

# ANNUAL REPORT 2020

The Mexico Fund, Inc.

## MANAGED DISTRIBUTION PLAN (“MDP”)

During the Fund’s fiscal year ended on October 31, 2020, The Mexico Fund, Inc. (the “Fund”) had in place an MDP. Under its MDP, the Fund distributed \$0.25 and \$0.18 per share during January 2020 and April 2020, respectively, for a total of \$0.43 per share. With each distribution, the Fund issued a notice to stockholders and an accompanying press release which provided detailed information regarding the amount and composition of the distribution and other information required by the Fund’s MDP exemptive order. The Board may amend or terminate the MDP at any time without prior notice to stockholders. Since the implementation of the MDP in September 2008, the Fund has paid a total of \$24.28 per share in cash distributions to stockholders. You should not draw any conclusions about the Fund’s investment performance from the amount of distributions or from the terms of the Fund’s MDP.

At its June 2020 meeting, the Board of Directors (the “Board”) decided to temporarily suspend the Fund’s MDP. The Board noted that global financial markets had been affected by the “Covid-19” pandemic, which had severe negative effects on economic activity. The Board also noted that the Mexican equity market and the value of the Mexican peso were no exception, generating a sharp decrease in the Fund’s net assets. The Board considered that under the circumstances of high uncertainty, it was in the best interests of Fund stockholders to temporarily suspend the MDP in order to preserve capital. This action enables the Fund to maintain resources to take advantage of attractive investment opportunities that are being presented in the Mexican equity market. In addition to the motivations mentioned above, the Fund has experienced a significant decrease in dividends received from portfolio issuers, as several of them have canceled or suspended previously announced distributions, given the uncertain economic environment. The Board understands the importance of distributions to Fund stockholders and will continue to review the Fund’s MDP regularly in order to reinstate it as soon as deemed advisable by the Board. In addition, the Fund will continue to distribute to shareholders all of its net investment income and net realized capital gains, if any, at least annually, even while the Fund’s MDP remains suspended.

## OPTIONAL INTERNET AVAILABILITY OF SHAREHOLDER REPORTS

Beginning on January 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of the Fund’s Annual and Semi-Annual Reports to Shareholders (“Shareholder Reports”) will no longer be sent by mail, unless you specifically request paper copies of the Shareholder Reports from the Fund or from your financial intermediary, such as a broker-dealer or a bank. Instead, the Shareholder Reports will be made available on the Fund’s website and you will be notified by mail each time a Shareholder Report is posted and provided with a website link to access the Shareholder Report.

If you already elected to receive Shareholder Reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive Shareholder Reports and other communications from the Fund or your financial intermediary electronically as described below under “Electronic Delivery of Fund Materials.”

You may elect to receive all future Shareholder Reports in paper free of charge. If you invest through a financial intermediary, you can contact your financial intermediary to request that you continue to receive paper copies of your Shareholder Reports. Your election to receive Shareholder Reports in paper will apply to all funds held with your financial intermediary. If you invest directly with the Fund, you can contact American Stock Transfer & Trust Company, LLC (“AST”) by phone at 1-877-573-4007 to request that you continue to receive paper copies of your Shareholder Reports.

# 2020 ANNUAL REPORT

October 31, 2020

## Highlights

- The Fund's fiscal year 2020 ended on October 31, 2020.
- During March 2020, global economies and financial markets were severely affected by the "Covid-19" virus, triggering significant declines that have been partially offset since April 2020.
- During these difficult times, the Fund and its Investment Adviser, Impulsora del Fondo México, S.C. ("Impulsora"), have been able to successfully implement all appropriate and recommended measures in order to ensure their employees' safety and to prevent further contagions, while performing all of the Fund's activities in an efficient and timely manner.
- The three major credit agencies downgraded Mexico's credit ratings. However, they maintained Mexico's debt within its "investment grade" category, and Mexico's fiscal position remains strong.
- During fiscal year 2020, the Fund's NAV per share registered a negative total return<sup>1</sup> of -14.68%, significantly outperforming its benchmark, the Morgan Stanley Capital International ("MSCI") Mexico Index, which registered a negative total return of -20.75% over the same period. The Fund's NAV per share has outperformed the MSCI Mexico Index, during the one-, three-, five- and ten-year periods ended on October 31, 2020.
- During fiscal year 2020, the Fund's market price per share registered a negative total return of -18.79%. As of October 31, 2020, the Fund's market price and NAV per share were \$10.49 and \$12.66, respectively, reflecting a discount of 17.14%, compared with a discount of 12.63% at the end of fiscal year 2019. The discount increase is in line with an overall discount increase in the non-US equity closed end fund asset class.
- During fiscal year 2020, the Fund and Impulsora had in place an Expense Limitation Agreement, in which the Fund's ordinary annual expense ratio was limited to 1.50% through October 31, 2020, as long as Fund net assets remained greater than \$200 million. The agreement was reinforced for fiscal year 2021, as the Fund announced on November 3, 2020, with a further reduction in some expenses. In addition, the commitment to limit the ordinary expense ratio at 1.50% was maintained for fiscal year 2021, but with a lower threshold for Fund net assets of \$180 million, instead of the prior threshold of \$200 million.
- At its June 2020 meeting, the Board decided to temporarily suspend the Fund's MDP. The Board will continue to review market and economic conditions regularly in order to reinstate it as soon as deemed advisable by the Board.

The Mexico Fund, Inc. is a non-diversified closed-end management investment company with the investment objective of long-term capital appreciation through investments in securities, primarily equity, listed on the Mexican Stock Exchange. The Fund provides a vehicle to investors who wish to invest in Mexican companies through a managed non-diversified portfolio as part of their overall investment program.

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940, as amended (the "1940 Act"), that the Fund may purchase, from time to time, shares of its common stock in the open market.

