheet.

Beginning in 2018, the TCJA includes a new global intangible low-taxed income (“GILTI”) provision that requires the Company to include in its U.S. income tax return foreign subsidiary earnings in excess of an allowable return on the foreign subsidiary’s tangible assets. The Company has elected to account for GILTI tax in the period in which it is incurred, and therefore has not provided any deferred tax impacts of GILTI in its consolidated financial statements for the year ended February 3, 2018.

The following table provides the components of the Company’s provision for income taxes for fiscal 2017, 2016 and 2015:

	<u>2017</u>	<u>2016</u>	<u>2015</u>
	(in millions)		
Current:

Total	<u>(108)</u>	<u>110</u>	<u>11</u>
Provision for Income Taxes	<u>\$ 329</u>	<u>\$538</u>	<u>\$681</u>

The non-U.S. component of pre-tax income, arising principally from overseas operations, was income of \$99 million, \$134 million and \$267 million for 2017, 2016 and 2015, respectively.

The Company’s income taxes payable reflects the tax effects from employee stock plan awards. For stock options, the taxes payable includes the tax effect of the difference between the fair market value of the stock at the time of grant and exercise. For restricted stock, the taxes payable includes the tax effect of the difference between the fair market value of the stock at the time of grant and vesting. In the first quarter of 2017, the Company adopted the new share-based compensation standard that requires prospective recognition of excess tax

effects in the income statement when awards vest or are exercised. As a result, a tax benefit of \$13 million was recognized in the income tax provision for the year ended February 3, 2018. The Company had net excess tax benefits from equity awards of \$42 million and \$70 million in 2016 and 2015, respectively, which were reflected as increases to equity.

The following table provides the reconciliation between the statutory federal income tax rate and the effective tax rate for fiscal 2017, 2016 and 2015:

	<u>2017</u>	<u>2016</u>	<u>2015</u>

Deferred Taxes

The following table provides the effect of temporary differences that cause deferred income taxes as of February 3, 2018 and January 28, 2017. Deferred tax assets and liabilities represent the future effects on income taxes resulting from temporary differences and carryforwards at the end of the respective year.

As of February 3, 2018, the Company had available for state income tax purposes net operating loss carryforwards which expire, if unused, in the years 2018 through 2037. For those states where the Company has determined that it is more likely than not that the state net operating loss carryforwards will not be realized, a valuation allowance has been provided.

As of February 3, 2018, the Company had available for non-U.S. tax purposes net operating loss carryforwards which expire, if unused, in the years 2028 through 2036. For certain jurisdictions where the Company has determined that it is more likely than not that the net operating loss carryforwards will not be realized, a valuation allowance has been provided on those net operating loss carryforwards as well as other net deferred tax assets.

Income tax payments were \$494 million for 2017, \$469 million for 2016 and \$507 million for 2015.

Uncertain Tax Positions

The following table summarizes the activity related to the Company's unrecognized tax benefits for U.S. federal, state & non-U.S. tax jurisdictions for 2017, 2016 and 2015, without interest and penalties:

	<u>2017</u>	<u>2016</u>	<u>2015</u>
	(in millions)		
Gross Unrecognized Tax Benefits, as of the Beginning of the Fiscal Year	\$ 90	\$248	\$193
Increases in Unrecognized Tax Benefits for Prior Years	3	3	8
Decreases in Unrecognized Tax Benefits for Prior Years	(22)	(73)	(3)
Increases in Unrecognized Tax Benefits as a Result of Current Year Activity	7	18	54
Decreases to Unrecognized Tax Benefits Relating to Settlements with Taxing Authorities	(2)	(98)	—
Decreases to Unrecognized Tax Benefits as a Result of a Lapse of the Applicable Statute of Limitations	(9)	(8)	(4)
Gross Unrecognized Tax Benefits, as of the End of the Fiscal Year	<u>\$ 67</u>	<u>\$ 90</u>	<u>\$248</u>

Of the \$67 million, \$90 million and \$248 million of total unrecognized tax benefits at February 3, 2018, January 28, 2017, and January 30, 2016, respectively, approximately \$46 million, \$62 million and \$217 million, respectively, represent the amount of unrecognized tax benefits that, if recognized, would favorably affect the effective income tax rate in future periods. These amounts are net of the offsetting tax effects from other tax jurisdictions.

Of the total unrecognized tax benefits, it is reasonably possible that \$12 million could change in the next 12 months due to audit settlements, expiration of statute of limitations or other resolution of uncertainties. Due to the uncertain and complex application of tax regulations, it is possible that the ultimate resolution of audits may result in amounts which could be different from this estimate. In such case, the Company will record additional tax expense or tax benefit in the period in which such matters are effectively settled.