## To Our Stockholders:

We present to you the Fund's 2020 Annual Report for the year ended October 31, 2020. In this report, we summarize the period's prevailing economic, political and market conditions in Mexico and outline the Fund's investment strategy and resulting performance. We hope you find this report useful and informative.

## Economic and Political Environment

Global equity markets experienced significant volatility during the Fund's fiscal year ended on October 31, 2020, driven by high global uncertainty, mainly due to the "Covid-19" virus, which has had a huge effect on global economic activity and lifestyle, and worldwide financial markets were severely affected during the first quarter of calendar year 2020. In addition, a sharp decrease in the price of oil and the official withdrawal of the United Kingdom from the European Union generated further uncertainty. However, global financial markets recovered rapidly as part of strong fiscal and monetary stimulus by major central banks, as described below.

The U.S. Federal Reserve (the "Fed") undertook several actions in order to provide stimulus. The Fed decreased its reference interest rate by 150 basis points in March during two extraordinary meetings to reach its historical low, at a range of 0.00% and 0.25%, and stated that it will purchase government securities in an unlimited amount. Additionally, in June, the Fed announced that it will begin buying a broad and diversified portfolio of corporate bonds to support market liquidity. Additionally, in April the Fed announced additional actions to provide up to \$2.3 trillion in loans to support the economy. On the fiscal front, the U.S. Government has provided around \$3 trillion in several stimulus spending packages to help stabilize the economy and it approved a \$1.5 trillion infrastructure package. Other major central banks also implemented strong monetary stimulus measures during March 2020; the Bank of England lowered its target interest rate 65 basis points to 0.10% while the European Central Bank increased its net asset purchases program.

In the United States, Presidential elections were held on November 3, 2020, in which the Democratic candidate, Mr. Joseph Biden, was elected President and is expected to take office on January 20, 2021.

Oil prices also underwent a turbulent period as part of a collapse in demand combined with a failed initial agreement between OPEC and non-OPEC members to further reduce oil output. However, an agreement was reached subsequently, which, combined with higher demand as the economic activity resumed, generated a significant recovery in the price of oil, although prices are still at low levels.

In Mexico, the Central Bank ("Banxico") took several initiatives to stimulate the economy against the negative effects produced by the Pandemic. Banxico accelerated its monetary easing cycle by reducing the reference interest rate 300 basis points during 2020 to 4.25%, approved measures to provide liquidity and support the financial system for a total of 3.3% of GDP, increased the size of its foreign exchange auctions program established in 2017 by \$10 billion to \$30 billion and established a swap line with the Fed for up to \$60 billion, among other measures. Additionally, the Government provided Pandemic stimulus amounts equal to approximately 1.0% of GDP, and announced measures to restructure loans at lower interest rates and incentivize new loans origination.

Although the fiscal stimulus has been low compared to other countries, it has achieved the Government's goal of a prudent fiscal stance. As such, the Government expects its primary balance for 2020 to be at a surplus of 0.2% of GDP, while its budget for 2021 projects a primary balance of 0.0% of GDP, a relatively stronger position compared to some other developing countries. The strong fiscal position has been achieved despite a sharp decline in oil prices, because in January 2020 the Government hedged its oil exports for 2020 at \$49 USD/bbl. In other news, in November 2019 the International Monetary Fund renewed Mexico's two-year Flexible Credit Line for up to \$61 billion, which was reduced from \$74 billion based on Mexico's request.

Economic activity has been severely affected, with GDP decreasing 9.6% in annual terms during the first nine months of 2020, driven by the combined effect of the Pandemic and lower oil prices. As a result, rating agencies have downgraded Mexico's credit ratings as follows: S&P lowered its rating one notch to 'BBB' from 'BBB+' with a negative outlook, Fitch downgraded its rating to 'BBB-' from 'BBB' with a stable outlook and Moody's downgraded its rating to 'Baa1' from 'A3' maintaining a negative outlook. Despite the above, the three credit ratings maintain Mexico's debt within its "investment grade" category.

However, several economic indicators and activities have significantly improved since June, such as industrial production, passenger air traffic and vehicle production, among others. Moreover, the formal sector recovered 406,880 jobs during the last three months, as of October, after losing 1,117,584 formal jobs during the previous five months. The external sector is also

recovering, with exports nearing its pre-Pandemic levels, resulting in a record trade balance surplus of \$22 billion during the last twelve months, as of October. As a result, GDP for the third quarter of 2020 increased 11.8% relative to the second quarter of 2020.

In November 2019, the Government, in conjunction with leaders of the private sector, unveiled Mexico's National Infrastructure Plan for the period 2020-2024, comprising of investments worth Ps. \$859 billion, to be executed by the private sector. The collaboration between both parties was further reinforced during October and November 2020 by the commitment to develop further infrastructure projects that anticipate investments of around Ps. \$526 billion, with at least 50% being financed by the private sector. In another positive development, the USMCA trade agreement between United States, Mexico and Canada became effective on July 1, 2020, replacing NAFTA (North America Free Trade Agreement), which will support the economic recovery of the region and will provide legal certainty on investments made among the three countries.

Regarding health conditions, the Pandemic in Mexico has also had a significant negative effect. Government sources reported 940,962 and 92,736 "Covid-19" cases and deaths, respectively, as of October 31, 2020.

The Mexican peso depreciated 9.2% during the Fund's fiscal year ended October 31, 2020 to Ps. \$21.18. However, the Mexican peso has shown a significant recovery of 19.7% from its low reached in March 2020, driven by a prudent fiscal stance and relatively high real interest rates.

Mexican economists surveyed by Banxico at the end of October 2020 estimate GDP change for 2020 and 2021 at -9.4% and +3.2%, respectively, with inflation at annual rates of 3.9% and 3.6%, respectively. Economists also expect the overnight interest rate to reach 4.0% at the end of both 2020 and 2021.

## Management Discussion of Fund Performance and Portfolio Strategy

During fiscal year 2020, the Fund's NAV per share registered a negative total return of -14.68%, while the MSCI Mexico Index registered a negative total return of -20.75%. The Fund's market price registered a negative total return of -18.79% during the same period, resulting in a 17.14% discount to its NAV per share, higher than the Fund's discount at the end of October 2019, which was 12.63%. The discount increase is in line with the overall increase in discounts in the non-US equity closed end fund asset class.

The Fund significantly outperformed its benchmark, the MSCI Mexico Index, during fiscal year 2020, on a total return basis, increasing its long-term period outperformance, as presented in the table below, which shows the annualized performance<sup>1</sup> of the Fund's market price, NAV per share and benchmark, for periods ended October 31, 2020.

<sup>1</sup> Performance figures take into account the reinvestment of distributions.

During fiscal year 2020, the Adviser increased the Fund's position in the consumer sector linked to local consumption, health and household products, due to its defensive operational positioning through issuers with strong balance sheets. On the other hand, the Adviser sold the Fund's entire position in Grupo Aeroportuario del Sureste, one of the airport issuers, prior to the collapse of its share price due to the pandemic, since it had reached levels above its fundamental value, as assessed by the Adviser. Additionally, the Adviser reduced the Fund's position in the materials sector, taking advantage of high volatility in commodity prices.

The following table shows the top five positive contributors to the performance of the Fund's NAV relative to the MSCI Mexico Index during fiscal year 2020. The table is sorted according to the contribution of these issuers to the Fund's outperformance relative to the MSCI Mexico Index and shows the issuers' market price returns during the period. This fiscal year, the Fund benefited from sharp decreases in the share prices of Grupo Televisa and Fibra Uno, in which the Fund did not have any holdings, and also benefited from decreases in the share prices of Fomento Económico Mexicano, América Móvil and Wal-Mart de México, in which the Fund had underweight positions.

### Top Five Contributors to Relative Performance vs the MSCI Mexico Index

Issuer	Industry	Return	Contribution to Relative Fund Performance	Average Over / Under Weight
Grupo Televisa	Media	-42.64%	1.64%	-3.17%
Fomento Económico Mexicano	Beverages	-38.28%	1.61%	-3.84%
Fibra Uno	Real Estate	-46.49%	1.57%	-2.91%
América Móvil	Communications	-21.20%	1.45%	-5.71%
Wal-Mart de México	Retail	-18.18%	1.06%	-6.02%

The following table shows the top five detractors to the performance of the Fund's NAV relative to the MSCI Mexico Index during fiscal year 2020 and shows their respective market price returns during the period. The Fund was affected by share price decreases in Banco Santander México, Grupo Aeroportuario del Centro Norte, Alsea and Alpek, in which the Fund had overweight exposures, and an increase in the share price of Cemex, in which the Fund had an underweighted position.

## Portfolio Composition by Industry

Percentage of Net Assets and Weights on MSCI Mexico Index, October 31, 2020

During fiscal year 2020, a total of 10,841,110 Fund shares traded on all U.S. consolidated markets, resulting in a daily average value of shares traded of \$468,350. Comparable closed-end funds<sup>2</sup> investing outside the United States traded a daily average and median of \$529,798 and \$301,714, respectively, during the same period.

The average price-to-earnings ratio (“PER”) of the Mexican equity market at the end of October 2020 was 30.0 times, affected by non-cash items such as impairment of assets and foreign exchange losses when valuing the cash and debt positions on the balance sheet, while the price-to-book value ratio was 1.6 times<sup>3</sup>. However, the PER was 16.5 times when considering only those issuers reporting positive net earnings. During the third quarter of calendar year 2020, financial statements of Mexican listed companies reported positive operational results, with revenues and EBITDA<sup>4</sup> increasing 2.6% and 4.4%, respectively, benefitting from the positive effect of income from exports and sales abroad when translated to local currency because the Mexican peso depreciated during the third quarter compared with the same period of the previous year. The Adviser has adapted appropriately to the current uncertain situation and will continue to identify companies with strong balance sheets, positive free cash flows, strong corporate governance policies, high quality management teams, attractive growth potential and sound business models that can best adapt to the challenging global economic environment.

## Expense Limitation Arrangement (“ELA”)

During fiscal 2020, the Fund and Impulsora had in place an ELA, as announced in March 2019. Despite significant reductions in Fund expenses during the last two years, the ELA has been reinforced since its implementation as follows: (1) during March 2020, Directors’ fees were capped at 11 basis points of Fund net assets from 14 basis points, and (2) starting in November 2020, the ELA was further reinforced by (i) a decrease in the minimum amount paid by the Fund under a Fund Services Agreement from the previous amount of \$337,500 or \$7.0 million Mexican pesos, whichever was less, to \$270,000, equivalent to an 18% reduction at Fund asset levels and the exchange rate, as of October 31, 2020, and additionally, (ii) Impulsora will maintain its commitment to a 1.50% ordinary expense ratio for fiscal 2021 (excluding amounts payable via the performance adjustment factor under the Fund’s Investment Advisory Agreement, taxes, interest, brokerage fees and any non-recurring expenses), but with a lower threshold for Fund net assets of \$180 million, instead of the prior threshold of \$200 million. During fiscal year 2020, the Fund’s expense ratio was 1.56%, lower than the expense ratio of 1.61% reported during fiscal 2019, despite a 17% reduction in the Fund’s average net assets during the corresponding periods.

## Temporary Suspension of Fund’s MDP

At its June 2020 meeting, the Board decided to temporarily suspend the Fund’s MDP. The Board noted that global financial markets had been severely affected by the “Covid-19” pandemic and its effects on economic activity. The Mexican equity market and the value of the Mexican peso were no exception, generating a sharp decrease in the Fund’s net assets. The Board considered that under the circumstances of high uncertainty, it was in the best interests of Fund stockholders to temporarily suspend the MDP in order to preserve capital. This action enables the Fund to maintain resources to take advantage of attractive investment opportunities that are being presented in the context of depressed equity valuations. In addition to the motivations mentioned above, the Fund has experienced a significant decrease in dividends received from portfolio issuers, as several of them have canceled or suspended previously announced distributions, given the uncertain economic environment. The Board understands the importance of distributions to Fund stockholders and will continue to review the Fund’s MDP regularly in order to reinstate it as soon as deemed advisable by the Board. In addition, the Fund will continue to distribute to shareholders all of its net investment income and net realized capital gains, if any, at least annually, even while the Fund’s MDP remains suspended.