The Company recognizes interest and penalties related to unrecognized tax benefits as components of income tax expense. The Company recognized interest and penalties expense (benefit) of \$(2) million, \$(3) million and \$7 million in 2017, 2016 and 2015, respectively. The Company has accrued \$17 million and \$20 million for the payment of interest and penalties as of February 3, 2018 and January 28, 2017, respectively. Accrued interest and penalties are included within Other Long-term Liabilities on the Consolidated Balance Sheets.

The Company files U.S. federal income tax returns as well as income tax returns in various states and in non-U.S. jurisdictions. The Company is a participant in the Compliance Assurance Process ("CAP"), which is a program made available by the Internal Revenue Service ("IRS") to certain qualifying large taxpayers, under which participants work collaboratively with the IRS to identify and resolve potential tax issues through open, cooperative and transparent interaction prior to the annual filing of their federal income tax return. The IRS is currently examining the Company's 2016 consolidated U.S. federal income tax return.

The Company is also subject to various U.S. state and local income tax examinations for the years 2010 to 2016. Finally, the Company is subject to multiple non-U.S. tax jurisdiction examinations for the years 2007 to 2016. In some situations, the Company determines that it does not have a filing requirement in a particular tax jurisdiction. Where no return has been filed, no statute of limitations applies. Accordingly, if a tax jurisdiction reaches a conclusion that a filing requirement does exist, additional years may be reviewed by the tax authority. The Company believes it has appropriately accounted for uncertainties related to this issue.

12. Long-term Debt and Borrowing Facilities

The following table provides the Company's debt balance, net of unamortized debt issuance costs and discounts, as of February 3, 2018 and January 28, 2017:

	February 3, 2018	January 28, 2017
	(in millions)

Cash paid for interest was \$391 million in 2017, \$387 million in 2016 and \$317 million in 2015.

Issuance of Notes

In January 2018, the Company issued \$500 million of 5.25% notes due in February 2028. The obligation to pay principal and interest on these notes is jointly and severally guaranteed on a full and unconditional basis by certain of the Company's 100% owned subsidiaries (the "Guarantors"). The proceeds from the issuance were \$495 million, which were net of issuance costs of \$5 million. These issuance costs are being amortized through the maturity date of February 2028 and are included within Long-term Debt on the February 3, 2018 Consolidated Balance Sheet.

In June 2016, the Company issued \$700 million of 6.75% notes due in July 2036. The obligation to pay principal and interest on these notes is jointly and severally guaranteed on a full and unconditional basis by the Guarantors. The proceeds from the issuance were \$692 million, which were net of issuance costs of \$8 million. These issuance costs are being amortized through the maturity date of July 2036 and are included within Long-term Debt on the Consolidated Balance Sheets.

Redemption of Notes

In January 2018, the Company used the proceeds from the 2028 Notes to redeem the \$500 million 2019 Notes for \$540 million. The pre-tax loss on extinguishment of this debt was \$45 million (after-tax loss of \$29 million), which includes write-offs of unamortized issuance costs and discounts and losses related to terminated interest rate swaps associated with the 2019 Notes. This loss is included in Other Income (Loss) in the 2017 Consolidated Statement of Income.

In July 2016, the Company used the proceeds from the 2036 Notes to redeem the \$700 million 2017 Notes for \$742 million. The pre-tax loss on extinguishment of this debt was \$36 million (after-tax net loss of \$22 million), which is net of gains of \$7 million related to terminated interest rate swaps associated with the 2017 Notes. This loss is included in Other Income (Loss) in the 2016 Consolidated Statement of Income.

Revolving Facility

In May 2017, the Company entered into an Amendment of its secured revolving credit facility. The Amendment maintains the aggregate amount of the commitments of the lenders under the Revolving Facility at \$1 billion and extends the termination date from July 18, 2019 to May 11, 2022. The Amendment allows certain of the Company's non-U.S. subsidiaries to borrow and obtain letters of credit in U.S. dollars, Canadian dollars, Euros, Hong Kong dollars or British pounds.

In addition, the Amendment reduced the commitment fees payable under the Revolving Facility, which are based on the Company's long-term credit rating, to 0.25% per annum. The Amendment did not modify the Company's quantitative covenant requirements, but did provide an increased limit on restricted payments in the event the Company does not meet the criteria to make these payments without limitation and provides greater flexibility with respect to the Company's ability to grant liens on assets.

The Company incurred fees related to the Amendment of the Revolving Facility of \$5 million, which were capitalized and recorded in Other Assets on the February 3, 2018 Consolidated Balance Sheet and are being amortized over the remaining term of the Revolving Facility.