## Final Comments

The global economy and worldwide social behavior and consumption patterns have changed significantly during the last months as a result of the Pandemic. The Mexican economy has been no exception and has been impacted negatively. However, economic activity and Fund issuers’ financial results have improved significantly since June 2020. In addition, Mexico’s fiscal position is strong, relative real interest rates remain attractive and the leading Mexican issuers continue to find ways to generate growth both in Mexico and abroad. The Adviser believes that these events also come with opportunities and has confidence that the Fund is well positioned to take advantage of them. The Fund took actions since 2019 to position its portfolio towards globalized Mexican companies with a significant portion of their income in hard currencies. This portfolio strategy has generated a significant investment outperformance relative to its benchmark during short- and long-term periods. At the same time, the Fund also started

in March 2019 a significant effort to reduce expenses, in order to support its continued long-term performance and to further the interests of Fund stockholders by continuing to deliver a competitive investment vehicle. This commitment was enhanced with additional measures taken in March 2020 and reinforced again during November 2020, by reducing the minimum amount paid by the Fund under the Fund Services Agreement and by decreasing the threshold of net assets in which Impulsora will waive fees. We are confident that investing in selected Mexican companies will provide attractive investment opportunities in the years to come, and your Fund is a suitable vehicle to achieve this goal. We hope you find this report useful and informative, and we thank you for your continued confidence in the Fund.

## Concentration Policy

The Fund has adopted a concentration policy, as permitted by the 1940 Act, that allows it to concentrate its investments in any industry or group of industries beyond 25% of the Fund's assets if, at the time of investment, such industry represents 20% or more of the IPC Index; provided, however, that the Fund will not exceed the IPC Index concentration by more than 5%. At the end of October 2020, no industry group represented 20% or more of the value of the securities included in the IPC Index.

## Proxy Voting

Information about how the Fund voted proxies during the twelve-month period ended June 30 will be available, without charge, upon request by calling collect Mr. Tofi Dayan, or on the SEC's website at [www.sec.gov](http://www.sec.gov). ## OPEN MARKET REPURCHASES

Under the Fund's open market share repurchase policy, the Fund may repurchase up to 10% of the Fund's outstanding common stock in open market transactions during any 12-month period if and when Fund shares trade at a price that is at a discount of at least 10% to NAV. During fiscal year 2020, the Fund did not repurchase Fund shares in the open market.

## Distribution Reinvestment and Stock Purchase Plan

The Fund's Distribution Reinvestment and Stock Purchase Plan (the "Plan") provides a convenient way to increase your holdings in the common stock of the Fund through the reinvestment of distributions paid by the Fund. The Plan includes the following:

- (1) **Voluntary Stock Purchase Option.** All registered stockholders (regardless of whether they are Plan participants) can make monthly voluntary cash investments in Fund shares through AST (the "Plan Agent"). The minimum investment for a voluntary cash investment is \$25.00; you may vary the amount of your investment as long as it equals or exceeds this \$25.00 minimum. There is a fixed transaction fee of \$2.50 and a \$0.10 per share commission for this service. Optional cash payments can be made online or by mail, as described further in the enclosed brochure. Stockholders can also authorize AST to make automatic withdrawals from a bank account.
- (2) **Clarification Regarding Reinvestment of Distributions.** Distributions received through the Fund's MDP can be reinvested directly in additional Fund shares, regardless of the character of such distributions for accounting and tax reporting purposes.
- (3) **Online Enrollment in the Plan.** As an alternative to mailing an authorization card to AST, stockholders may enroll in the Plan through AST's website at [www.amstock.com](http://www.amstock.com). To have distributions reinvested, stockholder authorization must be received by AST by the record date for a given distribution.
- (4) **Withdrawal from the Plan.** Stockholders may withdraw from the Plan by notifying AST. If a request for withdrawal is received by AST more than three (3) business days before a distribution payment date that distribution will be paid out in cash.
- (5) **Amendment of Plan.** The Fund reserves the right to amend or supplement the Plan at any time, but only by mailing to participants appropriate written notice at least thirty (30) days prior to the effective date thereof, except when necessary to comply with applicable laws or the rules or policies of the SEC or other regulatory authority.

The Plan brochure can be accessed through AST's or the Fund's website, at [www.amstock.com](http://www.amstock.com) or [www.themexicofund.com](http://www.themexicofund.com). If you have any questions, please contact AST at 1-877-573-4007 or 1-718-921-8124. You may also contact AST via mail at:

### American Stock Transfer & Trust Company, LLC

Attention: Plan Administration Department  
PO Box 922  
Wall Street Station  
New York, NY 10269-0560

If you are a Fund shareholder of record, you may enroll in the Plan by mail or online at [www.amstock.com](http://www.amstock.com). Please contact AST for further information or to request an authorization card for enrollment. If your shares are held in nominee or "street name" through a broker, bank or other nominee who does not provide an automatic reinvestment service and you wish to have distributions reinvested in shares of the Fund, you must notify such nominee and request that the change be made on your behalf or that your shares be re-registered in your own name.

You may withdraw from the Plan, without penalty, at any time by notice to AST. If your request to withdraw from the Plan is received more than three business days before any distribution payment date, then that distribution will be paid out in cash. If your request to withdraw from the Plan is received less than three business days prior to any distribution payment date, then that distribution will be reinvested. However, all subsequent distributions would be paid out in cash on all balances.

# GENERAL INFORMATION

## Continued

Should you choose to withdraw any shares from the Plan or discontinue your participation in the Plan, you will receive a certificate or certificates for the appropriate number of full shares, along with a check in payment for any fractional share interest you may have. The payment for the fractional shares will be valued at the market price of the Fund's shares on the date your termination is effective. In lieu of receiving a certificate, you may request the Plan Agent to sell part or all of your shares at market price and remit the proceeds to you, net of any brokerage commissions.

Under the terms of the Plan, whenever the Fund declares a distribution, Plan participants will receive their distribution entirely in shares of common stock purchased either in the open market or from the Fund. If, on the date a distribution becomes payable or such other date as may be specified by the Board (the valuation date), the market price of the common stock plus estimated brokerage commissions is equal to or exceeds the NAV per share of common stock, the Plan Agent will invest the distribution in newly issued shares of common stock, which will be valued at the greater of the NAV per share or the current market price on the valuation date. If on the valuation date, the market price of the common stock plus estimated brokerage commissions is lower than the NAV per share, the Plan Agent will buy common stock in the open market. Although stockholders in the Plan may receive no cash distributions, participation in the Plan will not relieve participants of any income tax that may be payable on such dividends or distributions. As a participant in the Plan, you will be charged a *pro-rata* portion of brokerage commissions on all open market purchases.

If you have any questions concerning the Plan or would like a hard copy of the Plan brochure, please contact AST using the contact information listed above.

# NEW YORK STOCK EXCHANGE CERTIFICATIONS

The Fund is listed on the New York Stock Exchange (the "NYSE"). As a result, it is subject to certain corporate governance rules and related interpretations issued by the NYSE. Pursuant to those requirements, the Fund must include information in this report regarding certain certifications. The Fund's President and Treasurer have filed certifications with the SEC regarding the quality of the Fund's public disclosure. Those certifications were made pursuant to Section 302 of the Sarbanes-Oxley Act ("Section 302 Certifications"). The Section 302 Certifications were filed as exhibits to the Fund's semi-annual report on Form N-CSR, which included a copy of the semi-annual report along with other information about the Fund. After the Fund's 2020 annual meeting of stockholders, it filed an annual certification with the NYSE stating that its President was unaware of any violation of the NYSE's Corporate Governance listing standards.

## Cost Basis Information

Beginning with the 2012 calendar year, the Fund is required to report to shareholders of record and the Internal Revenue Service, annually on Form 1099-B, not only the gross proceeds of Fund shares sold, but also their cost basis, for shares purchased or acquired on or after January 1, 2012. Cost basis will be reported using the Fund's default method of first-in-first-out ("FIFO"), unless the shareholder of record instructs the Fund to use an average cost method for their shares purchased or acquired on or after January 1, 2012. Alternatively, a shareholder can generally supply instructions for specific lot identification for a given transaction.

If your Fund shares are registered in your name and you wish to elect an average cost method rather than the default method of FIFO, you may do so by downloading a form that is available on the Fund's website, [www.themexicofund.com](http://www.themexicofund.com), under the section "Services", and mailing it to the Fund's Transfer Agent at the address indicated on the form. If you hold Fund shares through a financial intermediary, please contact that financial intermediary for instructions on how to make your election. If you wish to supply instructions for specific lot identification for shares purchased or acquired on or after January 1, 2012, please contact the Fund's Transfer Agent at (800) 937-5449.

# NOTES TO FINANCIAL STATEMENTS

October 31, 2020

## 1. Operations and Significant Accounting Policies:

The Mexico Fund, Inc. (the “Fund”) is registered under the Investment Company Act of 1940, as amended (the “1940 Act”), as a closed-end non-diversified management investment company. The investment objective of the Fund is to seek long-term capital appreciation through investment in securities, primarily equity, listed on the Mexican Stock Exchange.

The following is a summary of significant accounting policies followed by the Fund. The Fund is an investment company and, accordingly, follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board Accounting Standards Codification Topic 946 — Investment Companies, which is part of U.S. generally accepted accounting principles (“GAAP”). The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates. Subsequent events, if any, through the date that the financial statements were issued have been evaluated in the preparation of the financial statements.

On October 17, 2018, the Securities and Exchange Commission (“SEC”) adopted changes to Regulation S-X to simplify the reporting of information by registered investment companies in financial statements. The amendments require presentation of the total, rather than the components, of distributable earnings on the Statement of Assets and Liabilities and also require presentation of the total, rather than the components, of distributions to shareholders, except for tax return of capital distributions, if any, on the Statement of Changes in Net Assets. The amendments also removed the requirement for parenthetical disclosure of undistributed net investment income on the Statement of Changes in Net Assets. These Regulation S-X amendments are reflected in the Fund’s financial statements for the year ended October 31, 2020.

*Valuation of investments* — Investments are valued at the closing price reported by the Exchange on which the issuer is primarily listed. Investments in which the principal exchange is the NASDAQ Stock Market or the New York Stock Exchange (“NYSE”) are valued at the NASDAQ or the NYSE official closing price or the last sale price, respectively. Other equity securities for which market quotations are readily available are valued at the last reported sale price or official closing price on the primary market or exchange on which they are traded. Short-term securities with remaining maturities of less than 60 days at the time of purchase are carried at amortized cost, which approximates fair value. All other securities are valued in accordance with methods determined by the Board of Directors (the “Board”). If the Board believes that the price of a security obtained under the Fund’s valuation procedures does not represent the amount that the Fund reasonably expects to receive on a current sale of the security, the Fund will value the security based on a method that the Board believes to accurately reflect fair value.

GAAP establishes a fair value hierarchy that distinguishes between market data obtained from independent sources (observable inputs) and the Fund’s own market assumptions (unobservable inputs). These inputs are used in determining the value of the Fund’s investments and are summarized in the following fair value hierarchy:

- Level 1 — quoted prices in active markets for identical securities
- Level 2 — other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 — significant unobservable inputs (including the Fund’s own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. An investment’s level within the fair value hierarchy is based on the lowest level of any input, both individually and in the aggregate, that is significant to the fair value measurement.