The Revolving Facility fees related to committed and unutilized amounts are 0.25% per annum, and the fees related to outstanding letters of credit are 1.50% per annum. In addition, the interest rate on outstanding U.S. dollar borrowings is LIBOR plus 1.50% per annum. The interest rate on outstanding foreign denominated borrowings is the applicable benchmark rate plus 1.50% per annum.

The Revolving Facility contains fixed charge coverage and debt to EBITDA financial covenants. The Company is required to maintain a fixed charge coverage ratio of not less than 1.75 to 1.00 and a consolidated debt to consolidated EBITDA ratio not exceeding 4.00 to 1.00 for the most recent four-quarter period. In addition, the Revolving Facility provides that investments and restricted payments may be made, without limitation on amount, if (a) at the time of and after giving effect to such investment or restricted payment, the ratio of consolidated debt to consolidated EBITDA for the most recent four-quarter period is less than 3.00 to 1.00 and (b) no default or event of default exists. As of February 3, 2018, the Company was in compliance with both of its financial covenants, and the ratio of consolidated debt to consolidated EBITDA was less than 3.00 to 1.00.

As of February 3, 2018, there were no borrowings outstanding under the Revolving Facility.

The Revolving Facility supports the Company's letter of credit program. The Company had \$9 million of outstanding letters of credit as of February 3, 2018 that reduced its remaining availability under the Revolving Facility.

Foreign Facilities

In addition to the Revolving Facility, the Company maintains various revolving and term loan bank facilities to support operations in Greater China. These facilities allow certain of the Company's Greater China subsidiaries to borrow and obtain letters of credit in U.S. dollars and Chinese yuan.

During the fourth quarter of 2017, the Company entered into a new revolving facility with availability totaling \$100 million. The obligation to pay principal and interest is jointly and severally guaranteed on a full and unconditional basis by L Brands, Inc. and the Guarantors. The interest rates on outstanding borrowings are based upon the applicable benchmark rate for the currency of each borrowing. During 2017, the Company borrowed \$1 million under this facility. This borrowing, which matures on May 11, 2022, is included within Long-term Debt on the February 3, 2018 Consolidated Balance Sheet.

The Company also maintains various revolving and term loan bank facilities that are guaranteed by L Brands, Inc. with availability totaling \$100 million. The interest rates on outstanding borrowings are based upon the applicable benchmark rate for the currency of each borrowing. During 2017, the Company borrowed \$95 million and made payments of \$44 million under these facilities. The maximum daily amount outstanding at any point in time during 2017 was \$97 million. Current borrowings on these facilities mature between February 6, 2018 and December 18, 2018 and are included within Current Debt on the February 3, 2018 Consolidated Balance Sheet.

13. Derivative Financial Instruments

Foreign Exchange Derivative Instruments

The earnings of the Company's wholly owned foreign businesses are subject to exchange rate risk as substantially all of their merchandise is sourced through U.S. dollar transactions. The Company uses foreign currency forward contracts designated as cash flow hedges to mitigate this foreign currency exposure for its Canadian and U.K. businesses. These forward contracts currently have a maximum term of 18 months. Amounts are reclassified from accumulated other comprehensive income (loss) upon sale of the hedged merchandise to the customer. These gains and losses are recognized in Costs of Goods Sold, Buying and Occupancy on the Consolidated Statements of Income.

The Company had a cross-currency swap related to an intercompany loan of approximately CAD\$170 million that matured in January 2018 which was designated as a cash flow hedge of foreign currency exchange risk. This cross-currency swap mitigated the exposures to fluctuations in the U.S. dollar-Canadian dollar exchange rate related to the Company's Canadian operations. Changes in the U.S. dollar-Canadian dollar exchange rate and the related swap settlements resulted in reclassification of amounts from accumulated other comprehensive income (loss) to earnings to completely offset foreign currency transaction gains and losses recognized on the intercompany loan.

The Company uses foreign currency forward contracts to mitigate the impact of fluctuations in foreign currency exchange rates relative to recognized payable balances denominated in non-functional currencies. The fair value of these non-designated foreign currency forward contracts is not significant as of February 3, 2018.

The following table provides the U.S. dollar notional amount of outstanding foreign currency derivative financial instruments as of February 3, 2018 and January 28, 2017:

	<u>February 3, 2018</u>	<u>January 28, 2017</u>
	(in millions)	
Notional Amount	\$217	\$360

The following table provides a summary of the fair value and balance sheet classification of outstanding derivative financial instruments designated as foreign currency cash flow hedges as of February 3, 2018 and January 28, 2017:

The following table provides a summary of the pre-tax financial statement effect of the gains and losses on derivative financial instruments designated as foreign currency cash flow hedges for 2017 and 2016:

	2017	2016
	(in millions)

(Gain) Loss Reclassified from Accumulated Other Comprehensive Income into Cost of Goods Sold, Buying and Occupancy Expense (a)	(1)	(1)
(Gain) Loss Reclassified from Accumulated Other Comprehensive Income into Other Income (Loss) (b)	8	8

- (a) Represents reclassification of amounts from accumulated other comprehensive income to earnings when the hedged merchandise is sold to the customer. No ineffectiveness was associated with these foreign currency cash flow hedges.
- (b) Represents reclassification of amounts from accumulated other comprehensive income to earnings to completely offset foreign currency transaction gains and losses recognized on the intercompany loan. No ineffectiveness was associated with this foreign currency cash flow hedge.

The Company estimates that \$8 million of losses included in accumulated other comprehensive income as of February 3, 2018 related to foreign currency forward contracts designated as cash flow hedges will be reclassified into earnings within the following 12 months. Actual amounts ultimately reclassified depend on the exchange rates in effect when derivative contracts that are currently outstanding mature.

14. Fair Value Measurements

The following table provides a summary of the principal value and estimated fair value of long-term debt, excluding Foreign Facility borrowings, as of February 3, 2018 and January 28, 2017:

	February 3, 2018	January 28, 2017
	(in millions)	
Principal Value	\$5,750	\$5,750
Fair Value (a)	5,943	6,030

- (a) The estimated fair value of the Company's publicly traded debt is based on reported transaction prices which are considered Level 2 inputs in accordance with ASC Topic 820, *Fair Value Measurement*. The estimates presented are not necessarily indicative of the amounts that the Company could realize in a current market exchange.

The following table provides a summary of assets and liabilities measured in the consolidated financial statements at fair value on a recurring basis as of February 3, 2018 and January 28, 2017:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

Marketable Securities	5	—	—	5
Interest Rate Fair Value Hedges	—	2	—	2
Foreign Currency Cash Flow Hedges	—	18	—	18
Liabilities:				
Foreign Currency Cash Flow Hedges	—	1	—	1

The Company's Level 1 fair value measurements use unadjusted quoted prices in active markets for identical assets. The Company's marketable securities are classified as Level 1 fair value measurements as they are traded with sufficient frequency and volume to enable the Company to obtain pricing information on an ongoing basis.

In the fourth quarter of 2017, the Company purchased \$10 million of marketable equity securities which are classified as available-for-sale as of the end of 2017. The cash payment is included in Purchases of Marketable Securities in the Investing Activities section of the 2017 Consolidated Statement of Cash Flows.

In 2015, the Company purchased \$10 million in marketable equity securities which are classified as available-for-sale. In the first quarter of 2016, the Company sold a portion of this investment for \$10 million and recognized a pre-tax gain of \$4 million (after-tax gain of \$3 million). The gain is included in Other Income (Loss) in the 2016 Consolidated Statement of Income, and the cash proceeds are included in Proceeds from Sale of Marketable Securities in the Investing Activities section of the 2016 Consolidated Statement of Cash Flows.

The Company's Level 2 fair value measurements use market approach valuation techniques. The primary inputs to these techniques include benchmark interest rates and foreign currency exchange rates, as applicable to the underlying instruments.

Management believes that the carrying values of accounts receivable, accounts payable, accrued expenses and current debt approximate fair value because of their short maturity.

15. Comprehensive Income

Comprehensive Income includes gains and losses on derivative instruments, unrealized holding gains and losses on marketable securities classified as available-for-sale and foreign currency translation adjustments. The cumulative gains and losses on these items are included in Accumulated Other Comprehensive Income on the Consolidated Balance Sheets and Consolidated Statements of Shareholders' Equity (Deficit).

The following table provides the rollforward of accumulated other comprehensive income for 2017:

16. Leases

The Company is committed to noncancellable leases with remaining terms generally from one to 10 years. A substantial portion of the Company's leases consist of store leases generally with an initial term of 10 years. Annual store rent consists of a fixed minimum amount and/or contingent rent based on a percentage of sales exceeding a stipulated amount. Store lease terms generally require additional payments covering certain operating costs such as common area maintenance, utilities, insurance and taxes. These additional payments are excluded from the table below.

The following table provides rent expense for 2017, 2016 and 2015:

	<u>2017</u>	<u>2016</u>	<u>2015</u>
	(in millions)		
Store Rent:

2018	\$ 730
2019	695
2020	663
2021	617
2022	543
Thereafter	\$2,080

(a) Excludes additional payments covering taxes, common area costs and certain other expenses generally required by store lease terms.