October 31, 2020 *Continued*

The following is a summary of the inputs used as of October 31, 2020, in valuing the Fund's investments in securities:

Valuation Inputs	LEVEL 1	LEVEL 2	LEVEL 3	TOTAL
<b>ASSETS:</b>				
Investments in Securities:				
Equity Investments (a)	\$182,421,198	-	-	\$182,421,198
Short Term Investments (b)	-	\$7,771,116	-	\$ 7,771,116
Total Investments in Securities	<u>\$182,421,198</u>	<u>\$7,771,116</u>	<u>-</u>	<u>\$190,192,314</u>

(a) For detailed industry descriptions, see the accompanying Schedule of Investments

(b) These assets consist of time deposits and repurchase agreements with maturities of one business day. They are classified as Level 2 solely as a result of the Fund's valuation technique for short-term investments, using amortized cost which approximates fair value, instead of quoted prices in active markets, and thereby may not present any higher risk than Level 1 assets.

*Security transactions and investment income* - Security transactions are recorded on the date on which the transactions are entered into (the trade date). Dividend income is recorded on the ex-dividend date and interest income is recorded as earned.

*Foreign Currency* - The market value of Mexican securities, currency holdings and other assets and liabilities denominated in Pesos was recorded in the financial statements after being translated into U.S. dollars based on the open market exchange rate as reported by Bloomberg L.P. at the close of each business day. The open market exchange rate at October 31, 2020 was Ps. \$21.18 to \$1.00.

The identified cost of portfolio holdings is translated at approximate rates prevailing when acquired. Income and expense amounts are translated at approximate rates prevailing when earned or incurred.

The Fund does not isolate that portion of the results of operations arising as a result of changes in the foreign exchange rates from the fluctuations arising from changes in the market prices of securities during the year. Accordingly, the net realized and unrealized gain on investments presented in the accompanying financial statements include the effects of both such changes.

Reported net realized foreign exchange gains or losses arise from sales of short-term securities in exchange for cash, payment of services or non-functional currency denominated assets; currency gains or losses realized between the trade and settlement dates on securities transactions; and the difference between the amounts of dividends, interest, and foreign withholding taxes recorded by the Fund and the U.S. dollar equivalent of the amount actually received or paid.

Net unrealized foreign exchange gains and losses arise from changes in the value of assets and liabilities other than investments in common stocks, resulting from changes in the exchange rate.

*Repurchase Agreements* - The Fund enters into repurchase agreements with approved institutions. The Fund's repurchase agreements are fully collateralized by Mexican or U.S. Government securities. The Fund takes possession of the collateral and Impulsora del Fondo México S.C., the Fund's investment adviser (the "Adviser"), monitors the credit standing of repurchase agreement counterparties. It is the Fund's policy that the fair value of the collateral be at least equal to the principal amount of the repurchase transaction, including accrued interest, at all times. If the counterparty defaults, and the fair value of the collateral declines, realization of the collateral by the Fund may be delayed or limited.

*Realized gains and losses on investments* - Realized gains and losses on investments are determined on the identified cost basis.

*Foreign Taxes* - The Fund may be subject to foreign taxes on income, gains on investments or currency purchases/repatriation, a portion of which may be recoverable. The Fund will accrue such taxes and recoveries, as applicable, based on its current interpretation of tax rules and regulations that exist in the markets in which it invests.

# NOTES TO FINANCIAL STATEMENTS

October 31, 2020 *Continued*

Under the Mexican tax law, gains realized on sales of securities listed on the Mexican Stock Exchange are subject to a 10% income tax payment for non-residents of Mexico. However, non-resident sellers that reside in a country with which Mexico has in effect a tax treaty (such as the United States), and that are eligible for the benefits of such tax treaty, are generally exempt from such tax. The Fund, as an investment company organized in the United States, is claiming eligibility for the benefits of such tax treaty. Therefore, the Fund believes that it should be exempt from such tax on realized gains, and no such tax is being recognized or paid by the Fund.

The Mexican tax law also includes a 10% income tax withholding on dividends distributed by companies to non-residents of Mexico, which applies to profits generated since 2014. As a result, the Fund expects that the amount of taxes withheld on dividends the Fund earns will continue to increase as investee companies pay dividends from profits generated since 2014. During the year ended October 31, 2020, the amount of such tax withholdings was \$227,480.

*Income Taxes* - No provision has been made for U.S. income or excise taxes for the year ended October 31, 2020, on net investment company taxable income or net long-term capital gains as defined by the Internal Revenue Code (the "Code"), since the Fund intends to comply with the requirements of the Code applicable to regulated investment companies and to distribute substantially all of such income to its stockholders.

GAAP prescribes the minimum recognition threshold a tax position must meet before being recognized in the financial statements. The Fund recognizes the tax benefits of uncertain tax positions only when the position is more likely than not to be sustained, assuming examination by the Internal Revenue Service. An assessment of the Fund's tax positions has been made and it has been determined that there is no liability for unrecognized tax benefits that should be recorded relating to uncertain tax positions taken on returns filed for open tax years.

Each of the Fund's federal income tax returns for the prior three fiscal years remains subject to examination by the Internal Revenue Service.

The Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefit will change materially in the next 12 months.

*Dividends to stockholders* - Cash dividends are recorded by the Fund on the ex-dividend date.

A tax return of capital generally occurs when distributions exceed current and accumulated tax earnings and profits. The Fund had earnings and profits for the year ended October 31, 2020 that were lower than the distributions made to stockholders. This has had the effect of characterizing a portion of the Fund's distributions as a tax return of capital.

*Risks of Investment in Mexican Securities* - Investing in Mexican securities involves certain considerations not typically associated with investing in securities of U.S. issuers, including (1) lesser liquidity and smaller market capitalization of the Mexican securities markets, (2) currency fluctuations, (3) higher rates of inflation and domestic interest rates and (4) less stringent disclosure requirements, less available information regarding Mexican public companies and less active regulatory oversight of Mexican public companies.