17. Commitments and Contingencies

The Company is subject to various claims and contingencies related to lawsuits, taxes, insurance, regulatory and other matters arising out of the normal course of business. Actions filed against the Company from time to time include commercial, tort, intellectual property, customer, employment, data privacy, securities and other claims, including purported class action lawsuits. Management believes that the ultimate liability arising from such claims and contingencies, if any, is not likely to have a material adverse effect on the Company's results of operations, financial condition or cash flows.

Guarantees

In connection with the disposition of a certain business, the Company has remaining guarantees of \$10 million related to lease payments under the current terms of noncancellable leases expiring at various dates through 2021. These guarantees include minimum rent and additional payments covering taxes, common area costs and certain other expenses and relate to leases that commenced prior to the disposition of the business. In certain instances, the Company's guarantee may remain in effect if the term of a lease is extended. The Company has not

recorded a liability with respect to these guarantee obligations as of February 3, 2018 or January 28, 2017 as it concluded that payments under these guarantees were not probable.

In connection with noncancellable operating leases of certain assets, the Company provided residual value guarantees to the lessor if the leased assets cannot be sold for an amount in excess of a specified minimum value at the conclusion of the lease term. The leases expire at various dates through 2021, and the total amount of the guarantees is \$104 million. The Company recorded a liability of \$3 million and \$1 million related to these guarantee obligations as of February 3, 2018 and January 28, 2017, respectively, which are included in Other Long-term Liabilities on the Consolidated Balance Sheets.

18. Retirement Benefits

The Company sponsors a tax-qualified defined contribution retirement plan and a non-qualified supplemental retirement plan for substantially all of its associates within the U.S. Participation in the tax-qualified plan is available to associates who meet certain age and service requirements. Participation in the non-qualified plan is available to associates who meet certain age, service, job level and compensation requirements.

The qualified plan permits participating associates to elect contributions up to the maximum limits allowable under the Internal Revenue Code. The Company matches associate contributions according to a predetermined formula and contributes additional amounts based on a percentage of the associates' eligible annual compensation and years of service. Associate contributions and Company matching contributions vest immediately. Additional Company contributions and the related investment earnings are subject to vesting based on years of service. Total expense recognized related to the qualified plan was \$68 million for 2017, \$67 million for 2016 and \$64 million for 2015.

The non-qualified plan is an unfunded plan which provides benefits beyond the Internal Revenue Code limits for qualified defined contribution plans. The plan permits participating associates to elect contributions up to a maximum percentage of eligible compensation. The Company matches associate contributions according to a predetermined formula and contributes additional amounts based on a percentage of the associates' eligible compensation and years of service. The plan also permits participating associates to defer additional compensation up to a maximum amount which the Company does not match. Associates' accounts are credited with interest using a fixed rate determined by the Company and reviewed by the Compensation Committee of the Board of Directors, prior to the beginning of each year. Associate contributions and the related interest vest immediately. Company contributions, along with related interest, are subject to vesting based on years of service. Associates may elect in-service distributions for the unmatched additional deferred compensation component only. The remaining vested portion of associates' accounts in the plan will be distributed upon termination of employment in either a lump sum or in annual installments over a specified period of up to 10 years.

The following table provides the Company's annual activity for this plan and year-end liability, included in Other Long-term Liabilities on the Consolidated Balance Sheets, as of February 3, 2018 and January 28, 2017:

	February 3, 2018	January 28, 2017
	(in millions)	
Balance at Beginning of Year	\$258	\$274
Contributions:		
Associate	9	14
Company	9	14
Interest	11	12
Distributions	(18)	(56)
Balance at End of Year	<u>\$269</u>	<u>\$258</u>

Total expense recognized related to the non-qualified plan was \$20 million for 2017, \$26 million for 2016 and \$30 million for 2015.

19. Shareholders' Equity (Deficit)

Common Stock Share Repurchases

Under the authority of the Company's Board of Directors, the Company repurchased shares of its common stock under the following repurchase programs for fiscal 2017, 2016 and 2015:

<u>Repurchase Program</u>	<u>Amount Authorized</u> (in millions)	<u>Shares Repurchased</u>			<u>Amount Repurchased</u>			<u>Average Stock Price of Shares Repurchased within Program</u>

In September 2017, the Company's Board of Directors approved a \$250 million share repurchase program, which included the \$10 million remaining under the February 2017 repurchase program.

In February 2017, the Company's Board of Directors approved a \$250 million share repurchase program, which included the \$59 million remaining under the February 2016 repurchase program.

In February 2016, the Company's Board of Directors approved a \$500 million share repurchase program, which included the \$17 million remaining under the June 2015 repurchase program.

In June 2015, the Company's Board of Directors approved a \$250 million share repurchase program, which included the \$0.6 million remaining under the February 2015 repurchase program.

In February 2015, the Company's Board of Directors approved a \$250 million share repurchase program, which included the \$91 million remaining under the November 2012 repurchase program.

There were \$2 million and \$3 million of share repurchases reflected in Accounts Payable on the February 3, 2018 and January 28, 2017 Consolidated Balance Sheets, respectively.

Subsequent to February 3, 2018, the Company's Board of Directors approved a new \$250 million share repurchase program, which included the \$23 million remaining under the September 2017 repurchase program. The Company repurchased an additional 0.8 million shares of common stock for \$35 million subsequent to February 3, 2018.

Treasury Stock Retirement

In November 2017, the Company retired 36 million shares of its treasury stock. The retirement resulted in a reduction of \$2.036 billion in Treasury Stock, \$18 million in the par value of Common Stock, \$82 million in Paid-in Capital and \$1.936 billion in Retained Earnings.

Dividends

Under the authority and declaration of the Board of Directors, the Company paid the following dividends during fiscal 2017, 2016 and 2015:

	<u>Ordinary Dividends</u>	<u>Special Dividends</u> (per share)	<u>Total Dividends</u>	<u>Total Paid</u> (in millions)

Subsequent to February 3, 2018, the Company's Board of Directors declared the first quarter of 2018 ordinary dividend of \$0.60 per share.

20. Share-based Compensation

Plan Summary

In 2015, the Company's shareholders approved the 2015 Stock Option and Performance Incentive Plan ("2015 Plan"). The 2015 plan provides for the grant of incentive stock options, non-qualified stock options, stock appreciation rights, restricted stock, performance-based restricted stock, performance units and unrestricted shares. The Company grants stock options at a price equal to the fair market value of the stock on the date of grant. Stock options have a maximum term of 10 years. Stock options generally vest ratably over 3 to 5 years. Restricted stock generally vests (the restrictions lapse) at the end of a three-year period or on a graded basis over a five-year period.

Under the Company's plans, approximately 160 million options, restricted and unrestricted shares have been authorized to be granted to employees and directors. Approximately 12 million options and shares were available for grant as of February 3, 2018.

From time to time the Company's Board of Directors will declare special dividends. For additional information, see Note 19, "Shareholders' Equity (Deficit)." In accordance with the anti-dilutive provisions of the stock plan, in these circumstances the Company adjusts both the exercise price and the number of share-based awards outstanding as of the record date of the special dividends. The aggregate fair value, the aggregate intrinsic value and the ratio of the exercise price to the market price are approximately equal immediately before and after the adjustments. Therefore, no compensation expense is recognized.

Stock Options

The following table provides the Company's stock option activity for the fiscal year ended February 3, 2018:

Vested and Expected to Vest as of February 3, 2018 (a)	4,316	57.03	6.44	18,265
Options Exercisable as of February 3, 2018	2,202	50.05	4.72	17,489

(a) The number of options expected to vest includes an estimate of expected forfeitures.

Intrinsic value for stock options is the difference between the current market value of the Company's stock and the option strike price. The total intrinsic value of options exercised was \$44 million for 2017, \$30 million for 2016 and \$63 million for 2015.

The total fair value at grant date of option awards vested was \$10 million for 2017 and 2016, and \$11 million for 2015.

The Company's total unrecognized compensation cost, net of estimated forfeitures, related to nonvested options was \$14 million as of February 3, 2018. This cost is expected to be recognized over a weighted-average period of 2.6 years.

The weighted-average estimated fair value of stock options granted was \$5.96 per share for 2017, \$11.72 per share for 2016 and \$15.27 per share for 2015.

Cash received from stock options exercised was \$38 million for 2017, \$20 million for 2016 and \$33 million for 2015. Tax benefits realized from tax deductions associated with stock options exercised were \$16 million for 2017, \$9 million for 2016 and \$20 million for 2015.

The Company uses the Black-Scholes option-pricing model for valuation of options granted to employees and directors. The Company's determination of the fair value of options is affected by the Company's stock price as well as assumptions regarding a number of highly complex and subjective variables. These variables include, but are not limited to, the Company's expected stock price volatility over the term of the awards and projected employee stock option exercise behaviors.