The Mexican Stock Exchange is a concentrated market. A certain individual has a controlling interest in companies representing approximately 19.0% of the market capitalization of the Mexican Stock Exchange. As of October 31, 2020, the Fund held investments representing 16.5% of its net assets in two of these companies (América Móvil and Telcel). The value of the Mexican Stock Exchange may be subject to greater volatility than markets that are less concentrated. Any factors or events which impact this individual could have negative repercussions for the issuers in which he holds a controlling interest, including certain Fund investments and the Mexican Stock Exchange as a whole.

## 2. Investment Advisory Agreement:

The Fund has a management contract (the “Agreement”) with the Adviser, a Mexican company registered under the U.S. Investment Advisers Act of 1940. The Adviser furnishes investment research and portfolio management services consistent with the Fund’s stated investment policies. Under the terms of the Agreement, the Fund pays the Adviser a monthly fee (the “Base Fee”) at the annual rate of 1.00% on the first \$200 million of average daily net assets, 0.90% on the excess over \$200 million up to \$400 million, 0.80% on the excess over \$400 million up to \$600 million, 0.70% on the excess over \$600 million up to \$800 million and 0.60% on the excess over \$800 million.

Under the terms of the Agreement, a performance component of the Advisory fee was implemented effective on April 1, 2015. The performance component is based on the performance of the Fund relative to the MSCI Mexico Index (the “Index”). A performance adjustment factor will be applied to the Base Fee that will either increase or decrease the Base Fee, depending on how the Fund’s NAV performs relative to the MSCI Mexico Index over a trailing 12-month period. The performance adjustment factor is to be applied daily; it is applied to the average net assets of the Fund over the trailing 12-month period. The resulting dollar figure will be added to or subtracted from the Base Fee depending on whether the Fund experienced better or worse performance than the MSCI Mexico Index. The performance adjustment factor shall be equal to 0.025% per percentage point that the investment performance of the Fund exceeds or trails the investment record of the Index by 2 percentage points during the trailing 12-month period ending on the last business day of the prior month. The maximum performance adjustment factor is 0.20%. Accordingly, if the investment performance of the Fund exceeds or trails the investment record of the Index by 10 percentage points or more during the trailing 12-month period ending on the last business day of the prior month, the performance factor for the month following that 12-month period will be 0.20%.

For the year ended October 31, 2020 the accumulated Base Fee of \$1,928,078 was increased by \$44,753 due to the performance component, resulting in a total advisory fee of \$1,972,831.

---

## 3. Fund Services Agreement:

The Fund had entered into a Fund Services Agreement with the Adviser, which provided for certain services to be performed by the Adviser, including among other activities, the determination and publication of the NAV of the Fund, the maintenance of the Fund’s books and records in accordance with applicable U.S. and Mexican Laws and assistance in the preparation and filing of annual reports and tax returns. The Fund paid the Adviser a monthly fee at the annual rate of 0.11% on the first \$600 million of average daily net assets, and 0.09% on the excess over \$600 million. For the year ended October 31, 2020, the fee was not lower than the annual amount of \$337,500 or \$7.0 million Mexican pesos, whichever was less. For the year ended October 31, 2020, the Adviser received \$319,696 under the Fund Services Agreement. Starting on November 1, 2020, the agreement with the Adviser was terminated and the Fund entered into a new Fund Services Agreement with IFM Capital, LLC, a subsidiary of the Adviser, under substantially similar terms as the agreement with the Adviser except that the fee will not be lower than the annual amount of \$270,000, representing a reduction of approximately 15.5% from the amount received during the year ended on October 31, 2020.

---

## 4. Expense Limitation Agreement:

The Fund has entered into an Expense Limitation Agreement with the Adviser, which provides that Impulsora will waive fees and/or reimburse expenses (excluding amounts payable via the performance adjustment factor under the Investment Advisory Agreement, taxes, interest, brokerage fees, extraordinary expenses (including, without limitation, costs incurred in connection with any claim, litigation, arbitration, mediation, government investigation or similar proceedings) and any other expenses not incurred in the ordinary course of the Fund’s business (including, without limitation, costs incurred in connection with any tender offer, rights offering or shelf registration statement)) to the extent necessary so that the Fund’s ordinary annual expense ratio

# NOTES TO FINANCIAL STATEMENTS

October 31, 2020 *Continued*

does not exceed 1.50% beginning on April 1, 2019 through October 31, 2020, so long as Fund net assets remain greater than \$200 million. In March 2020, when Fund assets fell below the threshold of \$200 million, the Board and Impulsora agreed to amend the Expense Limitation Agreement, where the Adviser continued to waive a portion of its fees through October 31, 2020, when applicable, even when Fund net assets are below the prior threshold of \$200 million, in an amount necessary to maintain an ordinary operating expense ratio of 1.50% at a hypothetical Fund net asset level of \$ 200 million.

In consideration of the Adviser's agreement to waive fees and/or reimburse expenses, the Fund has agreed to repay the Adviser in the amount of any waived fees and/or Fund expenses reimbursed subject to certain conditions. Specifically, such repayment shall be made monthly, but only if the operating expenses of the Fund (exclusive of any of the excluded expenses described above), without regard to such repayment, are at an annual rate (as a percentage of the average daily net assets of the Fund) equal to or less than 1.50%. Furthermore, the amount of prior fees waived or expenses reimbursed to be paid by the Fund in any month shall be limited so that the sum of: (a) the amount of such payment and (b) the other operating expenses of the Fund (exclusive of any of the excluded expenses described above) do not exceed the annual rate (as a percentage of the average daily net assets of the Fund) of 1.50%. Prior fees waived or expenses reimbursed to be paid by the Fund with respect to any fiscal year of the Fund shall not be payable by the Fund to the extent that the amounts payable by the Fund pursuant to the foregoing during the period ending three years after the end of the month in which the Adviser incurred the expense are not sufficient to pay such fees and/or expenses.