The following table contains the weighted-average assumptions used during 2017, 2016 and 2015:

	<u>2017</u>	<u>2016</u>	<u>2015</u>
Expected Volatility	28%	25%	26%
Risk-free Interest Rate	1.5%	1.1%	1.1%
Dividend Yield	5.1%	3.3%	2.7%
Expected Life (in years)	3.0	4.1	4.5

The majority of the Company's stock-based compensation awards are granted on an annual basis in the first quarter of each year. The expected volatility assumption is based on the Company's analysis of historical

volatility. The risk-free interest rate assumption is based upon the average daily closing rates during the period for U.S. treasury notes that have a life which approximates the expected life of the option. The dividend yield assumption is based on the Company's history and expectation of dividend payouts in relation to the stock price at the grant date. The expected life of employee stock options represents the weighted-average period the stock options are expected to remain outstanding.

Restricted Stock

The following table provides the Company's restricted stock activity for the fiscal year ended February 3, 2018:

	<u>Number of Shares</u>	<u>Weighted Average Grant Date Fair Value</u>
	(in thousands)	
Unvested as of January 28, 2017	5,292	\$64.14
Granted	2,571	39.21
Vested	(1,800)	48.48
Cancelled	(364)	62.09
Unvested as of February 3, 2018	<u>5,699</u>	<u>57.97</u>

The Company's total intrinsic value of restricted stock vested was \$86 million for 2017, \$140 million for 2016 and \$217 million for 2015.

The Company's total fair value at grant date of awards vested was \$87 million for 2017, \$68 million for 2016 and \$80 million for 2015. Fair value of restricted stock awards is based on the market value of an unrestricted share on the grant date adjusted for anticipated dividend yields.

As of February 3, 2018, there was \$134 million of total unrecognized compensation cost, net of estimated forfeitures, related to unvested restricted stock. That cost is expected to be recognized over a weighted-average period of 2.6 years.

The weighted-average estimated fair value of restricted stock granted was \$39.21 per share for 2017, \$75.09 per share for 2016 and \$85.61 per share for 2015.

Tax benefits realized from tax deductions associated with restricted stock vested were \$32 million for 2017, \$61 million for 2016 and \$82 million for 2015.

Income Statement Impact

The following table provides share-based compensation expense included in the Consolidated Statements of Income for 2017, 2016 and 2015:

	<u>2017</u>	<u>2016</u>	<u>2015</u>
	(in millions)		
Costs of Goods Sold, Buying and Occupancy	\$ 32	\$31	\$27
General, Administrative and Store Operating Expenses	70	65	70
Total Share-based Compensation Expense	<u>\$102</u>	<u>\$96</u>	<u>\$97</u>

Share-based compensation expense is based on awards that are ultimately expected to vest. The Company estimates forfeitures at the time of grant and adjusts, if necessary, in subsequent periods based on historical experience and expected future termination rates.

The tax benefit associated with recognized share-based compensation expense was \$23 million for 2017, \$32 million for 2016 and \$33 million for 2015.

21. Segment Information

The Company has three reportable segments: Victoria's Secret, Bath & Body Works and Victoria's Secret and Bath & Body Works International.

The Victoria's Secret segment sells women's intimate and other apparel, personal care and beauty products under the Victoria's Secret and PINK brand names. Victoria's Secret merchandise is sold online and through retail stores located in the U.S. and Canada.

The Bath & Body Works segment sells body care, home fragrance products, soaps and sanitizers under the Bath & Body Works, White Barn, C.O. Bigelow and other brand names. Bath & Body Works merchandise is sold online and at retail stores located in the U.S. and Canada.

The Victoria's Secret and Bath & Body Works International segment includes the Victoria's Secret and Bath & Body Works company-owned and partner-operated stores located outside of the U.S. and Canada, as well as its online business in Greater China on the Tmall domestic platform. This segment includes the following:

- Victoria's Secret International, comprised of company-owned stores in the U.K., Ireland and Greater China, as well as stores operated by partners under franchise and license arrangements;
- Victoria's Secret Beauty and Accessories, comprised of company-owned stores in Greater China, as well as stores operated by partners under franchise, license and wholesale arrangements, which feature Victoria's Secret branded beauty and accessories products in travel retail and other locations; and
- Bath & Body Works International stores in travel retail and other locations operated by partners under franchise, license and wholesale arrangements.

Other consists of the following:

- Mast Global, a merchandise sourcing and production function serving the Company and its international partners;
- La Senza, which sells women's intimate apparel online and through company-owned stores located in Canada and the U.S., as well as stores operated by partners under franchise and license arrangements;
- Henri Bendel, which sells handbags, jewelry and other accessory products online and through company-owned stores; and
- Corporate functions including non-core real estate, equity investments and other governance functions such as treasury and tax.

The following table provides the Company's segment information as of and for the fiscal years ended February 3, 2018, January 28, 2017 and January 30, 2016:

	Victoria's Secret	Bath & Body Works	Victoria's Secret and Bath & Body Works International	Other	Total

Total Assets (a)	3,163	1,556	436	3,338	8,493
Capital Expenditures	411	166	33	117	727

(a) Assets are allocated to the operating segments based on decision making authority relevant to the applicable assets.

The Company's international net sales include sales from company-owned stores, royalty revenue from franchise and license arrangements, wholesale revenues and direct sales shipped internationally. Certain of these sales are subject to the impact of fluctuations in foreign currency. The Company's international net sales across all segments totaled \$1.553 billion in 2017, \$1.408 billion in 2016 and \$1.314 billion in 2015. The Company's internationally based long-lived assets were \$451 million as of February 3, 2018 and \$357 million as of January 28, 2017.

22. Quarterly Financial Data (Unaudited)

The following table provides summarized quarterly financial data for 2017:

	Fiscal Quarter Ended			
	April 29, 2017	July 29, 2017	October 28, 2017	February 3, 2018 (a)(b)(c)
	(in millions except per share data)

Net Income Per Diluted Share (d)	\$ 0.33	\$ 0.48	\$ 0.30	\$ 2.33

- (a) Includes the effect of a pre-tax loss of \$45 million (\$29 million net of tax) associated with the early extinguishment of the 2019 Notes, included in other income (loss).
- (b) Includes the effect of a \$92 million tax benefit related to changes in U.S. tax legislation.
- (c) The Company utilizes the retail calendar for reporting. As such, the results for fiscal 2017 represent the 53-week period ended February 3, 2018 and the fourth quarter consists of a 14-week period.
- (d) Due to changes in stock prices during the year and timing of issuances and repurchases of shares, the cumulative total of quarterly net income per share amounts may not equal the net income per share for the year.

The following table provides summarized quarterly financial data for 2016:

	Fiscal Quarter Ended			
	April 30, 2016 (a)	July 30, 2016 (b)	October 29, 2016	January 28, 2017 (c)

- (a) Includes the effect of a pre-tax gain of \$35 million (\$21 million net of tax) included in operating income, related to actions at Victoria's Secret, including severance charges, fabric cancellations and the write-off of catalogue paper.
- (b) Includes the effect of a pre-tax gain of \$108 million (\$70 million net of tax) related to a cash distribution from Easton Town Center, offset by a pre-tax loss of \$36 million (\$22 million net of tax) associated with the early extinguishment of the 2017 Notes, included in other income (loss).
- (c) Includes the effect of a \$42 million tax benefit related to the favorable resolution of a discrete income tax matter.
- (d) Due to changes in stock prices during the year and timing of issuances and repurchases of shares, the cumulative total of quarterly net income per share amounts may not equal the net income per share for the year.

23. Subsequent Events

Subsequent to February 3, 2018, the Company's Board of Directors approved a new \$250 million share repurchase program, which included the \$23 million remaining under the September 2017 repurchase program. The Company repurchased an additional 0.8 million shares of common stock for \$35 million subsequent to February 3, 2018.

The Company's Board of Directors declared the first quarter of 2018 ordinary dividend of \$0.60 per share. For additional information, see Note 19, "Shareholders' Equity (Deficit)."

24. Supplemental Guarantor Financial Information

The Company's 2020 Notes, 2021 Notes, 2022 Notes, 2023 Notes, 2028 Notes, 2035 Notes, 2036 Notes and certain of its Foreign Facilities are jointly and severally guaranteed on a full and unconditional basis by the Guarantors. The Company is a holding company, and its most significant assets are the stock of its subsidiaries. The Guarantors represent: (a) substantially all of the sales of the Company's domestic subsidiaries, (b) more than 90% of the assets owned by the Company's domestic subsidiaries, other than real property, certain other

assets and intercompany investments and balances, and (c) more than 95% of the accounts receivable and inventory directly owned by the Company's domestic subsidiaries.

The following supplemental financial information sets forth for the Company and its guarantor and non-guarantor subsidiaries: the Condensed Consolidating Balance Sheets as of February 3, 2018 and January 28, 2017 and the Condensed Consolidating Statements of Income, Comprehensive Income and Cash Flows for the years ended February 3, 2018, January 28, 2017 and January 30, 2016.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

None.

ITEM 9A. CONTROLS AND PROCEDURES.

Evaluation of disclosure controls and procedures. As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures, as such term is defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that as of the end of the period covered by this report, our disclosure controls and procedures were effective and designed to ensure that information required to be disclosed by us in reports we file or submit under the Exchange Act is (1) recorded, processed, summarized and reported within the time periods specified in SEC rules and forms, and (2) accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

Management's Report on Internal Control Over Financial Reporting. Management's Report on Internal Control Over Financial Reporting as of February 3, 2018 is set forth in Item 8. Financial Statements and Supplementary Data.