In September 2020, the Board and Impulsora agreed to further amend the Expense Limitation Agreement, where the Adviser will continue to waive a portion of its fees through October 31, 2021, when applicable, even when Fund net assets are below the prior threshold of \$200 million, in an amount necessary to maintain an ordinary operating expense ratio of 1.50% at a Fund net asset level of \$180 million or higher.

Due to the decline in the Fund's net assets to below \$200 million since March 2020 and due to the positive amount of the performance adjustment factor during the year ended October 31, 2020, the Fund's ordinary operating expense ratio was above 1.50%. For the year ended October 31, 2020, a net of \$16,110 of fees were waived by the Adviser.

---

## 5. Purchases and Sales of Investments:

Purchases and sales of investments, excluding short-term securities, for the year ended October 31, 2020 were as follows:

<b>Purchases</b>	
Common Stock	\$36,274,248
Total Purchases	<u>\$36,274,248</u>
<b>Proceeds from Investments Sold</b>	
Common Stock	\$43,687,835
Total Sales	<u>\$43,687,835</u>

---

## 6. Capital Stock:

On October 31, 2020, there were 150,000,000 shares of \$1.00 par value common stock authorized, of which 15,005,224 shares were outstanding.

The Fund offers a Distribution Reinvestment and Stock Purchase Plan (the "Plan") to its stockholders. Fund stockholders are automatically enrolled as participants in the Plan unless they notify the Fund's transfer agent otherwise. During the year ended October 31, 2020, the Fund did not issue shares under the Plan.

# NOTES TO FINANCIAL STATEMENTS

October 31, 2020 **Continued**

The Board has authorized the Fund to repurchase up to 10% of the Fund's outstanding common stock in open market transactions during any 12-month period if and when Fund shares trade at a price that is at a discount of at least 10% to NAV. During the year ended October 31, 2020, the Fund did not repurchase Fund shares in the open market.

## 7. Distributions to Stockholders and Income Taxes:

The amount and characterization of certain income and capital gains to be distributed are determined in accordance with U.S. federal income tax regulations, which may differ from GAAP. These differences are primarily due to differing book and tax treatments in the timing of the recognition of net investment income or gains and losses, including foreign currency gains and losses.

The Fund may periodically make reclassifications among its capital accounts to reflect income and gains available for distribution (or available capital loss carryovers) under income tax regulations, without impacting the Fund's NAV. Any such reclassifications are not reflected in the financial highlights.

On August 12, 2008, the Fund received authorization from the SEC that permits the Fund to distribute long-term capital gains to stockholders more than once per year. Accordingly, the Board approved the implementation of a MDP to make quarterly cash distributions to stockholders. Under the MDP, distributions will be made from current income, supplemented by realized capital gains and, to the extent necessary, paid in capital. On March 13, 2020, the Board decided to adjust the quarterly distributions from \$0.25 per share to \$0.18 per share under the Fund's MDP.

On June 5, 2020, the Board decided to temporarily suspend the Fund's MDP. The board will continue to review economic conditions regularly in order to reinstate it as soon as deemed advisable by the Board. In addition, the Fund will continue to distribute to shareholders all of its net investment income and net realized capital gains, if any, at least annually, even while the Fund's MDP remains suspended.

The tax character of distributions paid during the fiscal years ended October 31, 2020 and October 31, 2019 were as follows:

	2020	2019
Distributions paid from:		
Ordinary income	\$1,860,111	\$5,388,612
Long term capital gains	-	2,120,524
Return of capital	\$4,592,135	7,496,088
Total distributions paid	<u>\$6,452,246</u>	<u>\$15,005,224</u>

As of October 31, 2020, the components of accumulated earnings (deficit) on a tax basis were as follows:

Net long-term capital loss	\$(572,066)
Unrealized depreciation	<u>\$(100,556,751)</u>
Total accumulated deficit	<u><u>\$(101,128,817)</u></u>

As of October 31, 2020, the cost of investments for federal income tax purposes was \$290,744,890. Gross unrealized appreciation of investments was \$4,794,230 and gross unrealized depreciation of investments was \$105,346,806, resulting in net unrealized depreciation on investments of \$100,552,576. The difference between book basis and tax basis unrealized appreciation/(depreciation) is attributable primarily to wash sale loss deferrals.

Under the Regulated Investment Company Modernization Act of 2010, net capital losses recognized by the Fund after October 31, 2011 are carried forward indefinitely, and retain their character as short-term and/or long-term losses. At October 31, 2020, the Fund had post-enactment net capital loss carryforwards as follows: short-term \$0; long-term \$572,066.

# NOTES TO FINANCIAL STATEMENTS

October 31, 2020 **Concluded**

## 8. Commitments and Contingencies:

In the normal course of business, the Fund enters into contracts that contain a variety of representations and warranties or provide general indemnifications. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote.

# REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and Board of Directors of The Mexico Fund, Inc.

## *Opinion on the Financial Statements*

We have audited the accompanying statement of assets and liabilities of The Mexico Fund, Inc., (the “Fund”), including the schedule of investments, as of October 31, 2020, the related statement of operations, the statement of changes in net assets and the financial highlights for the year then ended, and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of October 31, 2020, the results of its operations, the changes in its net assets and the financial highlights for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

The statement of changes in net assets for the year ended October 31, 2019 and the financial highlights for each of the four years in the period ended October 31, 2019 have been audited by other auditors, whose report dated December 10, 2019 expressed unqualified opinions on such statement of changes in net assets and financial highlights.

## *Basis for Opinion*

These financial statements are the responsibility of the Fund’s management. Our responsibility is to express an opinion on the Fund’s financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB. We have served as the Fund’s auditor since 2020.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audit we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Fund’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of October 31, 2020 by correspondence with the custodian. We believe that our audit provides a reasonable basis for our opinion.
